SIR ADAM'S CHARGES

The big lumber interests of the province came before a joint conference of the Ontario Government and the workmen's compensation co sion yesterday afternoon to work over the several matters which have been occasioning speculation. In no way

dependents of Ontario workmen will be recompensed wherever they may be living, but it was suggested that since compensation would come so easily here, the humbermen might have to shoulder an undue assessment to meet all claims. The following companies had repre-sentatives at the hearing: Spanish River Pulp and Paper Co., Northern Timber Co., Graves-Bigwood, Byng Inlit; Gillies Bros., Braeside; W. E. Because we had the cash we were able to make this astounding purchase-\$100,000 worth of the very finest furs at almost half the cost of making. This is the most startling fur purchase ever consummated

and spells unprecedented opportunities for you. The fact that we bought these furs is a guarantee of their high quality. THE PRICES, at which we have marked the various items, ARE LITTLE MORE THAN WE PAID-practically half the cost of making. You will never be able to buy quality furs at prices to equal these again. present session entirely to government measures. "There is no precedent for this resolu-tion," said the premier, "but all our en-ergies as a nation are concentrated on the war, and every interest must be subordinated to this overmastering pur-pose. Accordingly, the government pur-poses to take away the opportunity for private members to introduce bills, and will confine its legislative proposals to measures for prosecution of the war." A. Bonar Law, speaking for the oppo-sition, agreed to the resolution. He said that the opposition intended to treat the present sitting of the house as a war session as had been done in Canada and France. shows that the former, Dr. Hutchin-son, was neglectful of his duties and open to censure. With one exception the charges were justified, and it is France. No Contentious Measures.

In support of his resolution, Premier Asquith said further: "So long as war conditions prevail, and until they are determined—I hope and trust that at no distant date they will be probable that the London Council, with the sanction of the provincial oard, may take action. Evidence taken at the hearing show determined in our favor—we must post-pone discussion of the plural voting bill and all domestic legislation in subordination to the one national purpose." The house adopted the resolution.
