**THE "ACME"**  
Patent Poultry Netting

is the only poultry netting that can be successfully stretched without rabs at top and bottom. This is so because we use strong, heavy wires at top, bottom and through the middle. Note the graduated meshes, running from 1 1/2 in. at bottom to 3 in. at top. Keeps in the fowls, big and little, and keeps out their enemies. Not flimsy in any particular, but a strong, heavy, desirable netting. We also make Lawns and Farm Fencing, Gates, Staples, etc.

**BULL-STRONG!**  
...**PIG-TIGHT**...  
An Illinois farmer said that after harvest he had fully 200 bushels of loose oats on the ground that he could not secure any benefit from, because the fence hogs, figure the loss for yourself. He also said, all this would have been saved if he had used the Kitchman Woven Wire Coiled Spring Fence, and the value would have gone a long way towards paying cost of the fence. With the **Duplex Machine** any farmer can make it himself at the actual cost of the wire. Catalogue free for the asking.
