§ XI. LIBRARY, MUSEUM, APPARATUS AND OBSER-VATORY.

1. THE LIBRARY.

The Library of the Faculty of Arts contains about 6,000 volumes of standard works, selected with especial reference to the wants of Professors and Students, and open to their use during the Session.

The most important addition recently made to the Library is the "Redpath Historical Collection," consisting of 554 volumes of the more rare and valuable works relating to English History.

(The above statement does not include the Library of the Medical Faculty, which contains upwards of 4,000 volumes.)

II. THE MUSEUM OF NATURAL HISTORY.

- 1. ZOOLOGY. In this department the Museum contains a general collection of type specimens, illustrating the Orders and characteristic Genera of the Animal Kingdom, the whole arranged and labelled in such a manner as to correspond with the College course on the subject. There are also the following special collections:
- 1. The Carpenter Collection of Shells, being the general collection of Dr. Philip P. Carpenter, presented by him to the University, and shortly to be arranged in a separate room.
 - 2. The Carpenter Collection of Mazatlan Shells.

- 3. The Couper Collection of 2,400 Canadian Insects.
- 4. Collections of Canadian Freshwater and Land Shells.
- 2. Botany.—The Herbarium consists of the Collection of the late Dr. Holmes, of Montreal, presented by him to the University; and with the additions recently made to it, affording a nearly complete representation of the Flora of Canada-There are also collections of European, Arctic and Alpine Plants, and of specimens of Woods, Fungi, &c.
- 3. Geology and Mineralogy.—The general collection consists of a series of the characteristic Fossils of all the great geological periods, with additional suites of specimens, illustrating in greater detail the formations represented in Canada. There is also an extensive collection of Rock specimens, and collections are being formed representing the principal Mineral Regions of Canada.

The Mineralogical Cabinet consists principally of the "Holmes Collection,' containing about 2,000 specimens of Canadiar and Foreign Minerals. A large portion of these are displayed in glass cases for the use of students, under the arrangement of Dana's Manual of Mineralogy.

All of the above collections are used to illustrate the lectures, or are open to the inspection of students, who are also entitled to access to the large and valuable collections of the Natural History Society of Montreal.

III. PHILOSOPHICAL APPARATUS.

The value of the apparatus is about \$4000. Of this more than two thousand dollars' worth has been added within the last year, by means of a personal subscription amongst some of the Governors. The collection is now very valu-
