AURORA, ILL., U. S. A.
CHICAGO, ILL. DALLAS, TEXAS.

Build the Standard BORING, CORING or ROCK PROSPECTING MACHINERY

Your Traction Farm Engine will successfully drive, in prospecting, that OIL, GAS or WATER problem.

Also build FULL LINE heavy PUMPING MACHINERY.

Catalog mailed on request.

A PROFITABLE FARM MACHINE
Cream separators cost. Do you then to buy the Cream Separator that takes the cream—that gets all the cream possible.

THE U. S. CREAM SEPARATOR
takes out more cream than any other because of the unique construction of the bowl.

AN EXCLUSIVE FEATURE
Only two simple parts inside the bowl, one fits into the other, both fit into the steel bowl shell. When put together there are three bowls in one. No other separator has this advantage, and that is why no other can skim as close as the U. S.

Our free booklet fully explains and illustrates this feature. It shows, too, the easy-to-fill milk tank, the standard light running gears, and self-oiling device found in the U. S. It makes money interesting reading. Drop us a line now while the matter is fresh in your mind, and we will send you the booklet by return mail.

VERMONT FARM MACHINE CO., Bellows Falls, Vt.
Sole Importers for the Dominion of Canada in U. S. and Canada.

HOW I CURE WEAK, PUNY MEN

Give me a man broken down by dissipation, hard work or worry, from any cause which has sapped his vitality. Let him follow my advice for three months and I will make him as vigorous in every respect as any man of his age.

I will not promise to make a Hercules of a man who was never intended by nature to be strong and sturdy. Even that man I can make better than he is; but the man who has been strong and has lost his strength I can make as good as he ever was.

I can give a kick to any man what he has lost by abuse of the laws of nature.

A man who is nervous, whose brain and body are weak, who sleeps badly, awakes more tired than when he went to bed, who is easily discouraged, inclined to brood over imaginary troubles, who has lost ambition and energy to tackle hard problems, lacks the animal electricity which the Dr. McLaughlin Electric Belt supplies.

The whole force of vitality in your body is dependent upon your animal electricity. When you lose that in any manner my Belt will replace it, and will cure you.

Mr. S. Nickerson, Niagara Falls South, Ont., says:—"Your Belt cured me of sciatic rheumatism three years ago, and I am still cured, and my case was one of the worst."

Letters like that tell a story which means a good deal to a sufferer. They are a beacon light to the man who has become discouraged from useless doctoring. I get such letters every day.

My Belt has a wonderful influence upon tired, weak nerves. It braces and invigorates them and stirs up a great force of energy in a man.

I make the best electrical body appliance in the world, having devoted twenty years to perfecting it. I know my trade. My cures, after everything else has failed, are my best arguments.

Mr. Christopher Williams, Cranbrook, B.C.:—"I am pleased with your Belt in every way, and I think it is a grand remedy."

Give me a man with pains in back, a dull ache in his muscles, or joints, "come-and-go" pains in his shoulders, chest and sides, sciatica in his hip, lumbago, rheumatism, or any aches or pains, and my Belt will pour the oil of life into his aching body and drive out every sign of pain. No pain can exist where my Belt is worn.

You run no risk in using my Belt. I take all chances.

Any man or woman who will give me reasonable security I will send them the Belt, with all the necessary attachments suitable for their case, and they can

PAY WHEN CURED.

It's as good for women as for men. Worn while you sleep. It causes no trouble. You feel the gentle, glowing heat from it constantly, but no sting, no burning, as in old style belts.

Call to-day or send for my beautiful book, full of the things a man likes to read if he wants to be a strong man. I send it sealed free. Send me this coupon:

DR. M. S. McLAUGHLIN, 130 Yonge Street, Toronto, Can.

Dear Sir—Please forward me one of your Books, as advertised.

In answering any advertisement on this page, kindly mention the FARMER'S ADVOCATE.

QUESTIONS AND ANSWERS. Miscellaneous.

ASSESSMENT CASES.

1. Should a butcher, barber, tailor, blacksmith, wagonmaker or marble dealer pay a business assessment?
2. How much interest on mortgages or moneys loaned can a person receive before he must pay an income assessment?
3. Why must I pay on interest on mortgage and not from the moneys received in rent?
4. If a man (retired farmer) invests from 5 to 10 thousand dollars in cattle and has them on pasture, say from one to three or four months, should he not pay a business assessment or income?
5. Should farm lands within a corporation be rated the same as town or village property?

SUBSCRIBER.

Ont.

Ans.—1. Yes.

2. All such interest is liable to taxation.

3. The statute assigns no principle as having formed a basis for the distinction.

4. We think not.

5. Not if in blocks of not less than five acres and held and used as farm lands only, provided the person claiming exemption duly notifies the council thereof.

BLACKLEG VACCINE.

I saw in last year's "Farmer's Advocate" some chemist's address who advertised a cure for blackleg or anthrax in cattle; as I have lost track of the paper it was in, and I have lost three of my cattle lately, I wish you would forward it to me as soon as possible. S. F.

Ans.—We never heard of a cure for blackleg, but a sure preventive is inoculation with blackleg vaccine, which may be obtained with full directions by writing the Pasteur Vaccine Co., of Chicago, Ill. Our querist is at fault in using interchangeably the terms blackleg and anthrax. Anthrax is an entirely different and much more virulent disease; but blackleg is sometimes called "symptomatic anthrax." Pasteur discovered the vaccine against anthrax in 1881, which has been used with great success in all civilized countries. It is furnished in the form of a cord, which is inserted under the skin with a small outfit. On this subject Dr. J. G. Rutherford, Veterinary Director General, Ottawa, writes us as follows:

"Anthrax is one of the diseases dealt with under the Animal Contagious Diseases Act, and our regular inspectors are instructed to investigate all outbreaks, and to take such precautions as may appear to be necessary to prevent the spread of infection. Preventive inoculation, although attended with some risk, especially in unskilful hands, is generally successful, but our inspectors are not permitted, for various reasons, to undertake such inoculations. Blackleg, on the other hand, is not dealt with by our officers, as in this disease the mode of infection is exceedingly indirect, and any ordinary quarantine measures which might be adopted would be of little avail. This department has an arrangement with the Pasteur Vaccine Company, of Chicago, whereby blackleg vaccine is supplied direct to owners or veterinary surgeons at 10c. per dose, this being a reduction of 33 1-3 per cent. on the usual retail price. The instrument for its application is also supplied at 40c. A similar arrangement exists in regard to anthrax vaccine, which, however, costs between 18c. and 14c. per dose; but in this case the preparation has to be ordered from Chicago for each outbreak, as it must be fresh to be safe and effective. Both preparations are supplied in lots of not less than ten doses each. I hope to be able, in the near future, to supply these vaccines from our own laboratory at cost, but meanwhile the above arrangement holds good. I enclose copy of our instructions for forwarding specimens to the Biological Laboratory in doubtful cases."

[Note.—In cases where animals are suspected as having died of anthrax, a few drops of blood should be placed on a clean piece of note paper, allowed to dry in the air, folded, placed in an envelope, and forwarded to the Biological Laboratory, Ottawa, for diagnostic purposes.—Ed.]

TAKE MY CURE, WHEN CURED YOU PAY ME

The fear that you could not be cured may have deterred you from taking honest treatment, or you may have been one of the unfortunate who have been treated in vain by inexperienced physicians, free treatments, free trial samples, patent medicines, electric belts and other similar devices. Such treatments cannot and will never cure you, nor will these malades cure themselves. When I offer you a cure, and am willing to risk my professional reputation in curing you, and have such faith and confidence in my continued success in treating these diseases that not a dollar need be paid until you are cured, a fair proposition cannot be offered to the sick and afflicted. This should convince the skeptical that I mean what I say, and do exactly as I advertise, as I am positive of curing you in the shortest possible time, without injurious after-effects. My charges will be as low as possible, for conscientious, skilful and successful services, and my guarantee is simple and true. Not a dollar need be paid until cured. I have 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee of my standing and abilities. It makes no difference who has failed to cure you, it will be to your advantage to write to me for my opinion of your case, which I give you free of charge. I want to hear from patients who have been unable to get cured, as I guarantee a positive cure for all chronic, nervous, blood and skin diseases, which I accept for treatment. I not only cure the condition itself, but likewise all the complications, such as rheumatism, kidney and bladder troubles, blood poison, physical and nervous debility, lack of vitality, stomach troubles, etc. All medicines for patients are prepared in my own laboratory to meet the requirements of each individual case. All medicines for Canadian patients sent from Windsor, Ont., duty and transportation prepaid. I will send a booklet on the subject which contains the 14 diplomas and certificates, entirely free. Address simply: Dr. S. Goldberg, 206 Woodward Ave., Suite 335, Detroit, Mich.

Asthma

Cured to Stay Cured

Attacks stopped permanently. Cause removed. Breathing organs and nervous system restored. Symptoms never return. No medicines needed afterwards. 21 years of success treating Asthma and Hay Fever. 50,000 patients. Book 57¢ Free. Very interesting. Write F. HAROLD HAYES, Buffalo, N.Y.

WOMEN'S BALLOON SPRAY SYRINGE

Thoroughly cleanses vaginal folds. Strong back suction. Absolutely safe. Recommended by all doctors. Thousands in use. Drug store price, \$3.50; our price (mailed free) \$2.50. Plain sealed packages. Full directions for use. Send for bargain circulars of everything.

CROOKED LINE FENCING.

A and B have farms that join. The line fence between them was put there, I suppose, forty or fifty years ago, when it was all bush. It is bush yet the most of the way. At each end of this fence there is a stake or post put there by the Government surveyor. When this fence was put there so long ago, it was not put straight; some obstruction in the way, I suppose. It is on A some two or three feet for a distance of perhaps ten or twelve rods. B claims this land that is on his side of the fence, and objects to having the fence straightened.

1. Can he hold it?
2. Is this two or three feet B's by right of possession?
3. What course should A take?

The fence has been kept up by putting rails on top; the bottom rails have never been relaid.

SUBSCRIBER.

Ont.

Ans.—1 and 2. In view of the great length of time during which the fence has been allowed to stand where it now is, we think these questions must be answered in the affirmative.

3. A should endeavor to effect some amicable arrangement with B for the straightening of the boundary line and fence.
