JAPANESE BEGAN ASSAULT ON PORT ARTHUR.

Chefoo, Sept. 20.-5.30 p. m.-Authoritative information has been reis. Petersburg, Sept. 20—Ti re is a ceived here of a general attack upon Port affects of the Chand seeing Arthur by the Japanese forces, which beissued to the officers of the Guard regiments stationed at St. Petersburg to redark. All indications point to an effort to

> forts. This is the attack for which the Japanese have been preparing for the last 19 days, with slight hope of success. The attack was directed against the northwest front. The main object is to capture the fortifications of Kikwan mountain, Rihlung mountain and the intermediate forts.

> The foregoing comes from a Russian of standing, whose previous information has been correct. He adds that the attack at the end of August, which was reported as two different assaults, really constituted a ten-days' battle, the fighting being heaviest during the first three days and the last four days of that period. Although the Japanese retired on August 31st along the greatest part of their line, they-remained in four sup plementary forts on the northeast fro which they had captured from the Russians. These included two forts 50 yards from Riblung mountain and two others at a still greater distance. Since August 31st the Japanese have bombarded very slightly, while the Russians have been throwing approximately 1,000 shells daily against the four Japanese positions mentioned. Small sorties in efforts to capture the positions have been of almost nightly occurrence, and have been uni

formally unsuccessful. WARSHIPS CO-OPERATE.

CONFIDENT OF BEING

ABLE TO HOLD FORTRESS. Chefoo, Sept. 18.-Chinese, Russians and Japanese here all agree that the Japanese vessels blockading Port Arthur are paying particular attention to junks, which for months past have been trying to smuggle dispatches and supplies into the fortress, and that when caught the crews are roughly treated. The junks generally are sunk and the men on board taken into Port Dalny. By mistake the Japanese sunk a junk which was carrying delicacies to Gen. Nogi from an admirer, but a part of the cargo was recovered. Gen. Nogi commends the Japanese besiegers. The Japanese are employing severe measures in this respect with the idea of intimidating block-

de runners.
Russian civilians who have reached here from Port Arthur say that canned corned beef is plentiful and the fresh meat supply consists of twelve horses slaughtered daily. London, Sept. 19.-The Daily Telegraph's Chefoo correspondent says: assert that Gen. Kouropatkin told Lieut.-Gen. Stoessel that he must hold out until January, and they say that the garrison has ammunition and food for six months.

St. Petersburg, Sept. 21.-1.05 a.m.-Interest is generally upon Port Arthur owing to the news that a general storming of the fortifications there has begun.

A few belated telegrams from General Stoessel, the commander at Port Arthur, published Tuesday afternoon, recording the repulse of the Japanese and continued attacks, strengthen confidence in the ability of the defenders to hold out despite the furious onslaught of the

The last attack mentioned by General Stoessel took place the night of September 14th, and was directed against resays that among the heaps of dead he saw two soldiers, one a Russian and the other a Japanese, lying locked in a death cmbrace. Port Arthur. Moreover, the announcement does not receive complete credence here, as being in direct contradiction of official news issued by the general staff. General Kouropatkin announced only two days ago that there was not a single Japanese east of Bentsiaputze. Now, it asked, could General Kuroki, with one hundred thousand men, slip past General Rennenkampff's Cossacks and cross the Hun river near the Fushan coal mines, thirty miles east of Mukden? Fushan is situated on the road from Bentsiaputze, where General Kuroki crossed the Taitse river. This road is carefully watched by General Kuropatkin's outposts between Mukden Sintsintsin. A strong guard has been

placed at the Fushan mines, which General Kouropatkin will not give up without a struggle, as the loss of the mines would involve the cutting off of the supply for the whole of the Manchurian railway. Neverthless, it is considered more than doubtful if General Kouropatkin

will make a decisive stand south of Tie pass. \_\_\_\_
