ARTIFICIAL LIMBS (Marks' Patents)

WITH RUBBER HANDS AND FEET

FORTY-TWO YEARS of the most extensive experience with the most satisfactory results of any manufacturer in the world. The confidence of the public, popularity among the crippled, and flattering commendations from all parts of the world attest the superiority of the **RUBBER HAND** and **FOOT**, which possess the quality of yielding to every essential angle of the natural, without the use of complicated hinges, joints and contrivances, which only annoy and render expensive their daily use.

The accompanying cut represents a young man who lost both legs by a railroad accident, one above the knee, and the other two inches below. He is able to walk one-half mile in eight minutes, without a cane or any assistance except his artificial limbs with rubber feet. He can perform a day's work without unusual fatigue; can go up and down stairs—in fact can do any of the ordinaries of life without exhibiting his loss.

ARMS restore appearance and assist greatly in the performance of labor. From our copyright formula, Artificial Limbs are made and shipped to all parts of the world, without the presence of the patient, with guaranteed success.

Parties who live at a distance, or who would be inconvenienced by a journey to our place, can supply measurements on our formula and feel the assurance that they will receive our best attention. Thousands are thus treated in Canada, Mexico, Central and South America, Europe and our own States and Territories.

A Treatise of 430 pages, containing 300 Illustrations and Copyright Formula sent FREE.
