

OUR BUSINESS

is the manufacture of Clothing (ready-to-wear and to order), Shirts, Overalls, and Smocks, the purchase and sale of Men's Furnishings and Hats. We have no other lines or interests to divert us from the manufacture of the best Clothing or prevent us from giving our best attention to the lines which we do not manufacture.

The result of confining our energies strictly to the lines mentioned above has been the steady growth of our business, from year to year, which necessitates the employment of over fifty people in our Stratford Store and factory. In a city the size of Stratford, that fact alone tells how well our methods are appreciated.
