In the course of the evening Lord Strathcona read a message from Sir Wilfrid Laurier, conthis season. Mrs. Payne Whitney, and

Gladstone, M.P., chief Liberal whip, will preside.

Joseph Exaggerated.

The Spectator says Mr. Chamberlain's speech to the C.M.A. greatly exaggerated the weakness of the existing ties uniting the empire. He entirely ignored the fact that 60 years ago we had almost exactly the system of colonial preference which he most demands, and that the outcome was well nigh the ruin of the empire. We bound ourselves to buy of one another, with the result that imperial patriotism and sentiment all but extinguished.

Rough on the Colonel.

Opportunity Given for Prospectors to "Make a Pile" - Some Hints at "Gobbling" of Territory.

"The poor man has as much chance as the rich" is the emphatic statemen of Thomas W. Gibson, director of the provincial bureau of mines, in speaking of the Ontario laws that provide for the staking out of claims in the

cobalt area of Temiskaming. The conditions under which the prospector may make a bid for fortune, as explained by the official, certainly hold out allrements to the man of 'mall means and big ambitions. By paying \$10 he can get a government license that gives him the whole area, or such of it as had not already been acquired, to range over. He has a year in which to carry on the hunt for the cobalt "bloom"—a pinky surface effluorescence "bloom"—a pinky surface effluorescence that is a sign of mineral wealth be-neath—and when he has made his strike, he stakes out his 40-acre claim, that being the regulation size fixed by the government, and what the earth yields is his own exclusive property. yields is his own exclusive property.

The government exacts no royalty or
that \$150 a year taxes, but stipulates that \$150 a year be spent in mining work. At the end of four years the prospector has the option of buying from the government at \$3.50, or of leasing at \$1 per acre.
"The laws are unusually liberal," admitted Mr. Gibson, "Personally, I

He thought the government had done a great deal toward the developing of mining in the district since the Temiskaming Railway surveyors had made their discovery. The bureau of mines had practically made the district known to the world by its issue of printed forms descriptive of the rock formations, and the way in which to distinguish that which was ore bearing. A great deal of information of value to prospectors had been given out, and Prof. W. G. Miller's report was much in circulation among miners now on the ground, the advice it gave being looked upon as very valuable.

As an example of the richness of the ore in spots, Mr. Gibson remarks to the solutions, and the stream and the Mohawk & Malone Railroads, in circulation among miners now on the ground, the advice it gave being looked upon as very valuable.

As an example of the richness of the ore in spots, Mr. Gibson remarks to the solutions and the mohawk & Malone Railroads, and the Mohawk & reported on the Newport & Ottawa and the Mohawk & Malone Railroads, in circulation among miners now on the ground, the advice it gave being looked upon as very valuable.

As an example of the richness of the ore in spots, Mr. Gibson remarked that he had an 80-lb. exhibit in his office that was actually two-thirds sliver. It was taken from the region centring about Cobalt Station, from which neighborhood a carload of 20 tons lately extracted had brought the owner \$32,000. He referred to a case that he knew of where a man going to Temiskaming thirteen months ago had since taken out \$100,000 for an outlay in working
