

Consolidated Phosphates Limited

Board of Trade, Toronto, Ont.

Capital Stock, \$150,000 Shares, \$10.00 each
Incorporated, 1900.

One of the objects of this Company is to introduce intelligent methods of cultivation by bringing farmers to a clear understanding of the principles involved in manuring.

Travellers and Local Agents Wanted

WILLIAM J. THOMPSON, U.S.A., Supt. of Agencies.

No Farmer should be without A Set of Low Wheels

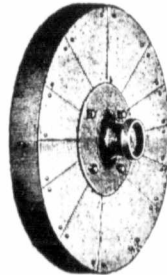

Made to fit any size axle.

They cannot be overloaded.

By lowering the wagon bed, you lessen the labor of loading anything off the ground.

Logs, wood, grain, stone, fodder, hay, manure, hogs, roots, vegetables, apples—anything. Double the load. You can simply replace the high wheels, as the low wheel is made to fit any wagon.

Write us for full particulars,
which will be cheerfully given.

No spokes to gather mud or get loose. Strong durable and easy running.

Speight Wagon Co.

MARKHAM, ONT.

Golden Returns

WHEN YOU
SEE A
DE LAVAL

ALPHA DISC Cream Separator

GOLDEN returns gained by special methods. A rich cream will be worked with just as much of a strain with a special separator as with a poor one with a special separator. There are 100,000,000 profitable methods of separating cream. If you know what a golden separator will do for you, 200 golden returns you will get for one. You get the Laval Alpha Disc Cream Separator. The "Alpha" will save labor, get more cream, the cream will be better and better, and it will last and bring a much higher price. The De Laval.

ALPHA

Disc Cream Separator

separates the cream immediately after milking. The skim milk is thus better for stock than when more mature, and so the "Alpha" not only increases the returns from the dairy department, but also increases the returns from the stock department. You ought to know about the "Alpha." Send for a catalogue.

CANADIAN DAIRY SUPPLY CO.
327 Commissioners St.
MONTREAL

The Razor Steel

SECRET TEMPER, CROSS-CUT SAW

WE take pleasure in offering to the public a Saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than by any process known. A Saw, to cut fast, "must hold a keen cutting edge."

This secret process of temper is known and used only by ourselves.

These Saws are elliptic ground thin back, requiring less set than any Saws now made, perfect taper from tooth to back.

Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other Saw is as good, ask your merchant to let you take them both home and try them, and keep the one you like best.

Secret steel is no longer a guarantee of quality, as some of the poorest steel made is now branded secret steel. We have the sole right for the "Razor Steel" brand.

It does not pay to buy a Saw for one dollar less and get 25 per cent. more work. Your Saw must hold a keener edge to do a large day's work.

Thousands of these Saws are shipped to the United States and sold at a higher price than the best American Saws.

MANUFACTURED ONLY BY

SHURLY & DIETRICH
GALT, ONT.

\$20 If you want to **SAVE MONEY** and get the best mechanical floor rock blade saw price, write your dealer. Buy direct from factory, the profit. All machines to be paid for in 12 equal weekly payments.
