

ROSBACH. ROSBACH. ROSBACH.

Natural Table Water.

BOTTLED AT THE ROSBACH SPRINGS, NEAR HOMBURG, THE FAMOUS HEALTH RESORT OF GERMANY.

Rosbach Sparkling Table Water,
The Best Drinking Water in the World,
Alone or Mixed with Wines, Spirits, etc.
DRUNK BY H.R.H. THE PRINCE OF WALES.

SIR CHARLES CAMERON, the eminent Analyst and Professor of Chemistry, says: "The water is remarkably free from organic impurities. It is bright, sparkling and highly charged with carbonic acid gas. Its flavor is decidedly more agreeable than that of any mineral water I have ever tasted."
It may safely be used as a daily drink, and will be found beneficial in cases of gouty and acid dyspepsia. I can cordially recommend this excellent water.

Rosbach. = Rosbach. = Rosbach. Rosbach. = Rosbach. = Rosbach.

PROFESSOR WANKLYN, the well-known Analytical Chemist, in answer to the question, "Which water do you recommend for daily and habitual use?"

DR. WALLACE, writing from the City Analyst's Laboratory, Glasgow, says: "I consider the Rosbach unsurpassed for table use."

REPLIED—
"I know of one only which is quite satisfactory and that is Rosbach Water."

Text of award of the INTERNATIONAL EXHIBITION at Chicago, 1893: "Rosbach is a lightly mineralized, highly carbonated natural mineral water; it is a clear, bright, refreshing beverage, absolutely pure, well bottled and of agreeable, piquant taste."

Rosbach. THE LANCET says: "When taken alone, the water is peculiarly soft and smooth to the taste. According to our examination its organic quality is beyond reproach."

ROSBACH is used in all principal clubs, hotels and restaurants in England. ROSBACH is used by distillers, because ROSBACH improves every kind of spirit. ROSBACH is used for tasting by spirit merchants, because ROSBACH brings out the good qualities of whisky and wine. ROSBACH is recommended by caterers and retailers, because ROSBACH is universally preferred to other waters. ROSBACH is the best natural table water in the world.

THE PHARMACEUTICAL JOURNAL says: "As a table water for constant use, Rosbach may be recommended on account of its freedom from organic impurity, and because the alkaline carbonates are not present, as in the case of some other waters."

SYNOPSIS OF MEDICAL REPORTS:

THE HOSPITAL says: "Of all table waters in the market, we consider Rosbach to be on the whole the purest, the most palatable and the best."

ROSBACH is originally pure. ROSBACH is delicious, sparkling and refreshing. ROSBACH blends better with wines, spirits or milk than any other water, because it contains the least proportion of earthy salts.

"We have found it to be the pleasantest and most palatable of table waters."

ROSBACH is charged entirely with its own natural carbonic acid gas. ROSBACH is unsurpassed for table use.

THE STATIST says: "Rosbach Water is first rate and ought to command a good sale."

ROSBACH is used in all principal clubs, hotels and restaurants in England. ROSBACH is used by distillers, because ROSBACH improves every kind of spirit. ROSBACH is used for tasting by spirit merchants, because ROSBACH brings out the good qualities of whisky and wine. ROSBACH is recommended by caterers and retailers, because ROSBACH is universally preferred to other waters. ROSBACH is the best natural table water in the world.

DR. YORKE DAVIS states: "Rosbach sparkling table water is certainly the most pleasant I have yet tasted. Its antacid properties make it highly beneficial in the case of corpulent, gouty, rheumatic and dyspeptic people."

WALL-ST. LIST KEPT STRONG

Some Further Gains in American Securities.

Canadian Stocks Dull-Toronto Exchange to Resume Afternoon Session-Dun's Weekly Trade Review-Few Failures - Aggregate Bank Clearings-Gossip.

Friday Evening, Aug. 19.

Canadian securities were dull again today. On the Toronto board, C.P.R. sold up to 8 1/2% in sympathy with London, and London Electric closed strong at 112 asked.

The local exchange will resume its afternoon sessions on Monday.

On the Montreal board, Montreal Railway and Toronto Railway exhibited a little buoyancy, but trading generally was very light.

After the insignificant recessions of yesterday, due to profit-taking sales, Wall-street stocks resumed their upward march today, and gold gains were scored in both railroads and industrials.

American rails receded 1/4 to 1/2 in London today.

Consols closed unchanged in London.

In Paris, 3 per cent. rentes were at 103 1/2.

French exchange on London, 25 1/2 2/3.

Amount of bullion withdrawn from Bank of England on balance to-day, £25,000.

Spanish four closed at 40 1/2 in London.

Rock Island earnings so far this month are said to be \$100,000 greater than in same part of August, 1897.

The net gold balance in the United States Treasury this morning was \$109,043,080, an increase of \$643,410.

There is talk on the street that St. Paul is approaching meeting will be put on a 6 per cent. basis.

Flower interests are talking par for Rapid Transit on continued large earnings.

At New York, bonds closed as follows: U.S. new four, reg., 127; do, coup., 127;

U.S. four, 111 1/2; do, coup., 111 1/2; do, second, 97; U.S. five, reg., 112; do, coup., 112.

Messrs. A. E. Ames & Co. received the following quotations from London: Grand Trunk four, 75 1/2; Grand Trunk second, 45 1/2; Wabash "B" Income, 3 1/2.

Not Many Failures.

R. G. Dun & Co. say that the total failures in Canada for the week ending yesterday were 21, against 18 the previous week and 25 the corresponding week of 1897.

Aggregate Bank Clearings.

According to R. G. Dun & Co., the aggregate bank clearings for the week ending yesterday, as compared with those of the same week last year, were:

Aug. 18, '98. Aug. 18, '97.

Montreal \$11,109,227 \$11,818,408

Toronto 7,496,066 7,213,511

Winnipeg 1,566,824 1,754,459

Halifax 1,245,681 1,038,591

Hamilton 884,931 906,052

St. John 688,915 610,172

Total \$22,711,393 \$23,346,400

Money Market.

On the local market, call loans are at 4 to 4 1/2 per cent. In New York call loans today are 1 1/2 to 1 3/4 per cent. The Bank of Montreal's rate is 2 1/2 per cent., and the open market rate 3 1/2 per cent.

Foreign Exchange.

Aemilium Jarr & Co., 23 King-street-west, Toronto, stock and exchange brokers, report local rates to-day as follows:

New York Gossip.

Henry A. King & Co., 12 King-street-east, received the following despatch today from New York:

The stock market today has been rather dull and steady with Minneapolis, Iron and T.C.I. the strong features on reported progress of the proposed consolidation and large increase in earnings. Manhattan held steady throughout the day on decline of the selling of a majority of the stock to Metropolitan Street Railway interests.

Sugar was very erratic, declining to 12 1/2 at opening and advance to 3 per cent. on attempts to cover shorts, and later selling off to 1 per cent. at 4 o'clock.

People's Gas continued heavy on account of agreement with the Indiana Gas interests. The Grangers were strong in advance of about 1 per cent. The trust element covered a good many stocks today and went long, but towards the close were forced to be a disposition to sell on account of the two solidities, but prices held strong and in most cases at the best of the day.

Blank Day in London Markets.

New York, Aug. 19.—Cotton—Spot closed easy; middling grade, 6 1/2; middling upland, 6 1/2. Sales, 1132 bales.

R. G. Dun's Weekly Trade Review.

In the Montreal district the weather has been somewhat too dry for the pastures, but has been very favorable to harvesting operations, which are well under way, and grain crops are reported to be turning out well. Trade progresses favorably for the season; there are already symptoms of fall demand setting in in some lines, and there are reasonable grounds for the expectation of a satisfactory autumn business. Payments are generally well spoken of, and failures for the week are insignificant.

Wholesale dry goods circles are quiet at the moment, but a good number of buyers from the Lower Provinces and from the west are looked for towards the end of the month, and the fall military order has been fixed for the 30th inst. If retail business is fair, and stocks of light fabrics are better worked off than last year, when a cool August affected sales of these goods, changes in values are reported, but some caution is felt as to whether Canadian manufacturers of prints will make any headway in the spring price list of these goods, usually less than that of the U.S. view of the further discrimination in "spits and ribbons" recently gone into effect. Woollen manufacturers continue to be well employed, but at the moment are light buyers of raw wools, which are very firm in price. Groceries show a steady distribution countrywards, and present no special features in the way of changed values, except that salmon packers' agents have been advised to withdraw all quotations. Leather does not move very briskly, but a few good transactions are reported in splits and in the way of changed values, that fall orders are not so large as in 1897, which was an exceptional year; however, manufacturers for jobbers feel the falling off most, but most of the regular trade are fairly employed. In hides there is no change. For cements there is good inquiry, with light stocks, and owing to higher quo-
