The Emperor William is generally about 5 in the morning; and the Queen about 5 in the morning; and the Queen Regent of Spain is dressed for the day at sharp 7. King Humbert's hour of rising is 6, as is that of King Oscar and King Charles of Roumania; while the late Emperor Dom Pedro of Brazil, when in Europe, was wont to get up at 3, and call upon his friends and acquaintances at the extraordinary hours of 4 and 5 in the morning. The tenor of advices from Washington is that nothing unfriendly to the Sugas Trust is likely to pass this Congress. Exchange is decidedly inactive at unchanged rates. It is stated that London is somewhat disappointed with the President's message on currency, and expected him to make a more vigorous position. There was selling for London account this afternoon, General Electric has obtained another injunction against competing company for infringement of Edison incandescent lamp patent. There is more bearish talk about Western Union, Washington advices staring that adverse action is probable in Congress toward the company.

CHICAGO GOSSIP. Henry A. King & Co., 12 King-street east, received the following despatch from Chicago to-day:

Wheat firmer at the opening. Cables Wheat firmer at the opening. Cables showed but little weakness and did not reflect the decline in our market. Particulars of the large cash business done here yesterday were not fully known until the morning, and that helped to strengthen the market. The fact that cash wheat is in good demand at a premium over Dec. is somewhat misleading. The outsider does not understand why millers should pay from one to two cents premium for car lors on track when the same grain is selling freely at the Dec. price in store. As a matter of fact, it costs about one cent to take wheat out of store and put it on track, and millers are willing to give a little more for wheat on track that they can see and examine. Undoubtedly a good deal of that now being taken is wanted because navigation is about closing, and it will cost more to ship it by rail, but there is, nevertheless, a strong and urgent demand from millers, who want the grain to grind and cannot get it in their home markets. is, nevertheless, a strong and urgent demand from millers, who want the grain to grind and cannot get it in their home markets. Unfortunately for holders, there is nothing to indicate that there will be any material reduction in Northwest receipts for some time to come. For the first half of this week primary receipts have been six hundred thousand bush more than for the first half of last week.

For a short time only there was a marked reduction in receipts, and the trade was encouraged by this circumstance. Now that we are getting back to the large totals of last month, the effect is apparent on the price. The foreign demand is not increased, and the outlook for the coming crop has been much improved by the heavy rain and snow. Rallies are to be expected at any time and we are sure to get them.

Provis ons opened weak and slightly below yesterday's closing. There was free selling by brokers early, that looked as if the Cudahy Packing Company was letting the Cudahy Packing Company was letting go of stuff bought yesteruay. Later in the session there was selling of Jan. pork by Seymour, Dunn, and May pork and ribs by C. L. Raymond, which was supposed to be for Armour. The cash trade is first-class, and foreign demand is stimulated by the low prices.

Stock Exchanges and Chicago Board of Trade. 46 King-St. W., Toronto. Tel. 1087 McIntyre & Wardwell (John J. Dixon) received the following despatch from Schwartz, Dupee & Co., Chicago:
Wheat was weak. Nothing helped so much as inc. of outside trace; cables & little lower; then the Northwestern receipts, 833 cars, were larger than last week's, 754, and larger than last year's, 605. week's, 754, and larger than last year's, 608. There was a measure reported by a French committee, suggesting the possible increase in French duty. On the other hand, export clearances were liberal, about 350,000 bush. San Francisco reported 200,000 bush wheat sold to go to Australia. There was a moderate cash business done here to-day with some holders of winter wheat asking a premium over May. One lot of winter wheat, 25,000 bush, was sold to go to Kansas City; another lot, 20,000 bush, to go to Michigan. Charters were made, 70,000 bush, possibly to go to Toledo. New York led the selling here. There was some covering of shorts. Elevator people were willing to change at 4%c to-day, and the spread was varied from 4%c to 4%c. Exceptionally low prices for the coarse grains has a depressing effect on the market.

Corn again got to the low price made Tuesday. The weather confitinued dry and cold. Western shippers reported the farmers offering more freely. Cables easier. Samples steady; trade was unimportant, the range barely 1/2 cent. Dec. kept at 3d discount. the range barely ¼ cent. Dec. kept at of discount.

Provisions again worked lower, considering the narrow market. Packers were very free sellers of pork, lard and ribs. The public and scalping shorts at the buying; the cash demand was dull, and packers acted at the stock yards as if they were at last tired of 3½c hogs. The closing was heavy at the lowest prices yet reached this season, and there is nothing in the situation to give hope of a change in the tendency toward lower prices. Freshen Things Up
