Apple Blossom Time at Hillcrest Orchards, Kentville

**THE SECOND SPRAY**  
Pests Destroyed.

In ordinary years this is the most important spray and should never be omitted. If the first spray has not been given it should be applied a few days earlier than indicated in the illustration. This is the time that apple scab usually be-

gins to show and especial care should be exercised in its application to prevent this disease getting a foothold on leaves and blossom stems and causing a heavy drop of the fruit. Bud moths, fruit worms, canker worms, tent caterpillars and brown-tail moths are among the biting insects destroyed and the residue from this spray is of service in the control of the codling moth in Nova Scotia. In many

places this season the canker worm will be the most important pest to control at this time, and arsenate of lead as recommended is the best method to employ.

Retail grocers are given until June 1 to obtain licenses from the Food Board.

Minard's Liniment for sale everywhere.

**LEADING SINN FEINERS PLACED UNDER ARREST.**

German Plot in Ireland Discov-  
ered; Call to All Loyal Irish-  
men.

Dublin, May 17—A proclama-  
tion, issued tonight, says a Ger-  
man plot in Ireland has been  
discovered. In the proclama-  
tion the viceroy calls upon all  
loyal Irishmen to defeat the con-  
spiracy.

**In Communication With Ger-  
mans.**

LONDON, May 17—A des-  
patch to the Exchange Tele-  
graph says a proclamation was  
issued tonight, signed by Edw.  
Shortt, chief secretary for Ire-  
land, asserting that certain per-  
sons in Ireland have been in  
communication with Germany,  
"reflecting on Ireland's fair  
name."

A proclamation calls upon all  
loyal subjects to aid in defeating  
the manoeuvres. It urges  
voluntary recruiting so that  
compulsion may be averted.

LONDON, May 19—The Ob-  
server, commenting on the Irish  
situation, says:—"A brave step  
has been taken in Ireland. For  
grave reasons, Friday morning,  
Professor De Valeria, president  
of the Sinn Fein party, and  
many other extremists of the  
name organization were arrest-  
ed."

"The reason is that these  
avowed separatists and pro-Ger-  
mans have once more been in

reasonable touch with the en-  
emy, despite the leniency with  
which they were treated after  
the last Dublin outbreak, revolt  
and sabotage.

**GERMAN AVIATION HAS  
CEASED TO BE A FORCE  
FOR SERIOUS RECKONING**

LONDON, May 22—(Associat-  
ed Press)—German aviation  
has proved a signal failure in  
the great offensive on the west-  
ern front, according to an officer  
correspondent of the Morning  
Post. Writing from the front  
he says:—

There are  
exist at present. There are  
two principal reasons, the first  
being the tremendous wastage  
caused by the incessant attacks  
of the British and French pil-  
ots on German machines, the  
second being the bombing of  
airdromes.

"The conclusion seems man-  
ifest that it is because they have  
not the necessary force avail-  
able. In any case the fact  
remains that German aviation  
has ceased to be a force to be  
seriously reckoned with. In the  
last four weeks the situation,  
which on several occasions,  
has necessarily been delicate,  
would have been very much  
more so, had the Germans been  
equipped with an adequate air  
service, to supply them with de-  
finite observation."

Minard's Liniment used by Phy-  
sicians.

**Different  
Kinds of  
Heat**

Your furnace should not  
only give you plenty of  
heat, but the right quality  
of heat.

Some houses would be  
better without any heat  
than the kind their fur-  
naces give them.

If you study the Sunshine  
Furnace you will know  
what the right kind of heat  
is and how to get it.

"Full information about the  
SUNSHINE will be sent FREE  
to any address upon request to  
our nearest Branch office."
