GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Carleton Place and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Warton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Harrie and other points in group B to Toronto, 6 1/2c.; Collingwood, Penetang, Coldwater, Waubushene, Sturgeon Bay, Victoria Har-
