

MISSIONS FULLY ACCESSIBLE ON SIGNET

This list of missions on SIGNET updates the list provided in SIGNET News of November 14, 1994.

Have you been anxiously awaiting the day when you could send e-mail messages to your colleagues in Canberra, for example? Canberra and some nineteen other missions have recently been installed on SIGNET. To keep you up-to-date, below is the most current alphabetical list (as of February 1, 1995) of SIGNET installations outside the Lester B. Pearson Building, showing the city and country names and corresponding ICONDESK code.

Why not detach the list from the *Newsletter* and keep it as a handy reference - perhaps affixed to the wall beside your workstation.

Abidjan, Ivory Coast: ABDJN

EXTVNIER
Vienna, Austria (United Nations):
VPERM

Vienna, Austria: VIENN
Vienna, Austria (CSCE): VNACE

Warsaw, Poland: WSAW
Washington, D.C., USA: WSHDC
Wellington, New Zealand: WLGTN

An ICONDESK 4.3 Quick Tip

Would you like to find out whether or not a mission is on SIGNET? It's as easy as 1, 2, 3 - just follow these steps:

1. In Mail Manager, click on Message, then click on Send Mail;
2. In the Send Mail window, click on Query. In the Address Query box, type in the ICONDESK code for the mission in the User Name box (e.g., WSHDC), click on OK;
3. If the mission you queried does NOT have -CDCS as the suffix, then the mission is on SIGNET.

Please note:

- SIGNET clients-working in Annexes can be found in the directory service in ICONDESK by querying the mission code (e.g., you must now query "Rome" rather than "Romeannx"); and
- The ICONDESK code for the Halifax Summit Office is -OCONR.

SIGNET Newsletter is published fortnightly by the SIGNET Client Services Division (STC) and distributed in Canada and at missions abroad to all employees of the Department of Foreign Affairs and International Trade.

Units wishing to have a notice published in the *SIGNET Newsletter* should forward the text to STC with a memo signed at the director level. All readers are invited to send to the SIGNET Suggestion Box draft articles they wish to have published.
