NEW BRUNSWICK ELECTIONS .- The following gentlemen have been reported as elected since our last :-Mr. McAdam, for Charlotte county.

Mr. Domville, for Kings "and Mr. Moffatt, for Restigouche"

THE INDIAN Troubles IN THE DOMINION.-Indian troubles threaten the peace and progress of British Columbia, as well as the Proince of Manitoba. If the reports received at Victoria have any truth, the disturbances in the former Province are of a serious character. According to these reports the Indians on the Skeena River, which lies in the northern part of the Province, massacred the whole of the white settlers at Hazleton, a small settlement up the country, about a month ago. Trouble had, peace and to make terms of settlement with the nine, A. M. Indians for the alleged firing of one of their buildings by the whites. The reason assigned by the provincial authorities for not having at

once acted upon the information received, according to a local journal was, because the subject was one with which the Dominion, not the provincial authorities have to do, and they could not venture to move in the matter until they not venture to move in the matter until they had communicated with the Government at Ottawa and received the necessary instructions as to what had to be done in the premises. The true cause of the delay will, we think, be found the cause of the delay will, we think, be found the cause of the delay will, we think, be found the cause of the delay will, we think the found the cause of the delay will, we think the found the cause of the delay will, we think the found the cause of the delay will, we think the found the cause of the delay will, we think the found the cause of the delay will, we think the found the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be found to the cause of the delay will be fou rather in the authorities not realizing the dangerous position of affairs. It is satisfactory, however, to find that at the time of the latest mail, orders had been issued to two of HerMa-jesty's gunboats to proceed to the scene of the sported disaster, and reliable information as to the truth of the alleged massacre was anxiously awaited by the citizens of Victoria. From the tobe assumed by the provincial journals when discussing Indian questions, it is evident that the management of the Indian population will prove a task of considerable difficulty in British Columbia. The province is of vast ex-British Columbia. The province is of vast extent, containing a large population, with here and there communities of white settlers in a large measure exposed to the depredations of the various native tribes. Every settlement is, of course, anxious that it should be adequately protected, little heeding that a system of thorough protection to every hamlet, in the event of serious disturbances with the Indians, utes of Conference from the Printer, ready for could only be effected by the presence of large military force in the country, which would have to be maintained at an enormous ex- and will forward them to the Districts with the pense. The suggestion made that the Domin- least possible delay. ion Government should at once appoint an In-dian Commissioner for the Province, so that in the event of any difficulty arising between the

natives and the white population, immediate steps might be taken to rectify it, and thereby avoid disaster and bloodshed, is one which will receive, no doubt, due consideration at the hands of the Government. It is unfortunate that these troubles with the native tribes in the two northwestern provinces of the Dominion should arise at the present juncture when we are looking forward with confidence to the commencement of work on the Canada Pacific Railway at an early date. They are, however, doubtless only of a temporary character, arising out of local quarrels. Still they serve to show the importance of continuing steadily to pursue a peaceful and conciliatory policy to-wards the native tribes, who form so large a portion of the population of the western plains, for such a policy alone can prove successful in dealing with the Indians within the borders of

A Good Speculation.—We learn that the Hon. A. J. Smith sold last week a large plaster property, purchased and owned by him at Hillsborough, Albert County, to some New York capitalists for \$40,000. We understand that Mr. Smith realizes some \$24,000 by the operation.—Post.

Recovering.—A correspondent writing from Wolfville yesterday, says: Mr. George Bates, who was shot in the ears on the Windsor and Annapolis Railway on Monday last is doing well. The ball passed around from the front and lodged under the right shoulder and was cut out by Drs. McLatchy and Bares of this place, within an hour of the time the accident occurred. It barely escaped severing the main artery.—St. John Telegraph.

us that the vessels built and in course of construction this season at that place are as follows:

The ship Lyra, built by Mr. John Harvie, about 1,200 tons, is a first class vessel in every respect, as all Mr. Harvie's vessels are. She is owned by the builder, Capt. Nelson. Mosher who commands her, and others. She was launched about a fortnight ago.

The barque Marry Wiggins, built by the Messrs Moshers, is nearly completed and will be launched in about a week. She will be commanded by Capt. Harry Mosher, and will register 779 tons. Besides these there is a barquantine of about 600 tons, timbered out. She will be launched in the fall. Capt. John Card is to be master of her. There is also the keel of another vessel of 172 tons laid. Capt. Sheet Harbor.

Disastrous Fire in St. John, N. B., was totally destroyed by fire on Wednesday evening. 100 hands were thrown out of employment. Mr. Ames' loss is very heavy. Exclusive of some \$6,000 worth of stock an account of which had been taken that day, the estimated value of the property destroyed, manufactory, dwellings, &c., is about \$40,000. Not more than one fourth of the amount is covered by insurance.
