

Getting the Most From Mother Earth

The Part Played by Correct Lubrication

With ever-widening markets for their crops, progressive farmers have realized that animal power long ago reached its limit of production.

So they turn to mechanical power, as have men in other industries. With mechanical power they plow deeper, work faster, and cultivate a much bigger acreage.

The tractor has become a standard agricultural implement. It shortens labor.

The great war demonstrated two big things:

- 1—That mechanical power multiplies crop results.
- 2—That mechanical power, operated and maintained at highest efficiency, gets the ultimate out of Mother Earth—at costs per acre far below any ever before recorded.

You know the difference in power results and economy, between tractor engines that operate at maximum efficiency and those which are constantly breaking down in service.

FOR PASSENGER CARS

The passenger car has entered the farmer's life as a business as well as a pleasure vehicle. Its correct lubrication is as important as the lubrication of your tractor.

Write for booklet "Correct Lubrication," containing complete Gargoyl Mobiloils Chart of Recommendations. There is also a complete discussion of automobile problems and troubles.

IMPERIAL OIL LIMITED

Manufacturers and Marketers of Polarine Motor Oils and Greases
Marketers of Gargoyl Mobiloils in Canada

BRANCHES THROUGHOUT CANADA

For years a constantly increasing number of engine users have turned to the correct grade of Gargoyl Mobiloils, because the correct grade keeps their engines delivering their best. Gargoyl Mobiloils engineers, after years of careful research have produced the authoritative Chart of Tractor Recommendations shown in part on the right. The Chart shown here tells

at a glance the correct grade of Gargoyl Mobiloils for a number of the most prominent makes of tractors, both summer and winter use.

Farmers who get the most out of their tractors, follow the Gargoyl Mobiloils Chart of Recommendations as the authoritative guide to correct tractor lubrication.

An instructive booklet on the Correct Lubrication of Tractors, and containing complete Chart of Recommendations will be sent on request. In buying Gargoyl Mobiloils from your dealer, it is safer to purchase in original packages. Look for the red Gargoyl on the container.

Mobiloils

A grade for each type of motor

CORRECT TRACTOR LUBRICATION

Explanation:—The four grades of Gargoyl Mobiloils for tractor lubrication, purified to remove free carbon, are:

Gargoyl Mobiloil "A" Gargoyl Mobiloil "BB"
Gargoyl Mobiloil "B" Gargoyl Mobiloil Arctic

In the Chart below, the letter opposite the tractor indicates the grade of Gargoyl Mobiloil that should be used. For example: A means Gargoyl Mobiloil "A." Arc means Gargoyl Mobiloil Arctic, etc.

BISSELL LAND ROLLERS

are all steel except the Pole. They are braced and stayed to stand all kinds of hard work and wear well. The entire frame, bottom and all, is built of steel. The (18) anti-friction Roller Bearings make light draught.

The Draw Bracket and low hitch do away with neck weight.

The Axle revolves with the drums and there is no squeaking or grinding.

The Cages holding the anti-friction rollers are the best yet; they're MADE OF MALLEABLE ALL IN ONE PIECE—no twisting or binding of the bearings on the axle of the "Bissell" Roller. The Seat Spring is reinforced and is DOUBLED AT THE HEEL. These good features are not all of the advantages of the "Bissell" Roller. Many more good points are built into them, making a Land Roller that is "built for business," that stands up against lots of hard work.
