Here Are Reliable Tools and Implements to Help You Successfully Cultivate Either a Lawn, Garden or Both

THE FIRST HOLIDAY of spring is usually an occasion for many householders to make a big "clean up" of the back yard, lawn, alleyway and cellar, to take off storm doors and windows and to repair any damage done by the tempestuous attacks of winter.

In many homes it is a day for the inauguration of the new garden, when perhaps the whole family gather around to watch father turn over the first sod, then leave him digging in happy expectation of a big successful crop of glorious flowers and a bountiful harvest of tasty home-grown vegetables.

To get the most pleasure and results from this interesting work, a great deal depends on the superiority of the tools, implements and supplies, and on this page these suggestions for both the amateur and professional gardener are full of interest and you'll note also the very low prices.

Now is the Time to Roll the Lawn

ROLLING WILL CURE 50 per cent. of your lawn troubles and if you'll commence right away you'll not have as many weeds or dandelions, or as many moles, worms, ants, to contend with. A roller will keep the grass from dying and help promote a steady, even growth. We show a variety of sizes in lawn rollers that are all made of heavy, water tight, shell steel and fitted with roller bearings and weighted handles. The drums are welded, thus doing away with that roughness caused by rivetting. Priced according to size as follows:

- Size 18" x 24", weight, 135 lbs., weight, with water, 360 lbs., weight with sand, 560 lbs. Price 9.75
