

NEWS AND NOTES.

Catarrh—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarrh. Out of 200 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent. of the patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at once adapted his cure to their extermination; this accomplished, the catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple, and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, Canada, and enclose stamp for their treatise on Catarrh.—*Montreal Star*.

"The babe's in the wood" remarked a punster, at the same time pointing to an infant sleeping in its cradle.

The great success which has followed the introduction of Minard's Liniment has tempted unscrupulous parties to put up and force on the market white Liniments similar to Minard's in appearance. The public is cautioned not to be put off by salesmen who say "this is just as good," but to take no other preparation than MINARD'S. 10-4

If a bedstead creaks at each movement of the sleeper, remove the slats and wrap the ends of each in old newspapers. This will prove a complete silencer.

ADVICE TO MOTHERS.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. 25c a bottle.

Helibore sprinkled on the floor at night destroys cockroaches. They eat it and are poisoned.

It seems to be pretty well understood that children must be sick at times, we would say to all anxious mothers that Nestle's Milk Food is an excellent preventative of cholera infantum, and all such complaints so common to children.

Haunted Houses—Gin palaces.

Edwin Alden & Bro., Cincinnati, O., and New York City, have just issued a very beautiful and attractive Illustrated School Catalogue containing newspaper lists, and some valuable suggestions in the direction of using illustrated advertisements. Many sample illustrations of leading colleges in various parts of the country are given with the expenses that would be entailed by using large engravings in connection with newspaper advertising. The Catalogue is quite artistic, and will be sent free on application.

A bass weighing twenty-nine pounds was captured at Portsmouth the other day. Perhaps it was a double bass—one of the deep C fellows.
