Women as Brave As the Men

THEIR STRUGGLE SHOWS A REMARKABLE SPIRIT.

Talk of the bravery of men, but where can you find a finer spirit than among the half-sick women who are fighting and struggling to do their duty against the terrible odds of ill-health, and who will not give up.

One woman in every three is struggling against weakness. Most of them are not exactly sick, but, oh, how miserable!

The burden and misery of it all has its foundation in the blood which is thin and watery. The red cells are too few. The very stream of life is reduced in vitality. Weakness and inevitable ill-health are the certain result.

Every ailing or weak woman can quickly regain her health in this very simple way. By filling the system with the nutrition that comes from rich red blood, a quick change for the better will result. To accomplish this, take two chocolate-coated Ferrozone Tablets after each meal. You'll feel better immediately for the simple reason that Ferrozone renews the blood. It gives you vim, vigor, endurance, restores a tired, worn-out system very quickly.

You'll feel like new all over once you get Ferrozone working through your blood. It puts color into faded cheeks, brightens the eye, quickens the step, brings back that wonderful feeling of youth.

One of the finest things Ferrozone does is to make you eat less and digest it as well. With keen appetite, sound sleep, strong nerves and lots of nourishing blood you're bound to regain robust health. Any sickly girl or ailing woman that Ferrozone won't make well must be incurable. There is a secret power in Ferrozone and it is worth a trial at all events. Fifty cents per box, six for \$2.50. At all dealers in medicine, or by mail from The Catarrozone Co., Kingston, Ont.

His wife, a daughter of Harold Cline, survives, also his mother, three children, his brother, three brothers, H. B. Holloway, Toronto; Mrs. E. H. Bowman and Miss Jean McDonald, St. John, and two brothers, Charles H. and Kenneth McDonald of this city. The funeral will take place this afternoon at 2.30 o'clock.

SEPTEMBER EXCURSIONS TO THE CANADIAN METROPOLIS

"Montreal, Alt. 483. Population 700,000, the commercial metropolis of Canada and the largest city in North America. Beautifully situated at the foot of Mount Royal on an island in the St. Lawrence River, about 700 miles from the estuary of that mighty artery through which pulsates so large a portion of Canada's commercial life. The city is built on the site of the ancient Indian village of Hochelaga, first visited by Jacques Cartier in 1535. Over 250 years ago the early French navigators established a trading post for furs here, and it was the last section of French Canada to pass into the possession of Great Britain in 1760. At the head of ocean navigation, with command of one of the three water routes by which the products of the West can reach Europe, Montreal has won its place amongst the wharves of masonry, vast warehouses, and grain elevators, and the largest floating dry dock in the world. Big transatlantic steamers call here regularly from ports in Europe during the season of navigation and the harbor has won its place amongst the most important of the world, both as regards the sufficiency of the equipment and the extent of the business done. Numerous railway lines make Montreal a centre for a vast and constantly growing traffic. Montreal is a city of great enterprises, where mighty results are achieved, with a record for stability equal to that of any of the great cities of America, and is advancing year by year to a still greater future. Besides its commercial greatness, the city has the additional charm of its historic attractions, and there are many places of interest which link the present with an eventful past. With imposing public buildings, universities, churches, fine business blocks, substantial manufacturing establishments, splendid hotels and handsome residences, the city possesses all that is calculated to make a city attractive. Evidences of prosperity and wealth are everywhere."

Passengers taking advantage of the low fares—single fare for the round trip plus one dollar on Thursday, Friday and Saturday, Sept. 21st, 22nd and 23rd, good for return October 9th, should procure copy of the booklet from the principal ticket agents or by writing the General Passenger Agent at Moncton, N. B.

from the residence of his father-in-law, Harold Cline, 55 Dorchester street.

James Parkhill, of Chipman, Queens county, died suddenly on Saturday, aged 83 years. He is survived by one brother, John, police magistrate of Chipman; three sons and three daughters, Samuel J. of St. John; Alexander and Victor, of Chipman; Mrs. Alexander Scott, of St. John; Mrs. James McNeill and Mrs. John McCollum, of Chipman.

Samuel E. Hoyt, for many years an employee of the Canadian Government Railways at the Union Depot, died last Sunday at 38 Winter street, aged 68 years. He leaves besides his wife, one son, George W. of Sussex; one daughter, Miss Gertrude, at home; one brother, John A. Hoyt, of Worcester, Mass., and one sister, Mrs. S. H. White, of Sussex. The deceased was a native of Kings county, son of the late Isaac K. Hoyt, being of loyalist stock.

Miss Mary A. Bryson, The death took place on Sunday, at her residence, 196 Waterloo street, of Miss Mary Ann Bryson, daughter of the late Hugh and Mary Bryson. The deceased is survived by one brother, Daniel, of this city.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone potash in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and bowels, to rid the system of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments. People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quart of limestone potash at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of intestinal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel goes do.
