The Lumberman's

“Remedial Bill”

That Really Permits of No Discussion.

We can show lumbermen how by an investment of from \$3,300 to \$3,500, they can, in converting 5 million feet of logs into lumber, save a gross sum of \$6,375.00, making a net saving each year of \$3,000.00.

Is this not a “REMEDIAL BILL” that permits of no discussion?

WRITE US FOR PARTICULARS.

Waterous Engine Works Co.

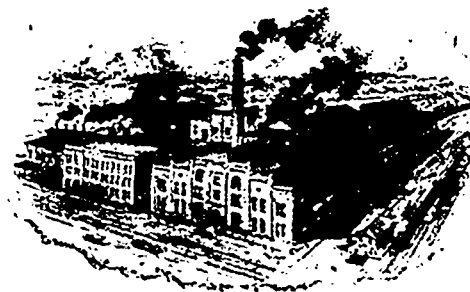

BRANTFORD, CANADA
