This Skin Peeler All the Rage in Society

There is a growing tendency among women of culture and fashion to pay more attention to hygienic means of preserving their charms. The advent of mercurized wax doubtless has been largely responsible for this. This remarkable substance produces complexion so natural in appearance, so transparently beautiful, artificial complexion is no longer desired. Instead of "doctoring" an offensive skin, the skin is peeled off. The wax reveals the skin so gradually, in such fine particles, no discomfort is experienced, no irritation with a week or two, is lily white, satiny soft and smooth. It's not a patched-over complexion, but a brand new one. That's why mercurized wax has become such a rage among society folk. The wax is put on nights like cold cream, and washed off mornings. All druggists have it; one ounce will do.-Advt.

AN OLD RECIPE TO DARKEN HAIR

Common Garden Sage and Sulphur makes streaked, faded or grey hair dark and youthful at once.

Almost everyone knows that Sage and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or grey. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge of soft brush with it and draw this through your hair, taking one small strand at a time; by morning the grey hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy, and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.
