SHE DON'T WANT TO TELL

—what made her beautiful. Yet it's only what other women know. Wealth of beauty comes only with a healthy body. Health is a set of good habits. Dr. Pierce's Favorite Prescription assists nature in establishing these habits. Women have sallow faces, dull eyes and hollow cheeks, together with low spirits, when they are made miserable with disorders, derangements and weaknesses peculiar to their sex. Health is regained, after periods of dizziness, nervous prostration and excitability, or other manifestations of derangement or displacement of the womanly organs, when the "Prescription" is used. Besides, it's sold on its merits. The proprietors take the risk.

It is guaranteed to benefit or cure all the disorders, diseases, and weaknesses of women, or money is refunded.
