Cor. King & Victoria-sts., Toront Drummond & Brown received the following to-day over their private wire from Lamontague, Clarke & Co. of New York: Market opened at about closing, but has been dull and grong, will little change in prices. L. & N. advanced fractionally on prospects of payment of a cash dividend. London did nothing and the transactions were mostly confined to the operations of the room. The exchange market showed further weakness, actual demand being held at 4.80½, which is considered ½6 below the gold exporting point. Chicago sent some bearish crop dispatches reporting damaging rains in Nebraska and some injury to corn in Kansas. The move ment of the new crop promises to be very large, however, and to begin very early, and we are inclined to believe the earnings of the granger roads from now on will show decided improvement over last year. Potatoes—Unchanged; single bags \$1.50 to \$1.90, wagon load lots \$1.40.

Turnips—Firm at 75c to \$1 per bag; carrots scarce at 60c per dozen; parships 75c per bag; cauliflower \$1.60 per doz.; green peas 60c per peck; new onions 80c per peck; American cabbage 75c to \$1.25 per doz. Canadian cabbage 19c per head; cucumbers 25c to \$2 per doz.

Apples—Dull and unchanged; russets are quoted at \$4 to \$4.50 and spies at \$6.

Poultry—Dull and easy; chickens 40c to 50c a pair, spring ducks 60c to 90c a pair, old 50c a pair, turkeys 10c a lb.

ALEXANDER & FERGUSSON Bank of Commerce Building, Toronto.

John J. Dixon & Co. received the following despatch over their private wire from Henry Allen & Co. of New York: Some strength has been shown in a few stocks to-day, but in every instance it has been traceable to manipulation. There is still no public, and without a public there never can be a continuing activity or strength worthy of any confidence. Wall-street is full of syndicates, which are stuck with bonds which they are anxious to get rid of, and to their exertions more than anything else is due everything like firm tendencies in the market. But what they are all working for is a market on which to unload. It is impossible to conceive of s-more untrustworthy and dangerous foundation for any market. Call money is a drug. Time money is as hard to get as ever. Some of the largest banking houses of the street, and notably one millionaire trust company, are not only discriminating against trust stocks and other uncertain and inactive stocks as collateral, but are refusing to put out money on mortgage loans selltain and inactive stocks as collateral, but are refusing to put out money on mortgage loans selling below par. They take the ground that there
is no ready market for such bonds, and that
forced liquidation would result in much lower
prices for such stuff. Considering the vast volume of securities thus boycotted, this latest discrimination upon the part of the money lenders
is a matter of very grave consequence.

A. E. AMES, - 46 King-st. W R. Cochran received the following to-day from Counselman & Day. of Chicago: Wheat opened and closed \(\frac{1}{2} \) chigher, naving fluctuated within half-cent range, with early buying for outside account on influence of wet weather in the Ohio and Southern Mississippi valley. The selling by local traders on estimated increased receipts caused the decline, and on better tone in late cables a general evening up caused closing bulge to the price of calls. Traders seem kitle inclined to make new speculative ventures until after receipt of next Government agricultural report. Corn and oats were weak in tone, and holders were free sellers on all firm spots. Pork was depressed by country selling, occasioned by reports of isolated cases of yellow fever in the south, which, however strenuously denied, still had the effect of shaking the confidence of holders. The statement of 506,000 tierces of lard in the world's visiole supply, against 270,000 last year, seems to more than offset the shortage in the hog crop, and the trend of the market is downward at the moment.
