

This figure represents a clay vessel, which was found by Mr. James Lusk, on his farm, Lot 29, Range XI, Township of Eardley, Wright Co., Que. It was purchased from Mr. Lusk in the year 1903, and is now in the Archaeological Section of the Geological Museum at Ottawa, where it is indexed as No. 3282A. The vessel is 11 inches in height and 33 inches in circumference.

(The photograph, from which this reproduction was made, was kindly furnished by the Geological Survey Department.)
