Derricks	2,	Oils	12	Turbines	7, 18, 55
Diving Apparatus	52	Packing	1	Turbines, Steam and Water	18
Drawing Materials	8,	Patent Attorneys	7, 14,	Valves, Check	7, 17
Drills, Twist	12, 43,	Pencils, Drawing	47	Valves and Hydrants	7, 11, 17, 52
Dredges	2	Pipe, Wood	53	Vises	1, 56
Drying Apparatus	55	Pipe Wrought Iron	2,	Wall Coping	13
Dynamos	42,	5	7	Water Meters	48
Electrical Machinery and Supplies,		Pipes, Cast Iron	15	Water Purification Plants	45
etc.	1, 4,	Points	56	Water-Tube Boilers	14, 43, 55
Elevators	1,	Poles and Ties	45,	Water Wheels	18
Explosives	4	Post	56	Welding Processes	17
Engines, Gas, Gasoline and Oil				Wire and Cable	1, 44, 47, 55
2, 14, 45,	48				

RAILWAY ENGINEERING

By CECIL B. SMITH, Ma. E.

Treats chiefly of location, construction and maintenance, thus enabling the young engineer to take a more intelligent interest in and general understanding of the general principles on which railways are surveyed, constructed and operated. Care is taken to give only what is fairly well tried and established. It gives each part its due importance, the combination of the whole subject technically considered as a ground work for future study.

A 200 Page Treatise, Fully Illustrated.

The Price is \$1.50.

ALL ORDERS FOR COPIES SHOULD BE ADDRESSED TO

The Book Department, Canadian Engineer

2 Church Street
