THE LAND OF SUNSHINE

Canadians Are Rapidly Possessing the Land.

As an illustration, the sales to the sons of Canada for ONE MONTH amounted to \$36,900.00. This is not the largest month's sales, but is taken as a fair average of the sales of these Rich Fruit Bearing Lands which are destined to make many Canadians independent in a few years.

An orange plantation is sure to produce a permanent income for the land-holder of Canada-Cuba Lands, all of which lie in a rich fertile belt, and are so situated that they possess the best shipping facilities and a ready market for all the products in Havana and New York.

The lands have only been on the market for a few months, and upwards of 20,000 ACRES already have been sold.

The Company is composed of well-known business men of Canada, which is a guarantee that every representation will be found to be correct.

Our best references are those who have visited our vast Cuban Estates and have returned and now are among the largest purchasers,

Those desiring to better their position in life, or anticipating a change in occupation, or looking for an investment which is sure to treble in a short period, will do well to call and get full information regarding this profitable proposition.

We will be pleased to give the names and addresses of hundreds of the best citizens of the Dominion who have purchased and are locating upon these lands, intending to cultivate the same, and make happy homes for themselves on these fertile lands.

tion, the petition against Sir Frederick is dismissed, which confirms him in his seat.

In the Queen's-Shelburne case, the preliminary objections raised on behalf of Hon. W. S. Fielding, the sitting member, were dismissed, and the supreme court sent the case back to the petition against the finance minister.

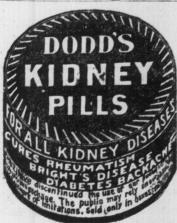

The previous fine in five years it occurs to the average granger that he should insher that he should insher were constructed in the average granger that he should insher were constructed in the average granger that he should insher were constructed in the average granger that he should insher were constructed in the average granger that he should insher were constructed in the average granger that he should insher were constructed in the average granger that he should insher were constructed in the average granger that he should insher were spirits \$10.748.22 and \$17.527-94, tobacco \$14,428.82 acetic acid \$1249-80, raw leaf \$369.90, cigars \$11,421.12, bonded factories \$2434.13, officers' salutions and puts it down with his heterogeneous fock. From such a haphazard method as this he expects to get some fine chicks. He may possibly obtain a slight degree of improvement, but his the total was \$95.461.84 which makes a

Judgment in the Cape Breton-Canada case goes against the Richelieu & Ontario Co., the court holding that the steamer Canada was alone to blame for the collision in question. The case is remitted to the exchequer court, Quebec admiralty district, for the assessment of the damages to be paid by the Richelieu & Ontario Navigation Co. to the owners of the Cape Breton.

Now, in some respects no one is so well situated to raise thorobred fowlis as the farmer. Plenty of green stuff in summer and clover and waste veges tables in winter, are advantages he has over half the fanciers. He can raise his fowlis cheaper, keep them cheaper, and they will be larger, hardier and more vigorous than those of the oreeder who must keep both his old and young stock in contracted quarters the year round.

The entrance examination is an untractive and the examination of the Change of our orchards under experiment re-mained fairly moist under the cultivat-ed surface where cow peas had been

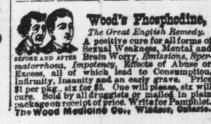

where cow peas are grown on steep lend, which has a tendency to wash, that it the stubble, if allowed to stand unplowed until spring, will check the washing to a considerable extent, tho not to the extent that some other crops for specific particulars as to aliegations do. Even after plowing under the peas made. the soil will not wash so much as it (Canadian Associated Press Cable.) would if the cow peas were not there. The fact that the soil is mellow and loose allows the water to soak in in-stead of washing off, thus holding the

If the cow peas are to be pastured to hogs (a profitable disposition to make of them is in orchards that are of bear-ing age so that the hogs will not in-jure the trees), varieties which produce many seeds are desirable. It is well to terday from Pelee Island with 20,000 bushels of oats and a cargo of wheat particular soil and select these if they

James Reynolds died on Monday afternoon at his residence, 107 McGill-street, at the age of 95 years. Deceased was born in Dublin and emi-grated to Canada 65 years ago, settl ing in Prince Edward County, and later in Meaford, where he engaged n farming and retired about 25 years ago, making Toronto his home. He was a staunch Conservative, and at the reception to Hon. J. P. Whitney in Massey Hall, had a seat upon the platform and enjoyed a hearty hand-shake from the premier and other three sons and two daughters, Dr. H. Reynolds of Chicago.

Quebec. The extension of this trade Quebec. The extension of this for Would help to secure low freights for How to Regain It Without Cost Until

Strength of body-strength of mind! Who would not possess it if they could? it is nature's greatest gift—our most valuable possession. Without this valuable possession. Without this strength life is a failure, with it everystrength life is a failure, with it every-thing is possible. Almost every man was made strong, but few have been taught how to preserve this strength. Many, through ignorance, have wast-ed it recklessly or used it up exces-sively, leaving the body exhausted, the nerves shaky, the eyes dull and the the nerves shaky, the eyes dull and the mind slow to act. There are thousands of these weak, puny, broken-down men dragging on from day to day who might be as strong and vigorous as ever they were if they would only turn to the right source. Electricity cures these weaknesses. It gives you back the very element you have lost. the very element you have lost. It puts new life into the veins and renews the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will

tain am I now of what my method will do that I will give to any man who needs it my world-famed DR. SANDE N ELECTRIC BELT AND SUSPENSORY FREE UNTIL CURED. You p ay nothing down, you deposit nothing, you risk nothing; but upon request I will furnish you with the Belt to use, and if it cures you pay me my price—in many cases not over \$5.00. If you are not cured or satisfied, return the

As I am the originator of this method of treatment and have made it a great success, there are many imitations of my Belt; but my great knowledge, based on 40 years' experience, is mine alone. My advice is given free with the Belt.

This offer is made especially to men who lack strength and vitality, who have drains, losses, impotency, varioo cele, etc., but I also give my Belt on the same terms to sufferers from Rheu matism, Lame Back, Sciatica, Kidney, Liver and Stomach Troubles.

Call or write for a Belt to-day; or, if you want to, look into the matter further. I have two-of the best books ever written on Electricity and its

further. I have two of the best books ever written on Electricity and its medical uses, which I send free, sealed, by mail.
