The Municipal Act, as newly revised, provided that appeals against street pavings as local improvements, may be made to the council of a municipality after the basis of assessment has been fixed by the court of revision. Heretofore appeals against sewers and sidewalks only have been so ai-

and sidewalks only have been so allowed. The result of the extension of the privilege to appeal was responsible for the appearance of several deputations, and the final settlement of some long-drawn-out local feuds over the kind of paving to be used.

Controller Hocken, whose design of asking the board of control to appeal to the railway board to alter in the city's favor its order re car routes was frustrated by the lack of a quorum at the special meeting called for 11 a.m., did not submit a motion to council, as had been expected. He explained afterwised him that the board of control had power to act without reference to had power to act without reference to mendation was referred back to be remained and the control of the city to contribute largely towards the viaduct. A snap vote taken on the mayor's amendment resulted in its being snowed under. His worship was absent at the time.

To Be Considered Again.

Ald McGhie objected to the form in which the board of control recommended that an engineer should be appointed by the city to co-operate in the previous problem. A man might be chosen who favored railways.

Controllers Hocken and Harrison hastened to explain that no autocratic powers were intended. The recommendation was referred back to be re-

Grover McCreery of Glencoe was anxious to contest the riding, as were several other prominent men, but they will make way for Mr. Stewart, who opposed Hon. G. W. Ross and made a spiendid run. He also ran against W. S. Calvert for the Dominion house, and it is felt that he should have the convention at this time if he wants it, which he does the conservatives, who day, only Ald. Ald. Gery's motion for the resurfacting of Wellington-street, between Bay-street and Yonge-street, carried, Ald. McMurrich alone dissenting.

George Bell, in behalf of St. Andrew's Church, opposed the asphalting of Simcoe-street, between Wellington-street and King-street, claiming that the chief benefit would be to cartage agents. Ald. McMurrich alone supported his contention.

Issuing Debentures.

Ald. McGhie objected to asking the legislature for power to issue debentures for expenditures ranging from \$40,000 for a public bath house at Stephanie-place, to \$2500 for a new island police station. He thought the proposed applications too petty, and that the city's credit would suffer if such outlays were not provided for out of the

This bold and out-spoken movement on Ald. Church strongly supported Con-troller Harrison that the \$2500 might be too small, but was not alarmed at the prospect of issuing more deben-tures, as the debenture debt per head

was not increasing.
"Better ask the treasurer," advised Ald. McGhie. Ald. Keeler, too, feared the appearance of weakness in the city's financial position if an appli-

cation were made.

A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valumotion to set a minimum amount upon debentures. The four items, including

Aid. Geary asserted that all the shunting would be done in the railway yards, which were peculiarly well situated for the purpose. A bridge at the foot of Bay-street was looked upon favorably by Ald.
