

## TECHNICAL CATEGORY

### Drafting & Illustration Group, Page 60

The only movement in this group during the year was the promotion of one man from the 3 to the 4 level.

### Electronics Group, Page 61

This Department now has delegated authority for the first 6 levels of this group. There are currently no women ELs in the PSC inventory.

### Engineering & Scientific Support Group, Page 62

This group has remained static during the period under review, save for the reclassification of one employee from EG-ESS-9 to AS-5, and one secondment from another Government Department.

### General Technical Group, Page 63

This year, one man was promoted from 4 to 5 and another was reclassified from 5 to 6. The additional man at the 8 level is on secondment and is employed in a specialized area. The woman at the GT-6 level is going on CAP.

### Social Science Support Group, Page 64

This group has continued to grow at the entry level as a result of the reorganization of Records Management and the introduction of Bureau Information Control Offices in the Department.

Most of the intake came from the CR group:

|                   | <u>MEN</u> | <u>WOMEN</u> |
|-------------------|------------|--------------|
| from CR-4 to SI-1 | 4          | 2            |
| CR-5 to SI-1      | 1          | 4            |
|                   | <hr/> 5    | <hr/> 6      |
