NOTES OF THE MONTH

Wild duck shooting begins. Good sport with other sort of ducks may now be enjoyed; this is very exciting, and not so cruel, as they are easily taken under mistletoe.

The amount of gas now required, makes shares extremely buoyant. This can be accounted for. Not one person in 10,000 having the slightest idea of a meter, the collector can reckon according to what dividend the company wish to declare. Gas shares are really a first-rate investment.

A Christmas box that may
may be exported.

The greatest wonder at this festive season is 8 remarkable large plates of "Apple Pie," under a gold cover, for 6d. These will be forwarded by Read and Co., 10, Johnson's-court, Fleet Street, for an extra Stamp.

Why are great bars like very high houses? Because they are full of stories.
