WHO WANTS BETTER EVIDENCE ?--I would refer the reading public to the nu-merous voluntary letters published, recently in the Good Samarian and other papers, relative to the happy and beneficial effects of the administration of

Good Samaritan and other papers, relative to the happy and beneficial effects of the administration of MOFFAT'S LIFE PILLS AND PHENIX BITTERS. Those who have perused the letters above referred to will observe that in almost every case they attest the fact, that no inconvenience of any sort attends the taking of these medicines in ordinary cases, but what the patient, without feeling their operation, is universally left in a stronger and better state of health than was experienced previous to being af-flieted with disease; and in all cases of acute suffer-ing great relief is obtained in a few hours, and a user is generally effected in two or three days. In cases of FEVER of every description, and all billous affictions, it is unnecessary for me to say aught, as I believe the LIFE MEDICINES are now universally admitted to be the most speedy and effectual cure extrant in all deeases of that class. The LIFE MEDICINES are also a most excel-has been proved in hundreds of cases where patient-have come forward and requested that their expes-rience in taking them might be published for the benefit of others. In their operation in such cases they restore the tone of the Stomach, strengthen the digestive organs, and invigorate the general func-tions of the whole body, and thus become to both exces (for they are perfectly adapted to each) an in-valuable means of preventing disease and restoring health.
