

# The Improved Common Sense Dry Kiln

•••••  
Maintains

its

lead

over all

others.

•••••

•••••  
It is pre-

eminently

the

best process

in use.

•••••

It extracts the moisture from the centre; combines active circulation, moderate heat, and condensation of the sap; secures the quickest and best results in the most perfect and economical way known. The process is applicable to old or new kilns. Quickly and repeatedly repays all outlay. For Hardwood Lumber use no other, and avoid all checks, warps and case-hardening. It seasons lumber exactly like, and equal to, air seasoning. More largely used than all others in England and the United States. Address,
