VISITING ST. JOHN

Hon. R. F. Sutherland Making Tour of Maritime Provinces—Chats on Interesting Topics

Hon. R. F. Sutherland, Speaker of House of Commons, arrived in the city last evening, having come across the Bay in the steamer Prince Rupert. He is a guest at the Royal, where last evening he cordially greeted a Sun reporter, but took the precaution to re-

porter, but took the precaution to remark at the outset that he never talked politics.

"I do not even attend political meetings in my own riding," he said.

The First Commoner of Canada is more than a politician. He is a distinguished lawyer, a cultured man of letters and a particularly keen student of local history. His trip to the Maritime Provinces is for the purpose of becoming better acquainted with the nursery of so many of Canada's eminent states henself with its great ports.

Referring to President Falconer, who he met in Halifax a few days ago, Mr. Sutherland said the position to which he had been called was a most signal tribute to his worth and he had no doubt that he would fill it with great distinction.

Since leaving his home in Windsor, Ontario, Mr. Sutherland has visited Prince Edward Island where he spent several days' Cape Breton and Halifax He was greatly pleased with the beautiful scenery of the Bras d'Or Lake and amazed at the extent of the Dominion Steel and Coal industries. Mr. Sutherland readly enjoyed his stay in Halifax, where he was shown great courtesy and kindness. He also had nice things to say about their harbor which he greatly admired.

"But you have a fine harbor at St. John also, and I understand there is great activity here during the winter port season," said the Speaker.

Hon. Mr. Sutherland was not to be drawn out on the subect of his rumored elevation to a judgeship. "It is like lots of other reports that appear in the newsplapers. Personally, I have heard nothing about it, although it is very kind of the editors to suggest my name in connection with such an honor."

Hon. Mr. Sutherland called on Senator Ellis last evening, and had a pleasant chat. He will pay his respects to Dr. Daniel, M. P., today. He accepted

Do you realize that investments of a hundred or a thousand will grow rapidly into hundreds and thousands and millions of dollars? The over-conservative and skeptical will smite--they will laugh at these predictions, some will even consider this a joke--but remember COBALT, if you please, two or three years ago? Then it was a "vision," it was a "dream," "a flash in the pan," "a bubble," somebody was "crazy"; but now it is different. Those crazy men are now classed among the smartest and keenest business men of the day. The actual value of a few mines are worth at the present date more than one hundred millions of dollars. These are facts.

In presenting this investment for subscription we appeal to the good judgment of sensible persons as to its merit.
