This overblit is quite different from any other, though very simple and graceful; the wash, or panier back effect is produced by the novel way of draping, and though it has the appearance of a separate part, it is all one thing, and one of its chief attractions is its convenient shape for hanging over by any other pattern. It is intended for any kind of goods, and will be a great favorite for summer materials. Paris houses are now using it for their model in preparing suits for the spring season.
