Complete Package Technology Ltd. (Compact) is a 100% Canadian owned and controlled company, manufacturing a complete range of products for the Oil, Gas and Petro-Chemical Industries.

Product lines include pressure vessels, line heaters, skid-mounted packages and pressure piping. All items are designed, manufactured and certified in accordance with A.S.M.E. Code requirements and Customer Specifications and can be supplied in carbon steel or alloy materials. Compact also specializes in the design and manufacturing of High Efficiency vertical Cyclone Separators and horizontal Inline Pipeline Scrubbers.

Services which can be provided to clients include Engineering & Drafting, Troubleshooting and Commissioning and Field Construction and Installation. Compact's interests in the market area include: Direct Sales of Oil & Gas Separation and Production equipment, Supply of Engineering & Drafting services, Construction and Installation services and possible joint venture opportunities.

Mr. Jim Cannel
President
