

When I received certain information
after which I accompanied
Wagon to corner down to the street
where I saw a soldier. The accused
whom I now recognize. The Wagon
asked the accused for his particular
the soldier referred by saying I am
not going to give him to you. The
Wagon asked for the soldier's identity
discs - the soldier referred and
shook at the Wagon - the Wagon fell
short - immediately I got hold of
the soldier and told him he was
under arrest - with difficulty I
arrested the soldier and carried
him to Cam Town guard room
where I handed him over to NCO
to be detained. He was sober. The
attitude of accused after he was
told he was under arrest - was
struggle with me by striking and
throwing his arms about.

Cross examination by defending

Officer
I recognize the accused. It didn't
appear to me that accused was
acting in self defence when he struck
at the Wagon. I identified the accused
after the Wagon endeavored to escape
I identified him at Cam Town guard
room. Accused was quite sober.
When a Cam Officer appeared - he
stood to attention and called him
Sir. A drunken man wait to
this.
