JEWELRY

No Chance for a Romance A young woman living in the neigh-orhool of Thirty-third and Cumberland

borhool of Thirty-third and Cumberland streets the other morning bought at a nearby grocery a dozen eggs. On one among them there was scratched the name, with address, of a young farmer up the State. He had also written on the egg a request that the person buying it write to him.

The young woman wrote a letter to the tiller of the soil and received an answer in which the farmer declared himself pleased at having heard from her, etc. He wound his letter up with: "I hope you did not cat the egg, as I wrote that on it a year ago."—From the Philadelphia Record.

The kettledrum, however, has been so far improved that it has a pitch; in fact, it contains the large range of four notes. It is, as its name hows, a copper kettle, or basin, covered over with skin, which can be tightened or loosened by screws placed around the edge. Drums of this shape were used by the Roman, and even earlier by the Greeks and Etruscans. But they were not known in western Europe before the crusades. Although it may appear so, the kettle drum is not at all an easy instrument to manage. For, in order to get each of the four notes the player has to turn all the screws, and adjust the parchment anew. For this reason kettle drums are often used in pairs, one tuned to the key note, the other to the fourth below. In this way the drummer has always the two chief notes in the scale to work upon, and, if the composer has not exacted much from him, he will have caite an easy

time. But when a change of key is approaching it is quite excuing to watch the drummer screwing and unscrewing the drum and lightly tapping to hear if the pitch is true. And if we recollect that he often has to tune his drum while the whole orchestratis lifting up its voice, we realize that he must be no mean musician; that he must possess an exquisitely sensitive and well-trained ear, and a steady hand and nerve as well.—From the March St. Nicholas article "From the Drum of the Savage to the Great Orchestra," by Jessie Katherine MacDonald.
