DR. THOMAS' ECLECTRIC OIL

IS undoubtedly the best external and internal remedy known. If applied externally to relieve pain or inflammation, it speedily finds its way to the seat of the trouble through the pores, and it accomplishes its beneficent purpose with amazing rapidity. Many a sigh of relief has followed the first application of this wonderful elixir. In cases of rheumatism it has proved a sovereign remedy; it relaxes and soothes the stiffened, swollen and irritated parts, and promptly checks the pain. Ease by day and repose by night are enjoyed by those who wisely apply **Dr. Thomas' Electric Oil** to their aching muscles and joints. A quantity such as may be held in the palm of the hand, is in many cases sufficient to give instant relief where the pain has been most excruciating.

INFLAMMATORY RHEUMATISM al-

though not easily eradicated from the system, has to flee before **Dr. Thomas' Electric Oil**. Of course persistent use is required in some cases, but unless the disorder is malignant and of long standing, three bottles should be sufficient to effect a cure. In the very

worst cases a little patience and repeated applications over a somewhat longer period should ultimately produce a complete cure. But if not, a cure will certainly be effected if the patient will also take Northrop & Lyman's Vegetable Discovery, so as to drive out the humor or seeds of the disease from the blood and system.

In the case of disorders of the Respiratory Organs, the **Oil** will be found wonderfully efficacious when taken internally. The most insidious and the most fatal of all diseases is Consumption. Think of the many happy homes which have been devastated by this deadly scourge, and beware how you trifle with it. It is a well known fact that Consumption is often the result of a neglected cold. In its early stages the dread malady can be checked by using **Dr. Thomas' Electric Oil**; but if through a foolhardy disregard of the

symptoms, the patient allows the disease to get full mastery over the organic system, woe betide him. Do not, therefore, delay if attacked by a cough or a cold but instantly procure a supply of **Dr. Thomas' Electric Oil**, and the Grim King of Terrors will speedily take flight before its benign influence.

It is a noteworthy fact too, that **Dr. Thomas' Electric Oil** is equally efficacious in cases of Bronchitis, Asthma, Catarrh, Piles and Kidney troubles; it is most soothing and healing in its effects as every one who has used it will freely testify.

CROUP.—MR. THOS. H. PORTER, Lower Ireland, P.Q., writes: "My son, eighteen months old, had Croup so bad that nothing gave him relief until a neighbor brought me some of **Dr. Thomas' Electric Oil**, which I gave him, and in six hours he was cured. It is the best medicine I ever

used, and I would not be without a bottle of it in my house."

CATARRH.—A prominent minister of the city of Toronto had Catarrh for a long time and went through a thorough course of medicine by skillful city physicians, but the disease was so

deeply rooted that they were unable to cure it. A druggist advised him to try **Dr. Thomas' Electric Oil**, which he did, by putting a few drops on cotton batting and placing it in the nostril. He faithfully preserved with this treatment, when, to his own and physician's astonishment, he was cured. We don't think there is any medicine that is so efficacious for this disease as **Dr. Thomas' Electric Oil**.

ALL PARENTS SHOULD READ THIS.—

MR. JOHN M. GILBANK, London, writes: "It affords me great pleasure to let you know that **Dr. Thomas' Electric Oil** saved the life of my little daughter after everything else failed. She had a bad attack of Croup, and we thought she could not live, but a few doses of the **Oil** saved her. No mother should be without it, as it is worth its weight in gold for Croup."
