A FAR CRY

W. Max Aitken Conducted Bicycle Campaign on Behalf of R. B. Bennett in Early Youth—Succeeded as Usual.

The Chatham World in commenting on the victory of W. Max Aitken, recalls an incident of that gentleman's career, while living in the Miramichi town. The World says:

Mr. Aitken's first electioneering experience was in upholding the candidacy of R. B. Bennett when he was running for alderman in Chatham. The future member for Ashton-Under-Lyne, who was a student in the law office where the candidate was junior partner, decorated his bicycle with a big placard, "Vote for Bennett," and spent the day wheeling from house to house, and corner to corner, urging every body to go to the polls and give the boy candidate a vote. His candidate won, and now he has won his own fight.

To have made himself a millionaire and a member of the Imperial Parliament, not by luck but by genius and energy, at 31, is a great achievement. Only one thing is left for his ambition, and that is to win the Derby.

Grand Week-End Show at Nickel. Now that the weather has become a bit settled, and the crisp winter air and welcome snow suggest a "white" Christmas, the crowds that make the Nickel theatre headquarters for the week-end are happier than ever. The bill that is to be put on the week-end now commenced is one that will please with or without a doubt. There will be three distinct leaders. The Vitagraph Co. will offer "Jean Goes Fishing," a charming child-story with a sagacious little dog who does life saving deeds with almost human intelligence. The "John Co. present" "Brothers," a story of the east and west with a melodramatic touch. The new Pathe American Co. have proved themselves masters of the photographic art and also the art of acting in the late society drama "Fickle Cupid." These three pictures are in reality star numbers. Mr. Baxter will sing "Alice Where Art Thou" and the Orchestra will play. Tomorrow afternoon the children will have a great holiday show, and on Monday the Nickel's Own Co. in the music play "The Narrow Escape of Santa Claus" will put on the prettiest and funniest little Christmas piece the children have ever enjoyed in this popular house of pure fun.

INDUSTRIES FOR ST. JOHN

Announcement of Interest in Trade—Two British Manufacturers to Inspect City.

Encouraging evidences of the progress of St. John as a manufacturing centre as well as of the possibilities of securing new industries, are set forth in the last annual report of the board of trade. To those interested in the growth of St. John, the following extract will be of interest:

Several new industries have been established at St. John during this year. The taking over of the Cushing mill by the Edward Partington Pulp and Paper Co., Ltd., created an opening for a box and shank mill that was readily taken advantage of by local capitalists, and the Wilson Box Factory, established on the site of the old Dunn property is the result. Another large factory at present under construction, is the Canada Woodware Company, in which Montreal capitalists are largely interested.

Enterprise.

The A. E. Hamilton factory, which was totally destroyed by fire this spring has been rebuilt on a much larger and more modern scale. The re-establishment of this factory serves as an illustration of the enterprise of St. John manufacturers: within 30 days after a fire had consumed the factory and surrounding buildings, and totally destroyed all of the machinery, making almost a total loss to the company, they were carrying very little insurance at the time, fresh capital was subscribed by St. John merchants, a modern factory built, new machinery installed, and the factory in operation. The factory is now doing a larger business than before. Another feature of this fire was the demonstration of loyalty of the employees. The day the factory burned every one of the company's employees volunteered two weeks' labor without salary, in order to assist in the re-establishment of the business. The Dunlop Cooke Company of this city, Ltd., recognizing the advantages of St. John as a manufacturing centre, have moved their manufacturing business from Amherst, N. S., to St. John.

The Edward Partington Pulp & Paper Co., Ltd., are refitting the Cushing mill with new machinery and will operate it in connection with their present mills. The company is also endeavoring to secure additional land near their plant upon which to establish a large paper mill.

Present Industries Enlarged.

The T. S. Shims Company, manufacturing brushes, brooms, etc., have purchased all of that property on Union Street, west of their present factory to Brussels Street, upon which to build additional factory facilities. This has been made necessary in order to handle the orders for the new factory. The company is doing in the Western Canadian market and serves as a good illustration of the advantages St. John enjoys in the terms of the great railway systems in Canada.

Practically all of the St. John factories are experiencing the same expansion of trade. Messrs. T. McAvity & Sons are at present investigating several sites in this city preparatory to establishing additional factory facilities to employ six hundred hands in order to meet the demands of their Western trade.

The work of the New Industries Committee is so closely allied with that of the Advertising Committee that this committee has practically done the work of both. The committee is now in correspondence with a number of British manufacturers who have been interested in opening here for the manufacture of different lines of goods. Two of those gentlemen have expressed their intention to visit St. John during the coming year to select for themselves the most favorable chances of business. Other manufacturers nearer home have already investigated the possibilities here, and it will largely depend on what inducements in the way of bonuses, exemptions, etc., are offered by other cities they locate here or not.

No Inducements Offered.

The committee has carefully avoided suggesting to any prospective new industry the idea of tax exemptions, free sites, etc., until such time as the Common Council has decided whether or not it would be advisable for the city to have some proposition like the offering of portions of its land for factory sites purposes at a nominal rental. Such a proposition, if adopted, might be used in finally deciding a prospect in favor of locating here. The committee is agreed that the offering of large inducements is to be avoided so far as possible, and is strengthened in this opinion by the fact that many of those cities in the United States and Canada that have in the past offered large bonuses have now abandoned this method of attracting new industries altogether, and are relying upon extensive advertising of their natural advantages instead.

Where the city of St. John owns so much vacant land, however, the committee considers that the offering of a site to a new industry at a nominal rental would not only be of assistance in deciding the prospect in favor of the city, but would prove beneficial to the city in receiving some revenue from its otherwise non-productive property.

King's County Company.

Richard C. McQuinn, Wm. C. McQuinn, Sydney McQuinn, Penobscot; Joshua D. Loizeaux, Plainfield, N. J.; and J. Herbert McFadden, Sussex, are seeking incorporation as the King's County Company, and generally carry on business in lumbering, milling, dry goods, boots and shoes, hardware, jewelry, plumbing, tinmiths, druggists, stationery, drapers, haberdashers, milliners, dressmakers, tailors, furriers, lacemakers, clothiers, hatters, glove makers, dealers in harness, furniture, house fitters, to manufacture and sell Portland cement, quarry stone, manufacture carriages, buy and sell live stock, grain, seeds, farm produce, erect and operate elevators, to cure and sell fish, and meats, canned vegetables etc., to carry on brokerage business, and business in various other lines. The capital stock is \$25,000.

FORMER AMHERST GIRL MALTREATED BY NEGRO

James Taylor Chained White Wife to Bed and Beat Her With Iron Poker—Drew Revolver on Police.

Boston, Mass., Dec. 8.—One of the worst cases ever before the Boston courts came up today when James H. Taylor, a burly negro, was held for maltreating his white wife, formerly Margaret Jackson, of Amherst, N. S. Late last night when the police raided the house at 58 Middlesex street, they were met by Taylor who levelled a revolver at Sergeant Hurley, but before he could use it, Taylor was overpowered.

Sergeant Hurley went into a bedroom where he found the woman in bed with her hands tied and a chain around her neck, the chain being fastened to the wall with a padlock. When released she was unable to dress until given food.

Taylor admitted that he had tied his wife up, but said his only reason was that he wanted her to keep in the house. The woman had been chained for eight days. Her hands were secured behind her back with stout cords. She was beaten with a stove poker at will, first in the face and then on the head and body.

Mrs. Taylor, who is only 22 years old, is in hospital suffering severely. "My maiden name is Margaret Jackson, I am 22, and I came from Amherst, N. S., several months ago," she said, "when I first arrived in this city I worked in one of the downtown department stores. I lost my position, however, as I was left practically penniless. I looked for work, but was unable to find any. I saw no place to go and I wandered about the city until I met Taylor. He took me to the house in Middlesex street, where I met Taylor."

Factory Sites.

W. E. Anderson, secretary of the Board of Trade, talking yesterday, with reference to the statement of M. W. Doherty, that it would be well if the Board of Trade kept on record a list of available factory sites, said the board recognized the importance of this and had made every effort to compile such a list. By advertisement in all the St. John papers they had asked citizens to put them in possession of such information and the sole response was three answers, two of them from the same parties. They had also sought to secure information by direct communication with property owners but found a general unwillingness to give the board the information desired.

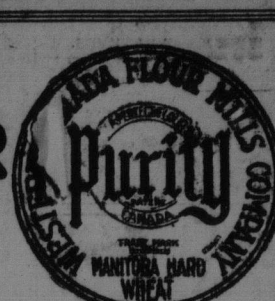

Eight Operations.

Miss Nora Stevens, daughter of Mr. and Mrs. J. Stevens, of Musquash, who has been in the hospital since last July, suffering from an injury to her right leg, was taken to her home on Wednesday to spend Christmas. Since Miss Stevens has been in the hospital eight operations have been performed on the limb and it is not known as yet whether or not Miss Stevens will have to return to the hospital.

Property Transfer.

The transfer of a vacant lot on the eastern side of Carmarthen street, between Duke and Mecklenburg streets from George S. M. Johnston to Roy L. Sipprell, was recorded at the registry office yesterday. Mr. Sipprell it is understood, will build on the lot.

Once you have used PURITY FLOUR you will readily pay the little more it may cost.

Until you have actually tried PURITY FLOUR you may demur at the trifle more it costs you than lower grade flours cost—but your first sack will show you why that seemingly higher price is a real economy for you

PURITY FLOUR

That trial sack (which you ought to order this very day) will teach you what Purity Flour is worth to you, as contrasted with an ordinary flour.

PURITY FLOUR is milled from only the kernels of the choicest Manitoba hard wheat—the world's wheat standard.

From the 84 grain elevators which we own and operate, we select the finest wheat of the year's crop. This, at our mills, is so treated that only the most richly-nourishing part of the wheat berry gets into a PURITY sack or a PURITY barrel.

The result is a flour so strong that it produces more bread for the quantity used than ordinary flour.

But bulk of product is not all you are to expect of PURITY FLOUR. You are to expect lighter, snowier bread; bread that

has the nutlike, sweet, wholesome taste every housewife tries to put into the bread she bakes.

PURITY FLOUR, moreover, is not merely a bread flour. It is an every-purpose flour. It makes the kind of pastry you can be proud of—cake that invites praise—biscuits that suggest an encore.

Not only is PURITY the flour for economy's sake, you see, but the flour for quality baking. Thus, the few extra cents which it may cost you actually insures you against baking disappointments. PURITY FLOUR is the flour you will never be without, once you fully test its unusual merits.

Begin with a small trial sack, if you are dubious. Your grocer can supply you.

SHEEP GROWER HAS SUCCESS

James Telford of Sussex Won Sweepstakes at Amherst Fair—Believes in New Brunswick for Sheep Herding.

A man who is confident that sheep raising can be profitably and successfully carried on in this province, is James A. Telford, of Paris, Que., who has bought 700 acres of land near Sussex and has established a sheep farm there. It was chiefly through the efforts of A. H. Thomson, that Mr. Telford was induced to settle in this province and he has been so greatly pleased with the outlook that he is endeavoring to induce other Ontario farmers to come to the province and follow his example.

At present he has the only sheep farm in the province and an idea of the success he has met with as well as of the class of stock which he is introducing to the province may be gleaned from his record at the Amherst fair, which he exhibited in competition with all comers and won a fine list of prizes.

In all he won 19 firsts, 8 seconds, 4 thirds and 1 fourth as well as grand champion best sheep at the show and best lamb at the show. His record in the different classes is as follows:

Mr. Telford's settling in this province will save thousands of dollars to the breeders, sending money to Ontario for their stock sheep, besides proving to the farmers that sheep breeding can be as successfully carried on as in Ontario or any province in the Dominion.

Mr. Telford is going to Paris, Ont. to be married and returns to Sussex about Jan. 1st when he will stock the farm with 500 registered ewes of the popular breeds.

Pontifical vespers were sung in the Cathedral last evening, and Benediction of the Most Blessed Sacrament followed.

Make Claim For Wages.

Judge Forbes in chambers yesterday heard a number of applications for wages against the insolvent Emery, McLaughlin Co., Ltd. He disallowed the claims of those who were in the employ of the company 30 days before the assignment was made and also the claims of those employees who were stockholders. John A. Barry appeared for a number of the wage earners. E. S. Ritchie for other creditors, and the assignee, L. P. D. Tilley, appeared in person.
