—The buildings erected or in course of erection in Moncton this season number 118, of which 71 are dwelling houses.

—A proclamation appears prescribing new rules and regulations for the examination of masters and mates.

—One third of all the banking in the world is done in the British Empire.

—The Australia which sailed yesterday for London took 3,600 barrels of apples besides other cargo.—*Halifax Chronicle.*

—The Grand Manan *Island Press* says that all the buoys placed down by the Government steamer Newfield have sunk or gone adrift.

—The total interest-bearing debt of the United States is $1,206,476,500 and the total debt is $1,838,952 272. The decrease since June is over thirty millions.

—Nothing of material importance has occurred in the Franco-Chinese war since our last, beyond the fact that it is stated that Minister Ferry has decided to accept England's offer of mediation between the two nations. Several small engagements have taken place, but the loss of life has been slight.

—On the 29th ult, six men were precipitated to the bottom of the shaft of one of the Acadia Mines belonging to the Steel Co., of Canada. They were proceeding down the shaft in the usual way, when some of the gearing broke, and the cage fell to the bottom. Three men were killed outright, and the remaining three very seriously injured. Two were expected to die.

THE POTATO CROP.—Throughout the Lower Provinces, and New England and New York, the acreage and yield of potatoes are considerably below last year's. The yield is about one-third less than in 1883. In the great shipping counties of Nova Scotia the crop is almost a complete failure. Instead of exporting potatoes, some sections will have to import for seed.

THE LUMBER TRADE.—A correspondent writes: "The lumber market in the States is in a most deplorable condition. There is one feature in the trade which ought to receive prominence, viz., the inferior qualities of lumber supplied. The stocks of lumber accumulated in in the country are large, and unless a sharp revival of business takes place the trade will receive a shaking up."—*Ex.*

A BAD LOOKOUT.—Commercial agency journal reports in New York, indicate that the general feeling is one of general depression. The opinion is widely held that no revival of any permanence is likely to be experienced this year. Generally, mercantile collections continue backward, heavier houses being called on to carry those which have reason to ask and receive extension. There are no features looking to an improvement in industrial lines.

—A person who nine years ago left Yarmouth for the United States, leaving behind him debts of about $6000, has notified his creditors to call on an agent to receive fifty per cent of their claims. For several years he had barely made a livelihood, but during the past three years has been doing better, as he deserves to do.

—The N. Y. *Tribune's* London cable says: The South African debate on Wednesday shows th at the ministry have at last resolved to defend Bechuanaland, to protect the Zulu reserves, to punish the Cethell murderers, and to act in accord with the Cape government. Colonel Warren's departure is delayed only for the necessary preparations.

A TERRIBLE REVENGE.—Last week a workman of a theatre in Glasgow, Scotland, out of revenge for being discharged, raised a false alarm of fire, during a time when an immense audience was present. The scene that followed was awful, in the terrible struggle to reach the door. Men, women and children trampled over each other, and when order was finally restored, through the efforts of the actors and cooler members of the audience, it was found that sixteen persons were killed and twelve fatally and many others badly injured. The fiend who raised the alarm has been arrested.

THE EGYPTIAN PROBLEM.—Cairo, Oct. 26.—The plan of Lord Wolseley's expedition to Khartoum furnishes him a total force of 8,500 English troops. He will take five thousand of these to Dongola, leaving a reserve corps of 3,500 at Wady Halfa. The Mudir of Dongola has promised to furnish a contingent of 6,000 men, composed of a mercenary tribe armed with Remington rifles. If an advance in force is deemed necessary beyond Dongola, the reserves will be pushed on from Wady Halfa. Several sheikhs are escorting Lord Wolseley from Wady Halfa to Ambigol. The Canadian boatmen speak lightly of the obstructions and difficulties of the Nile cataracts.

U. S. TRADE WITH THE SPANISH WEST INDIES.—London, Oct. 31.—A despatch to the *Standard* from Madrid says at meetings of the cabinet council yesterday, presided over by the King, Senor J. Deeldmayer, minister of foreign affairs, submitted for consideration the conditions agreed upon between United States minister Foster and Senor Albacete, Spanish commissioner, for a special treaty of commerce with America. This treaty would be the starting point for a new colonial and tariff policy in the Spanish West Indies. It would open Castilian colonies to American competition against Spanish imports, but it would also admit Cuba and Porto Rico into the Zollverein, which America is gradually forming with the Mexican and other Spanish speaking countries around the Gulf of Mexico and in Central America, on the basis of reciprocal concessions and discriminating duties to exclude European competition. Canada, British West Indies and Central American republics will receive some advances from Yankee diplomacy shortly.

—The Eaton family association of the United States and Canada held its second annual gathering at Tremont temple, Boston, on Tuesday, October 21st. This body comprises many representatives of the five leading branches of the Eaton family whose genealogical record is being industriously prepared. At the meeting interesting reports were read from the geneologists at work on the several lines, Rev. W. Eaton, of Albany, New York, Prof. D. C. Eaton, of Yale college, New Haven Conn.; Rev. Wm. Hadley Eaton, of Keene, N. H., Wm. L. Eaton, of Concord. Mass., and Daniel A. Eaton, of Lowell, Mass. Interesting letters were read from Norman R. Eaton, of New York, Senator Wm. Eaton, of Connecticut, and others. The Eatons of this province were represented by Rev. Arthur Wentworth Eaton, a member of the executive committee of the association. It is expected that part of the historical record of the family will be published during the coming year. This will be a matter of great interest to many persons in this province.

—The 15 mile walking match which came off at the rink on Wednesday evening, was fairly well attended and considerable interest was taken in it by the spectators. There were three pedestrians started—all amateurs. They were W. H. Foster, of St. John, N. B.; R. N. Kaulbach and John Johlmore, of Lawrencetown, N. S. The walking was a square heel and toe contest and was good, each man showing up well. The race was won easily by Mr. Forster who came in at the finish about a mile ahead, Mr. Kaulback was second. The stakes were:—first $30 00, second prize $20.00. Foster's time was as follows:—

1st mile, 7 min. 18½ sec.
5 miles, 45 min. 32 sec.
10 miles, 1 hour 44 min.
15 miles, 2 hours 41 min. 34½ sec.

Two Model Nova Scotians.

C. H. Cahan, who has arrived in town to attend Dalhousie, tells a story of the enterprise of two young bluenoses in Hebron, Yarmouth, which ought to be read, marked, learned and inwardly digested by young bluenoses all over the province. Three years ago the boot and shoe manufacturing firm of L. Patten & Co., met with business reverses and failed. A score of hands were thrown out of employment. Mr. Patten removed to Boston. He had two young sons—Frank, aged 22, and Gilbert, aged 20. They decided to start in life on their own book. Both were thoroughly convinced that there was money in manufacturing boots and shoes in Nova Scotia, and that Yarmouth county was admirably adapted for manufacturers in that line. The only thing needed for success was experience brains, energy and an ordinary amount of capital. Frank went to Lynn and afterwards to Breckton, and by very close attention to work, obtained a thorough mastery of the business. Gilbert went to Honolulu with A. J. Hood another young Yarmouthian, obtained a situation as clerk in a large sugar house at a salary of $1,800, was a total abstainer, kept his weather-eye open, saved his money, and therefore had a great advantage over his fellows. After awhile he speculated some in sugar, was fortunate, and after three years returned to his native place with $10,000 cash. Frank, too, had been getting money as well as experience, and also returned home. They entered into partnership, and are now erecting a large three-story factory, fitted with the most approved machinery, which will be in operation in a few weeks, with a capacity of about 500 pairs a day. Of the hands to be employed, 12 or 15 Nova Scotians are to be repatriated from the New England boot and shoe factories. This combination of brains, energy and faith can hardly fail to succeed. The new firm will make a speciality of the manufacture of the finer grades of women and children's boots and shoes."—*Halifax Herald.*

RUM'S DOINGS.—A woman named Hewley, died in Halifax, under suspicious circumstance last week; and at the inquest the following evidence was given by a nine years old son of the deceased.

"All that I know about it was I saw father beating mama with the leg of the chair about 10 o'clock; she was tight, but able to stand up; I think that was the reason he beat her; she came back about 4 p.m. and got dinner for us all and he sacked her out again; he struck her again with the chair twice across the back; she wasn't drunk then; he was drunk though able to stand up; she didn't come home then till after I went to bed about 10 o'clock; all that I know about the bottle was that father fired it at mama but it didn't strike her; father struck her over the back with the leg of the chair when she was lying on the bed where father put her; grandmother burned the leg of the chair last night."

What a scene for a child! and what an arraignment of the liquor traffic!

A post mortem of the remains was held and after the evidence of the physician was given the jury returned a verdict of "Died from apoplexy, caused by the excessive use of liquor."

MARVELLOUS ESCAPE.—*New York, Oct. 31st.*—The steamer Rhein, from Bremen, reports Oct. 24th, fell in with the steamer Maasdam, Rotterdam for New York, all ablaze and took from her boats, passengers and crew, 186 in in number, and brought them to New York. The Maasdam experienced a north west gale Oct 23rd, during which the petroleum tank leaked slightly. Next day at 2 p. m. one of the crew, in endeavoring to discover the break, passed a lighted lamp near the tank which exploded, the contents, taking fire and shortly enveloping the steamer in flames. All hands took to the boats saving nothing, and at nine o'clock were picked up by the Rhein. No one was lost or injured in the slightest.

TELEGRAPH NOTES FOR THE WEEK.

London, Oct. 30.—The first of the series of meetings in behalf of the Tichborne claimant was held last night at St. James' Hall. The claimant was accompanied by his son upon the platform, and delivered an address to a large and enthusiastic gathering. Mr Weldon also made a speech. The claimant (Tichborne) in his speech declared his persecution by the Government was ascribable to the fact that Mr. Gladstone's daughter had married into the Tichborne family. He stated that he had determined to devote his life to obtaining justice for himself and children. A resolution was passed by the meeting demanding that the claimant should be restored to his rightful position.

Lewiston, Me., Oct. 29.—On account of the shutting down of the mills there is considerable distress among discharged operatives. Applications to overseers of the poor for assistance are increasing rapidly.

San Francisco, Oct. 28.—Guaymas advices say disastrous storms have occurred on the coast of Lower California. The Mexican steamer "Estado de Sonora," with nineteen passengers and a crew of thirty-eight, is believed to be lost with all on board. The American schooner "Dara" is also believed to be lost. A three days' storm, beginning October 7th, destroyed twenty houses at Cape St. Lucas. A large number of cattle were killed. Nine Mexican coasters, with crews of three to five each, were lost with all on board, except one sailor and a boy.

London, Oct. 28.—A violent north-west storm prevailed to-day throughout the British Isles and neighboring seas. Houses were demolished at Shields, vessels in the Clyde were driven from their moorings, and many small wrecks are reported along the coast. Four vessels were driven ashore off Greenock. Incoming steamers report fearful weather encountered out at sea. A steamer at Lisbon for Cardiff was wrecked at Pensance, and the German cruiser Unkine, was wrecked off the Danish coast. The crews of both were saved.

San Francisco, Oct. 28.—The steamer Arabia, from China and Japan, brings the following additional details of the great typhoon of September 15th, which caused such terrible destruction of life and property at Yokohama and Tokes. The storm came up so rapidly and with such tremendous fury that no precaution could be taken. In Yokohama the entire lower part of the city called the "Settlement," was completely wrecked and no house was left standing. The inhabitants made no attempt to save their property but fled for their lives to escape drowning from the rushing waters, driven upon the land by the fury of the wind. The newspapers make no attempt to furnish details of the destruction in that part of the city. They summarize by saying, as the "Settlement" was destroyed, it is useless to publish any details. The higher portions of the city being more exposed, were equally unfortunate. Several of the largest and most substantial buildings were swept away as if built of pasteboard. In that section alone 128 houses were destroyed and 390 damaged. The loss of life was less on shore than at sea; out of 80 sailing vessels 53 were lost with 120 persons on board. Twelve vessels with 120 persons are also missing. Of five lifeboats that went to the rescue of the drowning crews four were swamped and ten men of their crews were drowned. The Typhoon was severest experienced since 1870.

Wady Halfa, Oct. 30.—General Wolseley has reached Dahl with a detachment of mounted infantry. The regiments are forming, and the 60th, which has been mounted, has started for the front.

Cairo, Oct. 30.—There will be a general movement of the British forces up the Nile next week. It is reported that two steam launches have been wrecked in the cataracts.

— A London paper asserts that England has offered to mediate between France and China.

London, [illegible], Oct. 1st, 1884.

Dear Sir,—

The arrivals of American apples to this market [illegible] limited, and the trade [illegible] scarcely commenced actively [illegible] soon as all home and continental [illegible] finished with; and this [illegible] time from now; our buyers [illegible] will be concentrated on the American [illegible] Canadian apples and for all sound [illegible] and good looking fruit we anticipate [illegible] good demand at paying prices.

The following prices have been made at various sales this week in London, viz:—Baldwins, [illegible] for choice; Greenings, 12s to [illegible] burg, 13s 6d to 14s; Hubbardston [illegible] 6d to 12s, choice, 15s to 16s; [illegible] 6d to 13s; Vandevere, 12s; [illegible] Kings, 15s 6d to 16s; Red [illegible] Spies, 11s 6d 11s 6d, New [illegible] to 23s 6d.

As previously stated, our market requires good [illegible] nice appearance, for which it [illegible] pays well and any consignments [illegible] will receive our very best [illegible].

Yours truly,
[illegible] S. TOWNSEND & Co.

Josh Billings says:

Next to a clear conscience for solid comfort comes an old shoe. One trouble exists in the fact that old shoes wear out, and another that they cannot always be worn. Undoubtedly Josh must be a sufferer from corns, and has not yet heard of the great and only sure corn cure, Putnam's Painless Corn Extractor. This great remedy never fails to remove the worst corns—soft or hard—in a few days. No discomfort, no sore spots, but prompt and certain cure. Beware of flesh-eating and so reproducing substitutes. Use Putnam's only. N. C. Polson & Co., Kingston, propr.

MRS. SOPHIA POTTER'S BONE RHEUMATIC LINIMENT.

Read the following Testimonial.

CLEMENTSVALE, Annapolis Co., N. S., July 20th 1883.

MRS. POTTER.—Dear Madam:—I was a great sufferer with dropsy. My limbs were badly swollen and I was unable to walk or stand. After using 3 bottles of Bone Rheumatic Liniment I am now able to walk two miles, and in bathing my Lungs and kidneys I found great relief. I consider it a wonderful Liniment, and can heartily recommend it to the public as a sure and speedy remedy for pain and soreness, and never will I be without it in the house.
