THINKS PRICES WILL NEVER REACH THE 1914 LEVEL

"I believe that we will have high prices as compared with those before the war, but I do not believe that they will be as high as the prices that we have already seen."

Such was the prophecy of Sir Edmund Walker in a brief address on the "Canadian System of Banking" at the session of the Canadian Wholesale Grocers' Convention.

"This condition may last for another generation and must last so long as the weight of war indebtedness causes unusually heavy taxes and high rents," Sir Edmund continued. "The price of all commodities will have to be high until we have broken the back of the war debt."

What is the Money Value of Good Sound Sleep

THE average man is critical about his food, his clothes, and the house he lives in. These things cost him money, and he insists on getting his money's worth. But sleep is free. He is apt to be casual about his sleeping hours—and in selecting sleeping equipment, he thinks more about style and price than he does about sleep.

FREE LEGAL AID BUREAU PROPOSED FOR USE OF POOR

St. Louis, Mo., Aug. 30.—Establishment of legal aid bureaus throughout the United States to give free legal advice to the poor, was recommended as a means of checking the spread of radicalism by speakers today at the convention of the American Bar Association in session here.

The association was asked to assist in every way to encourage the establishment of such bureaus, especially in the larger cities. The speakers included Charles Evans Hughes, Republican presidential nominee in 1916.

"There is no more serious menace," Mr. Hughes declared, "than the discontent which is fostered by a belief that one cannot enforce his legal rights because of poverty. To spread that notion is to open a broad road to Bolshevism."

The poor must have legal advice and except in the simplest matters he needs skilled assistance to present the merits of his case. Without opportunity of the poor to secure such aid, it is idle to talk of equality before the law.
