Northern & Eastern Counties of New Brunswick held meetings in Newcastle last week beginning on Tuesday evening and lasting until Thursday evening. They were presided over by Mrs. Enmerson of Dorchester. The usual reports were submitted and discussions took place on subjects of moral reform and other matters within the scope of the Uniou's work. The election of officers resulted as follows:—

President—Miss J. Mitchell, Newcastle, Vice-Presidents—Miss J. Mitchell, Newcasteste.

Vice-Presidents—Mes Ames Read, Crain, Snow, Park, Price, Steeves and Miss Crain.

Secretary—Mrs. W. Sutherland, Newcastle.

The Author and Lt. Davidson. The Wheat and oats are grown for the Wheat and oats are grown for the grain or seed, but grass for the straw or hay, and each must be cut at the proper stage, to secure the best results.

The seeds of most grasses are a very small proportion of their seeding value as sompared with the straw, so that the later should receive the most attention.

Generally the less hay is handled the less will be the cost and the better the quality of the product of feeding, and generally machinery and horses will do the work cheaper than men.

In keeping or building up the fertility of soil hay is a crop that should be fed out to stock on the farm rather than to sell, as selling hay is selling fertility.

When she became Miss, she clung to Castoria.
