J. L. STEWART, Editor. SATURDAY EVENING, SEPT. 27, 1873.

Special Payments. The resumption of specie payments is again under discussion in the States, and the fluctuating value of currency and gold are justly deemed to come under much of the financial gymnastics with which the country is cursed at the most untoward and unlooked for periods. No good reason has ever been given for the failure to resume specie payments years ago. When the war was over, the armies disbanded, the industrial interests of the country prosperous, and the revenue greatly in excess of the expenditure, specie payment might have been resumed with ease. But there was something too much political influence in favor of the existing state of things.

Gold gamblers, speculative stock brokers, and everybody who owed money, had a right to pay immediately, were opposed to the resumption of specie payments. The speculators did not desire a monetary stability that would deprive them of the power to produce Black Fridays. Those indebted for goods, or anything else that did not want their assets decreased in nominal value by the rising of the standard of legal tender, for a sudden return to a gold legal tender basis would depreciate all values proportionately to the premium on gold at the time, and the effect would be the failure of those whose assets could not stand depreciation. The great mass of the people took no interest in the matter, and Congress and the Government were influenced by the financial politicians to maintain the paper currency.

The whole country is heartily sick of it now, and the reports that preparations are making at Washington for a return to a sound system must give legitimate satisfaction to all engaged in a legitimate business.

No intimation is given of any particular plan for returning to a specie basis, but the plans heretofore proposed have been complicated and impracticable. The financial writers do not seem to understand why an overvalued treasury, decreasing debt, abundant crops, and rapidly growing manufactures, and bringing gold to pay without legislative action. They fancy that there is something in the necessities of trade that requires gold to be at a premium, or attribute the premium to the machinations of speculative oligarchs, as no one can doubt either the ability or the intention of the Government to meet all its debts, or bond promises to pay. The principle cause of the premium on gold ostensibly remaining at a high figure—a cause that does not appear to be taken into consideration at all—is the law against receiving currency in payment of import duties, and the premium will be maintained just as long as this law remains in force. The acceptance of greenbacks for duties would flatten the gold premium down to a trifle, that would make the ability of the Government to meet all its debts, or bond promises to pay. The principle cause of the premium on gold ostensibly remaining at a high figure—a cause that does not appear to be taken into consideration at all—is the law against receiving currency in payment of import duties, and the premium will be maintained just as long as this law remains in force. The acceptance of greenbacks for duties would flatten the gold premium down to a trifle, that would make the ability of the Government to meet all its debts, or bond promises to pay.

The Evangelical Alliance. The great conference of the Evangelical Alliance of the world opens in New York on the 2nd of October. At this conference there will be representatives from all parts of the Christian world, representing nearly all denominations of Christians, and speaking many different languages. They will meet to discuss the discourses of Prof. Jones of Wales. The Dean of Canterbury is also in New York to attend the Alliance. He is probably the most eminent divine in the Church of England. It was expected that Spurgeon would be present, but he was not able to leave London at the time. The conference will extend over ten days. The Universal and Unitarian denominations are excluded. The result of this is that the Alliance is discussed with relentless sarcasm by the talented opponents of Liberal Christianity for their lack of Christian love and fellowship. Henry Ward Beecher will, no doubt, take part in the discussions, even though his views are known to be so broad and liberal. The delegates from the St. John Alliance will be Dr. Botsford, James Millan, Esq., R. Irvine, Esq., and the Rev. I. E. Bill, and several other talk of attending.

The Halifax Chronicle reports that Sir John A. Macdonald has accepted an Imperial appointment and is to be succeeded as Premier by Sir A. T. Galt.

Baby Farming - Arrest of a Woman Charged with the Murder of Thirty-Seven Infants.

New York, Sept. 24.

The feeling of horror occasioned by the discovery of a baby-farming establishment in this city is intense, and if the facts already reported are fully established, the most fiendish horrors will have been brought to light. The complaint is supported by the affidavits of a number of respectable citizens, and has been filed in the Courts, charging Mrs. Ellen Roberts with driving a lucrative business in baby-farming. At present it cannot positively be ascertained how many children she has been the means of killing, through inattention and starvation. There is a good reason for believing, however, that within the last four months as many as thirty-seven children, placed in her care by the Commissioners of Charities and Correction, have met their death in the almshouse, but it is feared that she cannot survive.

The little sufferer was sent at her mother's residence, but it is feared that she cannot survive. Mrs. Roberts was conveyed to the police station, and the police officers are now in possession of the premises. The affidavits say that Mrs. Roberts exposed the babies left with her in her back yard, without shelter from rain or sun, in an almost nude state; that she neglected and starved them; that she was habitually drunk, and that on one occasion she nearly suffocated two infants by lying or falling upon them while they were sleeping. The affidavits also state that she cruelly tortured and starved the babies, and that she had caused the death of several of them.

The affidavits also state that she cruelly tortured and starved the babies, and that she had caused the death of several of them. The affidavits also state that she cruelly tortured and starved the babies, and that she had caused the death of several of them.

Brevities.

It is proposed to form a battery of artillery in Moncton. They say that rifles don't make half enough noise for a town advancing like Moncton, and want guns that will make a louder report and also defend their railway buildings—the pride of the town.

The ankle of a boy named John Sullivan was dislocated by a carriage running over it, last evening, in St. Andrews street.

Monday is the day of the cheap excursion to Bangor. The train leaves here at 9.30 a. m.

One of the firemen of the Dorion was seriously injured by a fall from a piece of wood. Mr. Hawker, druggist, near a rat, and stitched up and dressed the wound, in a very few minutes.

The *Halifax Gazette* gives a list of thirteen vessels, aggregating 4,000 tons, now building in Cumberland County.

Mr. Vanliarum fell from a staging at the side of the bank Viking, yesterday, into the water, and sank. He came up near a rat, and stitched up and dressed the wound, in a very few minutes.

The boys in Portland now seem to walk on their feet, and have adopted athletic games, and other sports. They get plenty of lumbago in the mud. The City of Portland left Eastport at 11.45 a. m., and is due here at 4 p. m.

THE "MARITIME FAMILY KNITTING MACHINE" is the most perfect and complete Family Knitting Machine in the world, and will do all kinds of knitting with ease and without any trouble, cotton, silk or linen. It will knit twenty thousand stitches in one minute. Retail price only thirty dollars. Agents, Messrs. Hall & Hamilton, of this city, who are sole agents for the Maritime Provinces.

Shipping Notes. The brig *Harp*, Briggs, master, from Rio Janeiro for Sydney, C. B., put into St. Georges, Bermuda, on the 18th inst., to land Captain Carroll, of the brig *Harp*, of Halifax, his second officer and the other survivors of the crew, of that ill-fated vessel, who were rescued from the wreck on the 6th inst.

Captain Carroll reports that he left Halifax on August 7, bound to Sydney, with a cargo of lumber, and moderate breeze. Up to noon of that day there was no indication in the appearance of the weather. The barometer was high. The wind began with a squall, p. m., blew a terrific hurricane from the north quarter. At half past one the vessel was thrown on her beam ends, while lying on the starboard tack. The masts were cut away, and the vessel righted, waterlogged. The sea continued to roll over her, and she was completely swamped. The crew managed to save themselves as they best could between the house and the rail and the rigging. The masts were rolled over them, at times washing them loose. They became much exhausted in their endeavors to save themselves. At noon of the 19th day, they were in lat. 24.30 south, and long. 60.30 west. They were then rescued by the brig *Harp*, which was bound to Sydney, and remained there for ten days, and returned to the 18th of the month. The crew of the *Harp* were rescued by the brig *Harp*, which was bound to Sydney, and remained there for ten days, and returned to the 18th of the month.

Celebration at Spring Hill.

The grand opening of the Spring Hill coal mine, and railway, and the turning of the first sod, of the Parramatta Railway, takes place on Friday next, Thursday, as announced in some of the papers. A great many invitations will be issued, and the attractions are so great that all will be accepted. It is intended by the Directors of the Companies to make this double demonstration the grandest affair of the kind ever seen in New Brunswick or Nova Scotia.

Mr. Edwards, of the Victoria Hotel, is now making arrangements to provide the dinner for the company that will be present from different parts of the country. One table is to be set for three hundred and fifty guests, and another will be furnished for one hundred and fifty laborers. Judging from Mr. Edwards's efforts at the Masonic dinner Thursday evening, this part of the celebration will be in every way satisfactory. Mr. Edwards and his staff of assistants will go up by special train the day before to make preparations.

Mr. Governor Archibald and other prominent gentlemen of the Maritime Provinces will be present. A special train will leave St. John station at half past six o'clock on Friday morning, returning the same evening; and a special train will convey the Halifax guests home that evening also.

Palmyra Diseases. HARBOR GRACE, NEWFOUNDLAND, December 9th, 1871. JAMES I. FELLOWS, Esq.—Dear Sir: We are receiving orders almost daily from the Outpost for your invaluable Syrup of Hypophosphites, and the sale is steadily increasing. I firmly believe it has done more good than any medicine yet discovered in the cure of consumption, bronchitis, asthma, cough, and kindred diseases. It is the only medicine we have which cures these diseases by strengthening the nervous system, and as it is also what we call a sound chemical preparation, I predict for it a more extended demand than any other remedy in existence. Yours, very truly, W. H. THOMSON.

Excursion by Steam. The International Steamship Company are not to be outdone by any railroad, and have therefore arranged an excursion to Boston. "For \$6," says Capt. Chisholm, "I will give you a ticket to Boston and return, good for thirty days after being issued." This is cheap travelling, and it is more than probable that the fine steamers New York and City of Portland, during the first ten days of next month, will find their passenger lists considerably augmented. It is just the time to visit Boston and other parts of the States, as the heat of summer is over, the tourists have returned from their summer trips, and business and amusements have commenced.

Photographs in the latest style and finest quality. Cabinets and Imperials in metal plates, card-board or canvas, plain or colored, at MARSTON'S, cor. King and Germain streets. sept 27

Dramatic Notes. That old St. John actor, Louis Aldrich, is playing leading business with great success at the Arch Street Theatre, Philadelphia. We clip the following flattering notice from the *Evening Telegraph* of the Quaker City:—Mr. Louis Aldrich, as *Robert de Saint-Jean*, gave a most studied and artistic performance, identifying the character as only a thorough artist could do. His acting in the fourth and fifth acts was in all respects grand, his business well defined, and forcible. The main strength of the play is dependent upon the character of *Robert de Saint-Jean*, and from first to last he bore weight in triumph. After the fourth act, he received two calls, and was again summoned by the pulpit at the close of the play, and on each occasion enthusiastically applauded.

Mr. H. Fulton Russell, as *De Stuy*, gave an excellent performance, playing with force and expression. Mr. Russell is the gentleman who played with Mr. Nannery's Comedy Company at the Academy of Music, a few weeks ago.

C. A. McManus and Louis Morse are at Col. Wood's Philadelphia Museum.

DR. AYER'S LABORATORY, that has done such wonders for the sick, now issues a potent restorer for the beauty of mankind—for the comeliness which advancing age is so prone to diminish and destroy. His vision mounts luxuriant locks on the bald and grey patches among, and thus lays its tender obligations to him, for the good looks as well as health of the community.

Lea's Opera House. The performance last evening was a capital one, and thoroughly enjoyed by the audience. Of late the performances have been good, as all the old favorites appear, and Johnny Moran, and Jennie Pool, in their Irish acts, add a great interest to the entertainment. Pete Lee himself is on every evening.

Owing to disengagement in the non-arrival of talent from Boston, Manager Lea has determined to close next week, and will leave for Boston on Monday next to secure an entire new company, in time to appear here on Monday following.

IF YOU HAVE ANYTHING TO SELL advertise in THE DAILY TRIBUNE and secure the benefit of its large circulation.

Shipping the Wrong Crew. This morning a slight disturbance took place on board the new ship Prince Umberto, loading at Robertson's wharf. It appears the captain yesterday furnished the Shipping Master with a list of names, comprising his crew, to be shipped and sent on board his vessel. But Mr. Tisdale, it appears, drafted a number of men from some of the boarding houses and shipped them, leaving the others out in the cold. The captain was not aware of the change until this morning, when he was visited by several boarding masters and men, when he at once took steps to have the matter set right. The parties interested censure Mr. Tisdale for the transaction, alleging that it was evident by mistake.

The creation of the DAILY TRIBUNE is rapidly increasing.

Country Market. The market was well supplied this morning with all sorts of seasonable fruits and vegetables. Good prices were received by the farmers for all their produce. The show of meat, poultry and game was very small, and there were few enquiries for these articles. I meats, beef and mutton were all the same to be seen, and purchased were ham (D) owing to the lack of other kinds.

The Daily Tribune advertises a liberal terms and gives the largest city circulation.

Victoria Hotel.

The arrangements for permanent boarders at the Victoria Hotel for the coming winter months will be unassured by any hotel on this continent, and we understand that a great number of families and private individuals are taking advantage of the first class accommodation, which is being offered at reasonable rates.

Auction Sale. Mr. G. E. Suter sold at auction to-day two lots on King street belonging to the estate of James Quinton, an insolvent. They were sold, subject to a mortgage, to Messrs. Allan Brothers for \$1. At the same time fifty acres of land, belonging to the same estate, on the Manawagonish was sold to Mr. Lawrence Mackay for \$1,000.

Coal and Oil Discoveries. Under the superintendence of James C. Hickman, Esq., of Amherst, who was formerly so successful in searching for coal in Cumberland County, N. S. Coal Oil in considerable quantity has been also discovered in two of the trial pits, and a special dispatch received last evening, founded on the report of the foreman of the exploring party, alleges that the oil is increasing in quantity.

THE DAILY TRIBUNE claims the largest city circulation of any daily published in St. John.

Pistol Practice of Grammar School Boys. Among the play things carried to the Grammar School, yesterday, was a loaded pistol. At half-past one, while the boys were in the playground, one handed his shooter to another, who aimed at the gate opening on the street and fired. The bullet whizzed past the head of a son of Dr. Coster, and crossed the street (there happening to be nobody in the way to stop it), and buried itself in the clipboard of Germain Street Methodist Church. The Trustees are making a private investigation into the affair, and into the nature of the playthings used by the youthful students of Greek and Latin generally.

A Young Lady accused of Stealing. Miss Wall and Miss Morris were fellow boarders at the Carlton House in this city, and the former left the house the other evening leaving the latter at home. When she returned Miss Morris had left, and \$12 of Miss Wall's had left also. The money had been in a wallet in the pocket of a dress which was hanging up in her room, and consisted of two five dollar notes, a half sovereign, and some silver change. Miss Wall accuses Miss Morris of stealing her money, and a little girl in the house saw Miss Morris with some money just before she left. She has not since been seen, and it is not known whether she has left the city or not.

An Inevitable Clash. A sailor deserted from an English ship in port. The captain did not want him, but wished him to keep out of his sight. This the sailor would not do, and loafed round the wharf. The police were sent for to take the man in charge as a deserter, but as soon as he saw the brass buttons, he took to his heels. The two officers had a lively chase up the North Wharf, but the sailor outmaneuvered them and made good his escape. The people on the wharf were much amused at the sight, and lustily cheered the contestants in the race.

City Police Court. Michael Ayles was arrested in Charlotte street and confessed being drunk. A fine of \$4 was imposed.

James Adams was arrested in the same situation on the South Wharf, was fined \$4.

James West, from the West side of the harbor, drunk; fined \$4.

John Walters, in for protection, was let go.

Patrick Higgins, for using abusive and insulting language to Margaret Murphy, was fined \$8.
