

COBALT--Firmly Tone Exhibited by Mining Securities

Cobalt Securities Firmer With a Broadening Market

Good Support Rendered to Most of the Listed Issues, and Small Advances Are Generally Realized

Monday Evening, March 7.
The Cobalt stocks were generally firmer on a broadening market today. Trading in most instances showed some improvement over the dull, easy-going tendency of last week, and small advances were registered by those securities which were picked out for special attention by speculators and traders on the market, toward the close an easier tone developed in certain sections of the list.

Timiskaming touched 50 on the morning board, but reacted to 1 1/2 later, closing firm at 52 1/2. Liquidation was indulged in at times, but good support was rendered the stock, and all offerings were well taken care of by those behind the movement.

The other low priced stocks were generally firm. Cobalt Lake sold up to 19 5/8 on a better speculative demand, and at the close was only fractionally below that figure. Little Nipissing gained over a point from the opening quotations; Peterson Lake and the others were not much changed, the generally slightly higher priced securities Kerr Lake sold as high as \$3.85, ten points above Saturday; La Rose maintained around 4.50 and closed there.

The market today showed good signs of broadening and a firm tendency in most instances. At the close sentiment was generally favorable to a more extended recovery, in some of the lower priced issues at least.

TIMISKAMING AFFAIRS.
Editor World: There is a great deal of talk nowadays about Timiskaming. As I have just returned from the north country, I want to say a word to the small shareholders in this mine, and that is to hang on to every share you have and get a few more if you can at its present price. There is enough ore in the camp now to pay all the company's indebtedness and twice over; and the new vein they have just opened up is one of the very high grade ore. I saw with my own eyes, so it is not what someone else told me. I consider the Timiskaming mine right in line with some of the best properties in Cobalt. I am not writing these few lines to boom this property, for at present I do not own one share.

G. M. Brown.
Kingston, March 5.

Buffalo Mines Dividend.
Buffalo Mines declare regular quarterly dividend of 5 per cent, and extra quarterly dividend of 3 per cent, payable April 1 on regular and May 15 on extra.
