C. M. B. A.

IMPORTANT LETTERS FROM THE GRAND PRESIDENT.

Office of the Grand President of the Grand Council of the C. M. B. A. of Canada. Brockville, November 3, 1892.

Council of the C. M. B. A. of Canada. Brockville, November 3, 1892. DEAR SIR AND BROTHER: -- For the first time I, to-day, received a copy of the peti-tion for a separate Grand Council, which is being circulated throughout the branches in the Province of Quebec and the maritime Provinces. Heretofore I was under the im-pression that the branches were being asked to simply pass motions setting forth their de-sire to remain with the Supreme Council. I did not for one moment suppose that the members in these Provinces were being wittingly or unwittingly misled by repre-sentations set forth in this form of petition. The deception is only augmented by the attempt to give it an official character by ad-dressing the petition to the Supreme Council has sanctioned the representations contained in this form, for the reason that to do so would be perpertating a very serious breach of faith and a palpable violation of the agree-ment entered into by us with them. Besides, the proposals therein contained are altogether Jouridiculous to emanate from such a body of mean. It is, therefore, safe to conclude that the Supreme Council are not aware of the tempting to establish this proposed Grand Council. The petition referred to reads as follows : To James S. McGarry, Esq., Supreme President C. M. B. A:

The petition referred to reads as follows:

The petition is not, as it purports to be, "pursuant to the provisions made therefor by the Supreme Council Convention of the C. M. B. A."

"pursuant to the provisions made therefor by the Supreme Council Convention of the C.

 Teamot see anywhere in this section any authority given to anybody to compel the Grand Council of Canada to relinquish or drive out the fifty four Branches and say three thousand five hundred members in Quebec and the Eastern Provinces at the re-quest of ten branches and five hundred mem-bers.

The dencation superior to the education of the Public school, as any one can see from the result of the competitions that take place from time to time. Hence it is absurd to say that time is lost in Catholic schools. The success of these schools is too patent to deny such statements. In concluding Father Dempsey paid a well-merited completion of such a fine building "second to none, if not superior to all," which is saying a good deal, as Detroit has many the school buildings. The pastor then invited the people to visit the school and welcomed them to their new home.

The proposal to thus allow a minority - and a very small minority at that - to control so vast a majority, and under such varying circumstances, is not only absurd, but monstrous.
