

FUSIONISTS IN NEW YORK

Will Have the Spending of the People's Taxes. Figures Show How the Vote Went In City and State.

San Francisco Vote For Labor and Wide Open Town.

New York, Nov. 3.—The forces of fusion will be in practical control of New York City's government after Jan. 1 next, although Tammany Hall's candidate for Mayor, Wm. J. Gaynor, was elected yesterday by approximately 72,000 plurality.

With the exception of Mayor, the fusion sweep was complete. Not another Tammany candidate on city or county tickets won. The success of the fusion forces in electing their candidates for comptroller and president of the board of aldermen, together with the victories of the fusion and anti-Tammany candidates for the presidency of all five boroughs, will give the opposition to Tammany thirteen out of sixteen votes in the important board of estimate. This board will have in its hands during its term of office the expenditure of practically \$1,000,000.

On the county ticket the fusionists elected their candidates for district attorney, sheriff, county clerk, registrar and city court judge, which, with their other victories, will place nearly every bit of patronage in the greater city in their hands.

With a few scattered election districts missing, the vote for Gaynor, Democratic-Tammany candidate for Mayor, stands at 246,755. Second in the race was Otto T. Bannard, the Republican-fusion nominee, with 175,062 votes. Wm. R. Hearst, candidate of the civic alliance, was last, with 150,560 votes.

Below Mayor the fusionist candidates on the city ticket won by substantial pluralities, that of W. A. Pronger, for comptroller, being approximately 67,000, and that of John Purry Mitchell, for president of the board of aldermen, 54,000.

The borough presidencies all went to the fusion or anti-Tammany candidates. The strength of the fusionist cause in New York county was indicated by the plurality of 22,000 votes which Chas. S. Whitman, the fusion nominee for district attorney, received over George Gordon Battle, the Tammany candidate.

Even more significant was the victory of John S. Shea, fusionist for sheriff, an office with great emoluments, over Christopher D. Sullivan, Tammany, by a plurality approximating 27,000. The fusion triumph in New York county extended to its candidates for Supreme Court Judgeships, all three of its nominees for those offices being successful.

Tammany elected 22 of its candidates for the Board of Aldermen in New York county, as against 32 elected by its two years ago. It will have 42 votes in the new Board for the greater city and the Fusionists 36.

Latest returns indicate that the New York State Assembly of 1910 will contain 94 Republicans and 56 Democrats, a Republican majority of 38. The present Assembly has a Republican majority of 48.

HEARST PLEASED

Wm. R. Hearst declares himself satisfied with the result of the election yesterday, inasmuch as an anti-Tammany Board of Estimates was elected. He said: "If an anti-Tammany Board of Estimates has been elected I consider myself well rewarded. I went into the campaign to do exactly that, as I stated in my letter of acceptance."

"I hope that Judge Gaynor will make a satisfactory Mayor, and I am sure of one thing at least, that he will make a better Mayor surrounded by an honest and independent Board of Estimates than he could have made surrounded by a Tammany gang, from which we have the good fortune to be delivered."

"I congratulate the city on the election of my associates on the city ticket, and a majority on the Board of Estimates." (Continued on Page 3.)

HAPPY EVENT.

Connor-Bower Marriage Took Place This Afternoon.

A quiet, but one of the prettiest matrimonial events of the autumn season was solemnized this afternoon at 5 o'clock at the home of the bride's parents, 196 Emerald street north, when Jessie L. third daughter of Mr. and Mrs. Eric Bower, was married to Mr. William Connor, of the firm of Connor Bros., the well-known Barton street jewellers. The nuptial knot was tied by the Rev. J. A. Wilson, B. A., of St. Andrew's Church, in the presence of a large number of immediate relatives of the contracting parties.

Leaning on the arm of her father and becomingly attired in a dress of cream duchess satin, with Irish lace trimmings, and carrying a bouquet of roses, the bride entered the drawing room to the strains of Mendelssohn's March. The bride and groom were unattended. The room, tastefully decorated with palms and other flowers, presented an artistic appearance.

After the wedding the guests sat down to a supper provided by Caterer Knappman. Many congratulations were bestowed upon the happy young couple. The young couple, who have a host of friends, especially in the St. Andrew's Sunday school, where they hold prominent positions, were the recipients of many beautiful and costly presents, indicating the high esteem in which they are held.

Followed by the best wishes for their future prosperity, the happy couple will leave at 7:30 for western points. The travelling gown of the bride was topped with beaver hat to match.

After their return they will reside at 163 Sanford avenue north.

WAS A HARD FIGHT OVER ANNEXATION.

Board, However, Practically Confirms City's Terms In Full—Litigation Possible.

There is a general air of satisfaction around the City Hall this morning over the outcome of the annexation proceedings yesterday in Toronto. The Railway and Municipal Board backed the city up in almost all its contentions, and the terms, which are embodied in the annexation order, include about everything that Hamilton asked for. The aldermen and city officials are pleased to see the matter disposed of, as the city has been battling with Barton

township over water supply and sewer connections ever since the proclamation of 1903. The taking in of the new territory practically eliminates the possibility of trouble now, so that while the board yesterday decided it had no power to alter the former annexation agreement, by which the city was bound to give water supply within a reasonable distance of the mains, this point is not considered important. The city wanted a clause inserted that water should be supplied township people only within 750 feet of the main north and south of (Continued on Page 10.)

CAME FROM NORTHWEST.

Interesting Figure on the City Streets To-day.

Corporal Slater Came to Take Veale to Regina

And Proves Interesting In His Talk About West.

Frederick J. Veale, alleged forger, etc., goes back to Regina to-morrow morning in charge of Corporal Slater, of the N. W. M. P., who arrived in the city last night. The officer said there are three charges to be preferred against Veale in the west for obtaining money from farmers by false pretence. He will be taken first to Regina, and if committed for trial he will be taken to Moose Jaw to the assize court.

The appearance of a N. W. M. policeman on the streets here is a very unusual sight, and Corporal Slater is the centre of attraction wherever he goes. He is a fine specimen of a man, about six feet tall, and built in proportion, of pleasing personality, and an auburn moustache that would make any ordinary man envious. To-day the man from the west is seeing the sights here, and is loud in his praises of Hamilton. Yesterday he was in Toronto, and thinks Hamilton has that city eclipsed 15 ways.

This morning Corporal Slater was the guest of Mr. Sam Garrity, the famous engineer. Sam took the officer on the vertical elevator to the top of the City Hall, and then up to the tower, where he had a fine view of the city. He was introduced to the Mayor and all the chief city officials, and to-night will be a guest at the armories.

Corporal Slater has had considerable experience. He has three years in South Africa and served all through the war. He joined the N. W. M. P. five years ago, and likes it well. He is an Englishman, a native of old Canterbury, Kent, and was formerly an accountant in London, Eng.

He is staying at the Royal Hotel, where his big broncho, red tunic, riding boots and spurs make him the cynosure of all eyes. When spoken to about conditions in the west, the officer says there never was such a time of prosperity as now. Money is plentiful and the harvest has been a bountiful one. He advises young men with ginger in them to go there. He says the exporting of cattle from the ranches will exceed that of former years. He considers the west the great bonanza for energetic young men.

TRAGEDY OF THE PRAIRIES.

Father, Mother and Two Children Murdered—Tracing Suspect.

(Special Wire to the Times.) Wynyard, Sask., Nov. 2.—Constable Jarvis left last night in search of a Hungarian, who, it is alleged, shot George Thoburn, aged 35, in the vicinity of Clair, north of Little Quill Lake. It is believed that Mrs. Thoburn, her mother and a child of the former, aged 2 years, were all murdered, if they cannot be found. Another boy, 5 years old, was badly clubbed, but when the neighbors visited the house on Tuesday he was able to tell who had committed the deed.

Last night a man suspected of the crime stayed at Einarson's farm, eight miles north of the town, and was said to have lived at Josephson's farm house, two miles east. The suspect is driving a heavy team, which belonged to Thoburn. He is heading for Regina, claiming that his parents reside nineteen miles from there. He was a farm laborer for Thoburn. The little boy states that the hired man threw his father in the cellar. The boy was covered with blood from gashes on his face when found.

Hundreds of settlers, well armed, are scouring the country, but can find no trace of the woman or the farm laborer. Thoburn, the murdered man, came from Sarnia, Ont. The bodies of the two women were found in the well to-day. Nesie, the name of the Hungarian, is 22 years old. He has not been captured yet.

Nice and Sweet. We are displaying in our east window a quantity of first prize comb and extracted honey. See it. None better ever offered. Special price by the dozen. We have the extract in sixty-pound cans; also in one, two and five-pound glass jars. Those Long Point ducks arrived yesterday and are selling fast; so are squabs.—Bain & Adams.

GREER ON THE CASE

Description of Gebhardt Talies With the Barton Murderer.

(Special Wire to the Times.) Toronto, Nov. 3.—Inspector Wm. Greer, who has been working for some time on the story that the man, Otto Mueller or Gebhardt, under arrest for murder in New York, might have been the perpetrator of the Barton murder near Hamilton, would not say anything definite as to his investigation to-day. "In two or three days I expect to be able to say definitely whether there is anything in the story or not," Inspector Greer said this morning. "By that time I will have received information from New York which should pretty well settle the question. I must say that the descriptions of the man tally very closely, however, and there may be something to talk about the story in a few days."

With their new buildings completed, the Y.W.C.A. and Y.M.C.A. will be in proper shape to carry forward their splendid work for the young people. This is for the benefit of the city as a whole and all the people should have a part in it.

During the closing days of the campaign the voluntary contributions of those who have not been called upon will be greatly appreciated. Any sum, large or small, will be thankfully received. Pledges are payable in four equal instalments six months apart, beginning January 1, 1910. Telephone 15,000 for headquarters.

The full amounts required must be secured sooner or later and the advisability of finishing the work during the present campaign will be recognized by all.

With their new buildings completed, the Y.W.C.A. and Y.M.C.A. will be in proper shape to carry forward their splendid work for the young people. This is for the benefit of the city as a whole and all the people should have a part in it.

STRUCK OUT.

Action Among Lincoln County People Over Lands.

In the action of Ethel Gibson and Johann Van Dyke against their uncle, Arthur F. VanDyke, for the reconveyance to them of certain lands in Lincoln county, a motion was made by P. D. Crerar, acting for one of the plaintiffs, Johann Van Dyke, to have the name of the other plaintiff struck out on the grounds that she did not institute the suit, and therefore was not a party to it. Judge Snider made the order, costs to be paid by Ethel Gibson. The defendant contended that no statement of claim had been served since the notice of action. The statement of claim should have been served six months ago. An order was made for the trial to go on at the St. Catharines assizes in December. Ethel Gibson, one of the plaintiffs, was notified to be ready to proceed with the case then.

A rather complicated case is that of the Rural Publishing Company of Peterborough against the White Class Advertising Company of Chicago, for money due on advertising. Mr. O. D. Pete, of this city, is acting for the plaintiff. The defendants have property in this country, and Mr. Pete is seeking to get the amount of the account. This morning he applied to Judge Snider for an order for jurisdiction, and it was granted.

YUKON MAIL.

How Matter May be Forwarded From White Horse.

All mail matter intended for Dawson and other points beyond White Horse, but which is excluded from transmission in the mails beyond that point, may be sent to destination from White Horse, if the following directions are complied with:

1. Parcels, books or other excluded matter intended for points north of White Horse must be addressed to White Horse and not to Dawson or other points beyond White Horse and must be prepaid the usual postal charges.

2. The article must bear a notice on the cover, "Please forward by express (or freight) to (naming the desired destination)." The postmaster at White Horse will hand the article over to the express or freight company at White Horse, but the post office department will not accept any responsibility for packets after they have been transferred in this way to the express or freight company.

Craven Mixture Cigarettes. The tobacco contained in these cigarettes is manufactured by Carreras, in London, England, and guaranteed the finest quality. They are sold for 15 cents a box at peace's cigar store, 107 King street east.

SAFETY DEPOSIT BOXES

To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables. TRADERS BANK OF CANADA.

EVERYBODY MUST HELP.

That Is the Watchword In the Y. W. C. A. Campaign.

A Strenuous Two-day Campaign Will Close To-morrow Night.

The Committee Now Has In Hand Over \$11,000.

"Everybody help" is the watchword for the final effort this week to complete the Y.W.C.A. and Y.M.C.A. building funds. To-day and Thursday the ten teams will do strenuous work. About one hundred business and professional men, including several leading citizens, are devoting almost their entire time to it, and the co-operation of the whole community is earnestly desired.

To-day at 12:30, after luncheon at headquarters, the various committees reported progress, the totals so far being as follows:

Table with columns: Y.W.C.A., Y.M.C.A., Special committee, F. R. Smith, R. T. Kelley, J. H. Horning, W. H. Wardrop, Geo. H. Lees, D. M. Barton, W. F. Brennan, N. E. Adams, Frank McIlroy, B. O. Hooper. Totals: \$9,575, \$1,526.

Luncheon will be served at headquarters for the last time on Thursday at 10 o'clock Thursday night.

During the closing days of the campaign the voluntary contributions of those who have not been called upon will be greatly appreciated. Any sum, large or small, will be thankfully received. Pledges are payable in four equal instalments six months apart, beginning January 1, 1910. Telephone 15,000 for headquarters.

The full amounts required must be secured sooner or later and the advisability of finishing the work during the present campaign will be recognized by all.

With their new buildings completed, the Y.W.C.A. and Y.M.C.A. will be in proper shape to carry forward their splendid work for the young people. This is for the benefit of the city as a whole and all the people should have a part in it.

THE MAN IN OVERALLS

Protect the city. Don't be niggardly with the Y. W. C. A. It won't bother you again for a long while.

I see that my friend, Mr. J. J. Scott, is again working hard on behalf of the city.

Who objects to the city making the best bargain it can with the Hydro-Electric Commission?

We all believe with the Presbytery that betting and gambling are evils that should be overthrown.

Ex-Mayor Stewart hasn't got his Majority cards out yet.

I rather like those church banquets. They help to make the members feel rather more chummy, and take the chill off.

In spite of all you may say, we shall have to reckon with that Cabaret suit. Carrying it to the foot of the throne means money.

No doubt the people want the aldermen to make the best bargain for them they know how. They are, not fools.

Had Ex-Mayor Biggar and Ex-Ald. Gilbert not rushed down to Toronto and threatened trouble in connection with the York Loan, I have very good authority for saying that nobody would have lost a cent, and Joseph Phillips would not now be in the penitentiary. The Dominion Loan Company was prepared to take over the business and pay every investor every cent they had invested, but it didn't relish going to court, and backed out of the agreement.

What is to become of Mrs. Kibble and her six little children the next eighteen months that her husband is in jail? Society ought to be able to answer that, but it can't. In cases like this, we act as if we were a lot of black handers or worse.

The Hamilton Herald in its attacks upon the Mayor and Ald. Pergine, shows what kind of a journalistic tough it is.

Liberty is sweet even to a dog. Watch how he wags his tail when he gets off the string.

Why object to the Mayor trying to make the best bargain for the city?

Bedford goes to the funny house. So here ends the second chapter of the Kinrade tragedy.

Then, again, people say the Herald is more to be pitied than blamed. But that's no excuse for its impertinence.

PRESIDENT WILCOX STATES THE FACTS.

Canadian Pacific Railway Has Nothing to Do With Iron and Steel Deal.

Mr. Wilcox, President of the Hamilton Steel & Iron Company, has shanded out a statement to-day with regard to the rumors which have been going around in reference to this company.

The facts of the matter are that a number of estates which held considerable blocks of the company's stock have disposed of them and this stock has been purchased by Toronto and Montreal capitalists. Hamiltonians still hold the majority of the stock.

The Board of Directors will be increased in number and the new seats will be taken by Messrs. E. B. Osler and W. D. Matthews, of Toronto.

The company is now engaged in making considerable extensions to its plant, and the question of still further enlargements will immediately receive the consideration of the directors, and the probability is that these enlargements will be proceeded with at an early date.

The rumor that the Canadian Pacific Railway Company has obtained control of the company or is trying to obtain control is absolutely incorrect.

Mr. Wilcox will continue to be president of the company, and Mr. Robert Hobson will remain as general manager.

Beach property owners are by no means a happy lot. Tax notices have just been sent out and the rates are so high that one old resident who holds a job which pays him only about \$500 a year, remarked, "We might just as well be living in New York." Modern conveniences cost money, and the sidewalks and water system must be paid for in addition to other rates.

Then there is the school question. The children are still barred from the Van Wagner School and the Commissioners have made no provision for other accommodation on the Beach. The parents had hoped that their children would have to pay only the ordinary ten cents a month in city schools, but on Monday and yesterday they were told that they must pay \$1.00. Some of them had to go home without taking their places in their classes.

Nor do the Beach people know where they stand in regard to transportation. In September the Commissioners issued rate tickets on the Radial to the children. In October the youngsters had to pay themselves, a matter of \$1.85. This month the Commission has issued tickets again.

The whole Beach business has been muddled ever since the Government undertook to take over the sandstrip.

London, Nov. 2.—Bedford, who confessed to murdering Ethel Kinrade at Hamilton, was to-day remanded for eight days at the Bow Street Police Court.

Bedford, interviewed by the Canadian Press, said he did not remember ever having made any confession to having murdered Miss Kinrade. He had only read an account of the murder in Canadian newspapers.

Bedford to-day told his sister that he did not remember his being in her house on the evening of October, before he gave himself up at Scotland Yard.

Bedford's sister told the Canadian Press that she thought her brother had a strange look in the eyes and that he was insane.

To-day Bedford recognized his sister, whereas last week he denied knowing her.

IT JUMPED.

H., G. & B. Car Did a Funny Stunt at Noon.

As a result of an H., G. & B. car running off the track on Main street east about noon to-day, a large telegraph pole was broken and a fence knocked down but, outside of that, no damage was done and the passengers escaped uninjured. The car had a good number of passengers, some of whom were from Grimsby. It had almost reached Sanford avenue when a stone on the track caused it to jump and the front trucks at once turned toward the south. The car jumped the curbing, struck the telegraph pole, broke it, went through the fence, narrowly missed a house and finally stopped. The trucks were pointing toward the east and the car itself towards the south. After leaving the tracks the front trucks gradually turned so that the car cleared everything within the radius of its own length. Notwithstanding the numerous bumps the car did not appear to be badly damaged. The ladies who were in the car screamed as soon as the car received its first bump after leaving the track. A crowd quickly gathered. The trouble gang was sent down to put the car on the track. The pole which was broken is hanging suspended with only the wires to hold it up.

THE HUGGER AGAIN.

While walking down Arkelidon avenue last night about 10:45 a young lady was accosted by a man, who tried to do the hugging trick. A young man on the street at the time heard the young lady's scream and gallantly went to her assistance, but before he reached her the would-be hugger had escaped in the darkness.

To Let. Warehouse, 15 Hughson street south. Also to let warehouse in rear, four stories and basement, elevator, vaults for \$25 per month. Apply Mercantile Trust Co.

AFRAID OF FOREIGNERS.

Youth Feared Being Carved Up Over Hallowe'en Affair.

Ran to Policeman For Protection: Fined in Court.

Other Unimportant Cases Before Magistrate To-day.

Raymond Gilland, 390 Hughson street north, broke John Bartha's window, according to Magistrate Jelfs' decision in Police Court this morning, when the youth was arraigned for wilful damage. He paid \$5 for his Hallowe'en mischief. "Don't let them hurt me; don't let them hurt me. A crowd of foreigners are after me and will kill me!" Those were the words of the excited youth to P. C. John Clark, on Monday night, as the officer was walking his beat on Bay street north. Then the youth told the officer how an army of foreigners were chasing him, armed with knives and other weapons that could do much bodily harm. Gilland kept close to the officer, and when the foreigners came up, they were quite peaceful and carried no arms, but made a complaint about defendant hurling a specimen of geology through their window.

John Bartha was the chief speaker, and at his request the youth was summoned.

This morning he told how he, in company with other fellow countrymen, were enjoying the evening quietude in their home, corner of Bay and Strachan streets, when a stone came through the window. Rushing out, they saw a gang of lads, and Gilland they recognized in particular.

Mrs. Cronski and Carl Sprinza told of the incident, as they were in the house at the time. Carl said he was writing a letter. The stone fell with a rude crash on the table, upset the ink, and obliterated the letter.

Gilland swore stoutly he did not throw the stone. There were other lads around. "Why did you run?" asked the bench. "I did not want to get a knife-stuck in me."

Another youth gave evidence on Gilland's behalf, and he was an also ran on the night in question.

P. C. John Clark said the foreigners in that district are very peaceful and law abiding.

John Bartha knows well the requirements of the law, for he was at one time on the Car of Russia's bodyguard. He has a moustache of extraordinary length, which he claims, was the envy of his fellow officers in St. Petersburg. He told the reporters many stories of the autocratic Czar.

When Thomas Williams, a youth of tender years, bobbed up from behind the fence, he looked like a young Faderewski, for the locks on his knowledge box were as long as a winter's night. Thomas was there for being disorderly yesterday. He came from the rural district of Ancaster and just prior to the time for his return to the rural burg, espied a friend from the same hamlet. An officer found the pair wrestling on King street east, and intervened. The youth was penitent and was allowed to go.

Jacob Burgess, looked in the glass often yesterday, not the looking glass, but one of those in which fermented potions are served. P. C. Gillespie gathered him in as he was trying to work destruction all along the path he staggered. "Pay \$3," said the bench.

OLIVE TUCK.

Local Police Know Nothing About the Alleged Elopement.

One of the Toronto papers announced this morning that a case of family desertion and elopement came to light yesterday, when it was discovered that Charles Murray, of Vaughan road, Wexwood, had left his wife and two children, and eloped with Olive Tuck, a seventeen-year-old Hamilton girl. Mrs. Murray had been isolated with her eighteen-month-old baby, who has had a severe attack of scarlet fever. Saturday morning she found that her husband and Olive Tuck, who had been in the house, had left. Murray had drawn all his bank account, and left his wife and children with only fifty-one cents.

The congregation of the Presbyterian Church has undertaken to look after the bereaved ones. Mr. Tuck has sworn out a warrant for the arrest of Murray on a charge of abducting his daughter.

Chief Smith stated this morning that although enquiries had been made of him about Olive Tuck, he knew nothing of the case, or of any of the parties mentioned.

FELL DEAD.

Man Who Dies Suddenly In St. Kitts Has Relatives Here.

(Special Wire to the Times.) St. Catharines, Nov. 3.—George Campbell, who has worked on the corporation here for thirty years, dropped dead at Disher's boarding house on Somerset street last night, of heart failure. He had worked all day on St. Paul street, and when he arrived at his boarding house in the evening showed no signs of illness. He was known here as "William Brown," and is said to have well-to-do relatives in Hamilton.

THE LAYMEN

Will Intrude Innovation to the Methodist Churches.

The Methodist section of the Laymen's Missionary Association of this city will introduce an innovation to-night. A deputation from the section will visit First Methodist Church and conduct the mid-week service. Short addresses will be given by representatives from two or three other churches. Mr. Smeeta Jones, chairman of the section, will preside. The deputation will also meet the Missionary Committee of the church, the object being to impress upon it the advisability of every member of the congregation being called upon personally and asked to become a contributor, by the weekly envelope system, to the missionary funds.

NEW CITIZENS WANT THINGS.

Deputations From Annex Already Waiting on City Engineer.

Litigation Possible Over Cement Walks In the Suburb.

Open Charge of Graft In Connection With School Contracts.

It did not take Hamilton's new citizens long to get busy about improvements in the annexed district. The Railway and Municipal Board settled the terms yesterday afternoon, and this morning several of the property owners swooped down on the City Hall to enquire about sewers, water mains and other matters in which they are interested. One of the first arrivals was William Strong, who wants permission to lay out three new streets in his survey, known as "Bloomsdale." Mr. Strong says the lots he is willing to give the city for roadways are worth \$2,000. There is a string attached to his offer. He wants the city to build cement walks free of cost, and left plans with the Engineer.

City Engineer Macallum went down to the new district to-day to inspect the sidewalks which caused such a fuss at the annexation proceedings before the Municipal Board yesterday. The city has reserved the right to bring action against the contractors if the walks are not found to be up to the specifications in every respect. The Engineer's department will at once begin laying out a sewerage and waterworks plan for the new district.

As a result of the west end of the reversion wall being left unfinished the washing of the water is weakening the underpinning of the city dock, and it is said there is danger of the structure collapsing if something is not done to protect it from the waves. The Harbor Committee will discuss the matter this afternoon, and also ask for an appropriation to engage another team to haul bags for filling in purposes behind the reversion wall.

There is a lull in the power situation to-day, although another storm is looked for when the matter comes up again in the Council on Monday night next. The Hydro-agitators will exert all their forces in one final attempt to force the city into accepting the Commission's ultimatum. Mayor McLaren had no comment to make to-day about the attacks made on him by the Herald. Referring to the heading that the mask was off at last, His Worship jokingly remarked, "Well, Hallowe'en is over."

A special despatch to-day from London says: In an interview this morning Hon. Adam Beck stated that the agreement submitted by the Hydro-Electric Commission to Hamilton will not be changed in any way unless different arguments from those already presented are adduced.

It will be noticed that Mr. Beck intimates the contract might be changed if different arguments are adduced. The aldermen who are battling for Hamilton's rights are convinced that about the stiffest argument they can give the commission in view of its actions is to call its bluff, as was done by the council on Monday night.

The Building Committee of the Board of Education yesterday afternoon awarded contracts as follows for the new addition to the Victoria avenue school: Brick and masonry work, W. H. Yates, jun., \$19,875; carpentering work, R. Press & Sons, \$6,863; steel work, Hamilton Bridge Company, \$2,645; plumbing and heating, Adam Clark & Park, \$8,520; roofing and blackboards, (Continued on Page 10.)
