UP THE CREEK.

Pansy Barfoot, city, is the guest of friends on the creek.

George Findlay, who went to Manitoba over a year ago, has returned. Mrs. MacKinnley, Tilbury, is visiting the old home on the creek.

R. and G. Goltart are remodelling the ancient residence on their newly acquired property.

Nate Houston and son have secured a Bidwell bean separator with up-to-date attachments.

Dan, Donovan delivered in the city, Thursday, 9,100 lbs. of hogs, receiving therefor \$546.

The auction sale at Peers', Friday, was stayed after a few animals were sold, as only sacrifice prices were obtained.

President Jennie Harrison, of the Ladies' Aid, is putting forth strenuous efforts to make the coming anniversary a record breaker in the annals of St. Paul's.

The Up-the-Creek Comedy Club is reorganizing. Some new talent and a managing director will be added.

The cellar of Jas. Johnston was robbed Saturday night of a quantity of provisions.

Mrs. Harry Martinson returned here Saturday. Her health has not materially improved.

The First Presbyterian football team will play the "Saints" here, one of the cup series, on Thanksgiving Day.

Two worldly Scots, father and son, drove into the city on Saturday. Of the team they were driving, each owned a horse. While in town they indulged somewhat freely and were feeling glorious. When returning home the son, who was driving, was going as a reckless gait. The father, not liking to see his horse so driven, gripped the son by the arm and thus addressed him: "Alban, ye can rin yer ain beast just sue fast as ye like, but mine manna walk."

Charles Western is laid up with an attack of lumbago.

Frank Collins, West Lorne, spent a few days here last week.

Herb, Holt, who burst a blood vessel last week, is recovering nicely.

BEWARE OF POISONOUS AND ADULTERATED PACKAGE DYES

DIAMOND DYES are used by all women who value Pure, Bright, Fast and Never-Fading colors.

The use of **DIAMOND DYES** assures perfect results in Home Coloring.

Refuse all other Package Dyes that are offered to you. Other dyes are but poor imitations.

CLOTHES THAT TALK

The clothes on a man speak more eloquently than words, and the impression they give is sometimes more lasting. Do your clothes speak well of you? If they're from here, they surely do, as our clothes win their way upon their merits.

If you haven't yet tested the valuable character and service of our clothes, DO SO SOON.

Your appearance and your pocket-book will both profit by it.

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus of poison has been eradicated from the system. At times you see alarming symptoms, but live in hope as serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, itching pains, itches of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands, etc. Don't trust to luck. Don't ruin your system with the old foggy treatment—mercury, potash and violent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin Disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 20 years, and no return of the disease. No experiment, no risk, not a "patch up," but a positive cure. The worst cases solidified.

W. H. PATTERSON

NO RAMES USED WITHOUT WRITTEN CONSENT. W. H. PATTERSON

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, etc., all failed.

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like novelty and especially of this kind, but I feel I owe this much to Dr. K. & K. for the great good they have done me. I had a serious blood disease gradually developed. Pimples and ulcers formed, running some broke out, hair almost fallen, itching pains in the bones and joints, despicable stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors, grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor advised me to consult Dr. Kennedy & Kergan. He said he had known of them for over 20 years, and that they made a specialty of these diseases and treated the worst cases by the new method. I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CURERS GUARANTEED OR NO PAY.

Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment.

DRS. KENNEDY & KERGAN

149 SHELBY STREET, DETROIT, MICH.

SHUN THE PILLOW.

the Flat if You Would Always Be Young in Form.

No longer does the girl of today have a pillow to rest her tired head on. She now studies the athletic side of the question, and athletics have determined that she shall lie perfectly flat with no pillow to support her tired head.

The exponents of the beauty class claim that the reason that our grandmothers were round shouldered was owing to the fact that they showed a decided preference for bolsters and pillows.

Consequently those showing an inclination to be straight, lithe of form and beautiful in figure have cast aside pillows as they would sweets that would cause them to develop fatty tissues.

The girl who is a student and burns the midnight oil may disclaim all knowledge of her sly by not having a pillow to rest on at night, lying perfectly flat, and thus counteracting the round shoulder. A curve of the neck is developed that is enviable, while a straight back causes one never to thus lose her usefulness—in fact, a veritable Ponce de Leon fountain has been discovered through this medium, many claim.

Pillows are unhealthy, the physical culture advocates claim, so "beware of signs of age." Leave out the pillow, and you will always be young in form.

LOOK TO THE CLOSETS.

See That They Are Properly Aired, Cleaned and Dusted.

All closets need airing, cleaning and dusting as much as or more than any other part of the house—more, because they are shut up from the sun, that great purifier and deodorizer. In small apartments the shelves in the closets will be generally found packed tight with cardboard boxes or newspaper bundles, for there is so little space for storage in a modern flat or house that every inch of space has to be utilized.

The closet should be opened and left to air every week for a few hours at least. All clothing should be removed from the hooks and hung out on the clothesline to air. The heat of the sun will take all creases out of cloth and velvet garments and save pressing. If there are superfluous articles of clothing on the shelves these should also be removed.

Every cranny and nook should then be washed with naphtha and the painted surface washed with ammonia and water. The floor should be scrubbed and the door left open until the time arrives to replace the contents. If this is done early on cleaning day it will not add much to the sum total of work to be accomplished, and all danger of moth and vermin and that disagreeable "musty" odor will be removed.

KITCHEN HELPS.

Casters on all heavy kitchen furniture will save strength and aid in keeping the kitchen clean.

Two pads the size and shape of kitchen holders and sewed to a piece of tape are useful for lifting hot dishes out of an oven.

If a little ammonia is used every few days on brass faucets and tubes they will be kept bright and shining and with much less trouble than if polished only occasionally.

A saucepan in which rice, oatmeal or anything sticky has been cooked may be very easily cleaned by putting in a cupful of ashes when you take it off the fire and then fill with water.

A satisfactory way of preventing fish from tainting a refrigerator or any of its contents is to wrap the fish closely in a cloth wrung out of cold water. This will also prevent it from becoming hard and dry.

The Vanishing Home.

People who know what a home is are not so many as middle aged men and women think; and they who never had one will hardly be expected to join in the lament at its gradual disappearance. That it is going out of fashion there is not a doubt. Every new pile of flats, every conversion of a dwelling to a boarding house, is a blow to the circumstance. The modern family shifts from one tenement to another, loses or damages its goods in the transit, is constantly making new acquaintances, but as constantly losing the old and is without quiet retirement and peace. The older people regret the change; the younger have no standards by which to measure it.—Brooklyn Eagle.

Using the Toothbrush.

Frequently as a woman takes a toothbrush into her hand she rarely uses it properly. It does very little good to rub a brush across the teeth. To cleanse it must be rubbed up and down so that the bristles go into the crevices, as they cannot when the motion is across. Hold the brush firmly and rub it up and down, going carefully from the back teeth, that are too often neglected, to the front and then back to the other side. After brushing rinse the mouth with a fragrant wash. This will not only be strengthening to the gums, but will impart a pleasant odor to the breath.

Alice Stanford Green.

Alice Stanford Green, widow of the historian John Richard Green, is herself eminent in the same line, as the honors accorded her in England attest. She is a member of the committee of the London Library and of the board of history of London university, a life governor of University college, one of the board of governors of the School of Irish Learning, Dublin, and one of the vice presidents of the African society. Mrs. Green is an Irishwoman, born at Kells, County Meath. She has published numerous historical works.

SUNLIGHT SOAP

is better than other Soaps but is best when used in the Sunlight way. Follow directions.

SUNLIGHT WAY OF WASHING

FIRST—Dip the article to be washed in a tub of lukewarm water, draw it out on a washboard and rub it with a light soap. Be particular not to soap all over. THEN dip it in a light roll, lay in the tub under the water, and go on the same way until all the pieces have the soap rubbed on, and are rolled up.

Then go away for thirty minutes to one hour and let the "Sunlight" Soap do its work. NEXT—After the article has been rolled up, dip it lightly out on a washboard, and do not use any more soap; don't scold or boil a piece, and don't wash through two sudsy. If the water gets too dirty, pour a little out and add fresh. If a streak is hard to wash, rub some "Sunlight" Soap on it, and then wash it out. LASTLY COMES THE RINSING, which is to be done in lukewarm water, taking special care to get all the dirty suds away, then wring out and hang up to dry.

For Whites and Finest Linens proceed as follows: Shake the articles free from dust. Cut the "Sunlight" Soap into shavings, pour into a gallon of boiling water and when it boils add a little more. When just lukewarm, work articles in the lather without rubbing. Squeeze out dirty water without wringing and rinse thoroughly in two changes of lukewarm water. Squeeze out water without twisting and hang in the open air.

The most delicate colors may be safely washed in the "Sunlight" way.

\$5,000 REWARD will be paid to any person who proves that Sunlight Soap contains any injurious chemicals or any form of adulteration.

5c. Buy it and follow directions. **5c.**

LEVER BROTHERS LIMITED, TORONTO

Totem Poles.

The figurines or miniature totem poles made by various Indian tribes are among the most curious of Indian relics. In reality the totem, or figurine, is to the Indian what our crest or symbol of ancestry is to us, and there are few Indians who do not have some tradition as to the origin of their families. The general belief is that the tribe is the miniature version of the intercourse of some god with some animal, bird or fish. While they recognize that the tribe is a mere aggregation of families, each one is supposed to descend from the totem or order of creation. The representation of this animal, bird or reptile becomes the coat of arms.

In the northern districts these totem poles are conspicuous symbols. Analysis of their parts reveals the interesting fact that the family genealogy is expressed in human figures, and the class totem is shown by animal resemblance. The thunder bird is conspicuous on many poles; the bear is also a favorite totem, and it is not alone used on totem posts, or woven on blankets. As all living animals that bear the name of the tribe are sacred, the name of the animal divinity is borne by the mother and transmitted to the children, and of so much importance, is the totem in Indian belief that it is frequently tattooed on the body.

Sometimes the skin of the animal, sacred to the tribe is carefully stuffed, bedecked with ornaments and in good weather fastened to the front of the totem. At the death of the head of the family, it is always fastened to a pole and planted at the head of his grave.

A Friend Told Me About Bu-Ju

THE GENTLE KIDNEY CURE

Hundreds of people, who have been cured of Kidney Trouble by Bu-Ju, were first induced to try this wonderful remedy by friends who had themselves been cured. The sales of Bu-Ju are daily increasing, because everyone who takes them is benefited—and these, in turn, tell others. So the good news is spreading.

Here is what a Picton man says about Bu-Ju:—

"I have used Bu-Ju with great benefit to myself, and cheerfully recommend to all who, I think, are suffering from Kidney Troubles and Rheumatism."

"I think Bu-Ju the best remedy made."

Yours sincerely, JAMES MILLS.

THE CLAFIN CHEMICAL CO., LIMITED, WINDSOR, ONT. NEW YORK

The Gap in the Levan Rock.

On the way from Land's End, the extreme western point of England, to the Logan rock, just in from the cliff, after you have passed Tol-Pedn and immediately before the road drops to Porth-gwarra, there is a little valley, a big grassy nook, with one cottage, a rectory and a church. This is the parish church of St. Levan, a fisherman saint, of whom there are many legends. His path is still seen by the track of green grass that leads out to the rocks named after him, where he fished the traditional "chack-cheel" chad. There is his stone, too, in the churchyard, one of those ominous stones which in Cornwall are thought to be the dial of time itself, chroniclers of the hour of the last judgment. The Levan stone is a rock of granite, split in two, with grass and ferns growing in the gap between the two halves. The end of the world will come, says the rhyme, when the gap is wide enough for a pack horse with panniers to pass through. "We do nothing to hasten it," the rector said to me reassuringly.—London Standard.

Land Was Out of Sight.

"Yes," said one of the travelling men who were telling stories in front of the hotel, "I was once out of sight of land on the Atlantic ocean twenty-one days."

"On the Pacific one time I didn't see land for twenty-nine days," said another. A little, baldheaded man tilted his chair against a post and knocked the ashes from his cigar.

"I started across the Kaw river near Lawrence in a skiff once when I was a kid," he said, "and was out of sight of land before I reached the other side."

"Aw, come off!" came from one of the crowd. "The Kaw isn't more than 800 yards wide anywhere along near Lawrence."

"I didn't say it was," said the little man quietly. "The skiff turned over, and I sank twice."

What He Did to "Hamlet."

A group of actors at the Players' club were once engaged in a discussion as to the ability and impartiality of certain professional critics of the drama, when Maurice Barrymore referred to a certain Denver journalist who was widely known for his dramatic criticisms. "Hayward," said Mr. Barrymore, "was certainly one of the ablest of them. He wrote most learnedly, with the keenest analysis of every phase of the actor's art, and, above all, with a little wit. I am just reminded of what was perhaps the briefest dramatic criticism ever penned. It will probably outlive everything else Hayward did. It ran about as follows:—

"George C. Miln, the preacher-actor, played 'Hamlet' at the Tabor Grand Opera House last night. He played it till 12 o'clock."

The Hen Bird's Duty.

In his section on "modifications" of types of birds and animals Sir John Lubbock tells us of a particular crow in New Zealand where the male and female differ widely as to the structure of their bills. The male bird has a bill, stout and strong, adapted to cutting and digging into a tree, but he is deficient in that horny pointed tongue which would permit him to pierce the grub and draw it out. The hen bird has, however, an elongated and straight bill, "and when the cock has dug down to the burrow the hen inserts her long bill and draws out the grub, which they divide between them, a very pretty illustration of the wife as a help-mate to the husband."

An Old Freedom Notice.

On April 26, 1860, a Maine newspaper contained the following notice: "Freedom Notice.—For a valuable consideration I have this day relinquished to my son, Hiram S. Maxim, his time during his minority. I shall claim none of his earnings or pay debts of his contracting after this date. Witness, D. D. Flynt, Abbot April 13, 1860." The lad who was given his liberty developed into Sir Hiram Maxim of London, England, the inventor of rapid fire guns and airships.

Shibboleth.

Shibboleth is a word frequently used in politics, though it may be doubted whether many politicians know the history of it. Curiously enough, this Hebrew word really means "an ear of corn" as well as a "river," but its significance for moderns arises from the fact that it was employed as a test to distinguish the Ephraimites from the Gileadites, the former being unable to pronounce the "sh" sound.

Chewing Gum For Nocturnal.

A celebrated physician has claimed in one of his lectures that the "best remedy" for nose bleed is a vigorous motion of the jaws as in the act of chewing. In the case of a child he recommends giving a wad of paper to chew, as the rapid working of the jaws stops the flow of blood. But why not try chewing gum instead of paper?

Contrary.

Little Clarence (a youthful Solomon) "Papa, nobody can never tell what a woman will do next, can they? Further—No, my son; and if you could tell I would not be advisable for you to do so, for if you did she would be sure to do something else."

A Matter of Taste.

"What," says an inquisitive young lady, "is the most popular color for a bride?"

We may be a little particular in these matters, but we should prefer a white one.

Early and provident fear is the mother of safety.—Burke.

Good tea must be grown under proper conditions

LOW, damp or swampy lands in a warm, humid climate produce tea of rank, rapid growth, coarse in texture, woody fibred, rudely flavored—makes a cup heavy, murky in color, rough-tasting—it is poor tea.

But the Indian and Ceylon teas used to make the Red Rose brand are grown on the high lands of India and the mountain sides of Ceylon.

These teas are grown in clear dry sunshine, they mature slowly, the leaves of the Ceylon teas are tender, delicate, finely flavored, but not strong.

The Indian teas thus grown are full bodied, richly flavored, smooth in texture, strong.

Such Indian and Ceylon teas combined in Red Rose Tea produce a cup of a rich rosy brown, strong and smooth—all the richness and strength of Indian, all the delicacy and fragrance of Ceylon teas—that "rich, fruity flavor" which belongs alone to Red Tea—more qualities of tea excellence than any Indian or brand of Ceylon alone can possess.

Red Rose Tea

is good Tea

District Doings

MIDDLE ROAD.

Wheat is looking fine.

Wm. Scaman was judge at Wheatley Fair.

Henry Dagneau was the guest of Walter Bennett last Sunday.

Willie Bump spent Sunday with Mr. Graham.

Joe Bennett carried off a number of prizes at Blenheim Fair. He says lambs are scarce.

WHY DO WOMEN SUFFER?

Such pain and endure the torture of nervous headache when 25c. buys a sure cure like Nerviline. A few drops in sweetened water brings unfailing relief. You feel better at once, you're braced up, invigorated, headache goes away after one dose. The occasional use of Nerviline prevents indigestion and stomach disorders; keeps up health and strength. Every woman needs Nerviline and should use it, too. In 25c. bottles everywhere.

DANTE.

Mrs. London returned home from Hamilton, where she has been visiting friends.

A number from here attended the Moravian Indian Fair on Thursday and Friday.

Mr. Geo. Randle and wife visited her father, Mr. Logan, on Sunday.

Staff Captain Perry of the Salvation Army has gone to take up her work. She is now stationed at Belleville.

Mr. David Babensee has sold his farm to his brother John. David does not intend to be a farmer.

JEANNETTE'S CREEK.

Miss Shaw, of Caledonia, spent Tuesday with relatives here and left on Wednesday on her way for Winnipeg.

Miss Lulu Hamilton, daughter of Mr. and Mrs. James Hamilton, died Tuesday morning after a lingering illness of many months. The funeral took place on Thursday at two p. m. The Rev. Mr. Nichols, of Tilbury, officiated. There were many beautiful floral offerings.

F. B. Stevens shipped another carload of onions.

Miss Lizzie Forbes spent from Saturday until Monday with relatives in Chatham.

Mr. and Mrs. A. Stewart returned to their home in Detroit on Monday.

The Pandora Reservoir

The Pandora is the only range with a reservoir stamped in one single piece of steel and enamelled. It is the only reservoir without seams, rivets or places to catch dirt. It has no sharp angles. All angles are made with rounding curves, and the whole reservoir is beautifully enamelled.

McClary's are the only range makers in Canada with a plant for making enamelled steel reservoirs, and that is why the Pandora is the only range that has a one-piece reservoir.

McClary's Pandora Range
