FARMERS READ THIS

MCCORMICK CORN HARVESTERS GIVE PERFECT SATISFACTION.

This is to certify that we witnessed the operation of one of your Corn Harvesters on the farm of Mr. James Holmes, and are pleased to say that it is one of the most perfect pieces of machinery that we ever saw for cutting and handling corn, and in point of making an even butt and tying. The sheaf carrier works to perfection, in point of making an even butt and tying. The sheaf carrier works to perfection, in point of making any ears knocked off. It is very easy draft, has no side draft, and two horses haul it with ease.

We would recommend the McCormick Corn Harvester to any persons wishing to purchase a corn harvester.

LIKE OLD TIMES.

"King street now reminds me of when I was a boy," said Hugh Murphy yesterday. I am 52 now and in my younger days there was no pavement on King street. I remember one day my boots got stuck in the mud when I was crossing the street and I had a great time getting out. It was a common thing to see ox teams and wagons stuck in the mud. Farmers when coming to town

thing to see ox teams and wagons stuck in the mud. Farmers when coming to town used to put a fence rail in their rigs to pry their wagons out when they stuck. There was no market in those days and a man named Orr kept a butcher shop where the Bright block now stands. Since then, how-ever, there have been so many changes that if one of the old residents could rise again, he would pass the place by without know.

WE NOW OWN A TESTER. WE NOW OWN ATTESTED.

The cement tester which was purchased by the city at a cost of \$130, has arrived, and was put together by the city engineer this morning. For the King street pavement a pressure of 70 lbs, to the square inch on a test of twenty-four hours, will be required.

TO PUSH THE BATHS. Dr, Hall stated this morning that now that their by-law had been passed those interested in the mineral baths project would hold a meeting to-night for the purpose of talking over plans for putting the baths in operation as soon as possible. It is the intention of the promoters to begin work on the construction of the baths at once. It is quite probable that the well will be shut off after to-might, as some of the interested parties are adverse to having the good water run away. Dr, Hall stated this morning that

WHY ALL THIS DELAY? From present appearances it would seem that no granolithis walks will be laid this year. P. L. Morden, & Co., of London, have the contract and Co., of London, have the contract and none of their men have yet put in an appearance. Ald. Sulman enquired from the city engineer this morning to know whether that official had learned anything of the contractors intentions. Mr. Shackleton notified the company last week that if they did not have their men here this morning experience to go on with the work, he would consider that they had aban-are present laying walks in Windsor. THE HIGH ESTEEM

In Which the Head of the Manson Campbell Company is Held

laced on Record by the City Council-The Hope Expressed That He Will Not Leave Cnatham.

At last night's meeting of the city council the following resolution, which is the outcome of the recent unpleasantness between the city and the Manson Campbell Company, re the switch across Prince street, and the company's decision to leave the city, was introduced by Ald. McKeough in these words:

"You are all no doubt aware that it is customary in this world to eulogize our public men after they are dead, but on some occasions the beneficial lives which some of our men have lived make it most appropriate that some mark of appreciation should be shown them by their fellow citizens during their lifetime. I have the honor to-night to father a resolution concerning a man, well known to you all, whose life has conferred such benefits upon this city that it would be both "You are all no doubt aware that it upon this city that it would be both unwise and inadvisable to let slip the opportunity of testifying to the regard in which he is held by all who have the good fortune both to know the man and also his works." He then

the man and also his works." He then read the following resolution:

Moved by Ald. McKeough and seconded by Ald. Stephens, that this council, regarding the different manufacturing institutions in our midst as the principal support and mainstay of our turing institutions in our midst as the principal support and mainstay of our city, has learned with regret that the management of one of its chief industries, employing a large number of men, has been entertaining offers of other towns and cities to move its plant and factory from Chatham.

Be it therefore resolved, that this council place on record its appreciation

Be it therefore resolved, that this council place on record its appreciation of the benefits bestowed upon our city by the Manson Campbell Fanning Mill Co., and by the capable president and manager, who, while building up a large and extensive business, whose foundation was laid by his esteemed and worthy father, found time to devote himself to the city's welfare in serving for a lengthy period as alderand worthy lattice, but the city's welfare in serving for a lengthy period as alderman and in occupying the mayor's chair during a term of two years; and that we express the hope that the city of Mr. (Campbell's boyhood and early manhood, which he has materially aided in beautifying and improving, will still remain his home for many years, and that it is the earmest wish of this council, representing the citizens of this city, that the factory, of which he is head, will no the removed, but that its basiness may be increased and that Chatham may still receive the bene-

its business may be increased and that Chatham may still receive the benefits and enjoy the distinction of possessing a manufacturing establishment, the products of which are sold and shipped to the four quarters of the globe."

When Ald. McKeough had finished reading the resolution, His Wortship the Mayer said: "I do not think that there will be a dissenting voice raised against that resolution."

When the motion was put every hand went up in its favor.
