

Farm Help

To the Farmers of Ontario:

FOR the past few years farm help has been scarce and expensive. As a consequence many farmers have been unable to get as much done in the way of cultivation and improvements as they desired. I therefore beg to bring to your attention the fact that one of the first effects of the unfortunate war in which the Empire is now engaged has been the dislocation of industry, and it is expected there will be a considerable increase in the number of unemployed in the industrial centres of the Province this winter. Many of these men, no doubt, have had experience in farm work, while others, inexperienced, are willing to learn and could be of considerable assistance in the meantime. It is anticipated that much of this labor will be available for farmers at a small wage, including board. In times of war it becomes an act of the highest patriotism, aside altogether from the fact that it is also profitable, to assure an adequate supply of foodstuffs, and I trust Ontario farmers will bend every effort to this end. With this feeling of patriotism there might well be mingled a feeling of gratitude that our lands have been spared from the ruin which the devastating hand of war has caused in other countries. It has seemed to me that many of the unemployed in the cities, if available at a reasonable wage, should be used on the farms during the fall and winter preparing land for cultivation, making repairs, taking care of stock, and in other ways. This Department will be glad to receive applications for labor on this basis.

ALL APPLICATIONS SHOULD BE ADDRESSED TO:

H. A. MACDONELL, Director of Colonization
Parliament Buildings, TORONTO, ONTARIO

And should state class of help required,
wages, length of service, etc.

JAS. S. DUFF, Minister of Agriculture

My! How Easy It Runs!

THAT'S the sort of exclamations we hear from people who turn the 1915 Model Standard for the first time. It runs so easily that it seems as if a hidden motor must be doing most of the turning. That a cream separator should run so remarkably easy is considered to be a wonderful thing. But it is only one of the new features of the 1915 Model

Standard

CREAM SEPARATOR

There is the interchangeable capacity feature, too. The one frame of the 1915 Model Standard accommodates all sizes of bowls, the frame and gearing being sufficiently heavy to drive our largest capacity bowl. Think of the wide margin of extra strength and durability this means for the smaller bowls.

If, after buying the 1915 Model Standard, you should increase your herd, you will not need to buy an entirely new machine of larger size. Just get a larger size bowl and fittings. An allowance will be made for the used bowl and fittings. This is the most important improvement

in cream separator construction in years, and it is fully covered by our latest patents.

The other new features are explained fully in the new edition of our catalogue, just off the press. The results of tests of the Standard at Government Dairy Schools and Creameries are also shown. Write for a copy.

The Renfrew Machinery Co., Limited

Head Office and Works: RENFREW, ONT.

Agencies Almost Everywhere in Canada

GOES LIKE SIXTY SELLS LIKE SIXTY

GILSON ENGINES

are made in all sizes, for all purposes, priced from \$45.00 upwards. They have exclusive patented service features, not found in any other engine—fully described in our catalogue, sent free.

"Goes Like Sixty" Engines are made for, and purchased by men of superior judgment and discrimination. They know that Gilson Engines are greater value because they have service features that cannot be secured elsewhere.

If you need an engine, and do not buy one, you are paying for it anyway. When you get a Gilson Engine, in reality you do not pay for it—it pays for itself. Do not buy an engine until you have investigated further. Send for catalogue.

Gilson Manufacturing Co., Ltd.
2909 York Street, Guelph, Ontario
