

**Hark,  
the Herald  
Angels Sing.**

**Christmas.**

MENDELSSOHN Eight 7's, with Refrain. MENDELSSOHN.

1. Hark! the her-ald an-gels sing - Glo-ry to the  
new-born King; Peace on earth, and mer-cy mild,  
God and sin-ners re-con-ciled! 2. Joy-ful, all ye  
na-tions, rise, Join the tri-umph of the skies;  
With th'an-gel-ic host pro-claim, Christ is born in Beth-le-hem!

REFRAIN, after each Stanza.

Hark! the her-ald an-gels sing Glo-ry to the new-born King. A-men.

3. Christ, by highest heaven adored; Christ, the everlasting Lord, Late in time behold Him come, Offspring of the Virgin's womb.	4. Veiled in flesh the Godhead see; Hail the Incarnate Deity, Pleased as Man with man to dwell Jesus, our Emmanuel!
5. Mild He lays His glory by, Born that man no more may die, Born to raise the sons of earth, Born to give them second birth.	6. Risen with healing in His wings, Light and life to all He brings, Hail, the Sun of Righteousness! Hail, the heaven-born Prince of Peace! Amen.

G. WESLEY.

**BEST WAY TO PUT UP  
A CHRISTMAS TREE**

The best and easiest way to put up a Christmas tree has never been patented or published—in fact, it is so simple that it could not be patented. Having felled one Christmas tree to provide a suitable foot or base for the family tree, necessity compelled me to invent one, because the two

younger members of the family would not hear of Christmas without a tree. So I sawed the butt of the tree square, then trimmed off a few of the lowest branches and set the tree in a good sized stone jar. The jar was then filled with stones, pebbles, pieces of brick and coal. All this material was packed down firmly and the position of the tree so adjusted that it stood perfectly straight. When the tree was in position little Gretel had a happy thought. "Let us give the tree some water," she said, "just as if it were a big flower." And we filled the jar with water.

Then we covered the stones with bits of silver tinsel and artificial snow, and now our tree looked as if it was actually growing in a big jar. From time to time, as the water was drawn up by the tree, we refilled the jar, and the result was that we kept our tree green and fresh for a month. Since that year our Christmas tree is always put up in that way, and we can keep it as long as we wish. A tin pail, a tub or any deep vessel can be used to take the place of the stone jar, and pieces of coal or coke can be used instead of stones to hold the tree in place.

**WHOLE FAMILY  
USES THEM**

"Fruit-a-tives" Keeps Young And Old  
In Splendid Health

J. W. HAMMOND, Esq., SCOTLAND, ONT., Aug. 25th, 1913. "Fruit-a-tives" are the only pill manufactured, to my way of thinking. They work completely, no griping whatever, and one is plenty for any ordinary person at a dose. My wife was a martyr to Constipation. We tried everything on the calendar without satisfaction, and spent large sums of money until we happened on "Fruit-a-tives". I cannot say too much in their favor. We have used them in the family for about two years and we would not use anything else as long as we can get "Fruit-a-tives". Their action is mild, and no distress at all. I have recommended them to many other people, and our whole family uses them. J. W. HAMMOND. Those who have been cured by "Fruit-a-tives" are proud and happy to tell a sick or ailing friend about these wonderful tablets made from fruit juices. 50c. a box, 6 for \$2.50, trial size 50c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

**FEEDING DAIRY CATTLE**

Suppose that a man required a certain amount of power from an engine, and that 40 lbs of steam were necessary to furnish that power, but that he supplied only enough coal to get 35 lb pressure. He could use tons and tons of coal if he shovelled in only enough to keep the pressure at 35 lb, and he would in the end have nothing but a heap of ashes and a boiler the worse for wear to show for his time and coal. What would be thought of such a man? Now substitute the word cows for boiler, and food for coal, and I see how it reads—it would be something like this. A man has a cow which needs 15 lbs of food per day to keep her alive, and for every pound above that she would give 3 lb of milk. If he gives her only 15 lb a day he could keep her all winter, and in the spring a heap of manure is all there is for his food and work; but if he should feed her 20 lb or more a day he would get enough milk to pay for the food and a profit besides. There are thousands of dairymen who are working upon the plan of the man with the engine. They give their cows only enough food to keep them alive, or if they do give them any more it is not enough to get the most out of them. Not more than one-tenth of the cows in this country produce as much as they are capable of doing, or give as much profit as they might, and it is only because of the lack of a little more feed. Four cows will eat what five usually get, and give as much milk as or more than the five did for this fourth extra of food. Here is a saving of one cow, and the work necessary to care for her. As a rule, dairymen would feed it more profitable to feed their cows 25 per cent. more, or to decrease the size of their herd 20 per cent., and feed the same amount of food to the balance.—F. T.

**WE KNOW  
REZSTOL**

Will Help You  
To Regain Your Strength and Energy

Report of the Hotel Physician in a Leading New York Hospital on the Cure of Brain Fatigue and Nervous Exhaustion

"A few years ago we considered that we were doing well if we cured 10 per cent. of the cases of Brain Fatigue and Nervous Prostration brought to us, but since the introduction of Rezstol into our hospital we cure more than 90 per cent. of all the cases in its various forms brought to us. It builds new tissues, gives new energy, new life, new blood and strength to any part of the body attacked by these diseases."

Rezstol is a powerful tonic nourishing food medicine, composed of valuable tonic stimulants obtained from vegetable drugs. Rezstol contains no narcotics or other dangerous drugs which merely deaden pain temporarily but give no permanent relief or cure the cause of disease.

Rezstol is a powerful body builder and blood maker; it is the best remedy known to the medical profession to enrich thin, watery blood and supply new rich blood to the whole body.

It will be found a most valuable remedy in cases of over stimulation in which the excessive use of liquor causes depression, dullness of the faculties or intoxication; it counteracts the depressing effects and restores the system to its normal condition. FREE—To prove the wonderful merits of REZSTOL we will mail a large sample bottle for 25c. in silver or stamps for postage, etc. Rezstol Chemical Co., Boston, Mass.

**CHURCH DIRECTORY  
—SUNDAY SERVICES**

is interested and should know about the MARVEL, accept no other, but send stamps for illustrated book—sealed. It gives full particulars and directions applicable to ladies. WINDSOR SUPPLY CO., Windsor, Ont. General Agents for Canada.

I wish to thank the public for their most generous patronage and to announce that our new term will begin Monday, Jan. 4.

S. KERR,  
Principal

Succ'ds W. H. Berry  
Mr. James A. Patterson or Apohaqui, Kings county, has been appointed superintendent of scales in succession to Mr. W. H. Berry. His activities will be confined to the North Shore.

"A Man who tries to run a business without Advertising might as well try to run a motor without gasoline. It may be a good business, but it won't go."

Why be content to remain in the same old rut, never making any effort to increase your business, and, worst of all, not offering any inducements to hold the few customers you have?

When you come to look over the matter, do you ever figure out what assurance you have that you will always cater to your present trade? How do you know but what your customers are passing your store and patronizing the man next door, who advertises? In all probability this is just what is going on, and there is only one way to stop this and that is to advertise. This you want to do in the

**Union Advocate**  
ESTABLISHED 1867

one of the oldest papers in the Maritime Provinces. You say you never did advertise, and you do not believe it pays. Don't you think you are giving your own opinion rather a high rating when you put it against that of the great majority of those who do advertise? Surely majority is a better judge.

Do not let your mind rest too strongly on the amount of money you would have to pay; rather think of the increased business which is sure to be yours. You say you do not want any increase, because you would have to increase your staff. Well, if ten new customers came to your store every week would you turn them away? And if that number increased until you had to enlarge your staff of clerks, would you not do so, or would you neglect them? You would certainly increase your staff, attend promptly to your new patrons, and keep your stock of goods on the move, so why not make up your mind to-day to take a space in this paper and keep your name constantly before the buying public.

As an advertising medium, The Advocate is firmly taking its place at the head. If you, Mr. Merchant, are not among the number who are using its columns, why not talk the matter over with our representative and select a good space while you have a chance. We are at your service any time you wish to consult us, and would only be too glad to quote you rates. A telephone call will bring our representative to your store in ten minutes.

**THE UNION ADVOCATE'S  
JOB PRINTING DEPT.**

The Advocate is not only taking the lead as an advertising medium, but its Job Department is decidedly in the lead.

Remember that this office is in better shape to handle your Printing than it has ever been before, due to the fact that only competent printers are employed and the most modern machinery used.

There is a difference between plain Job Printing and the kind of Printing that draws business. At one time any kind of a printed letter-head or envelope would do so long as the work was done by a printer. Good paper and high priced ink, the customer did not know enough about to be fussy. It is not so now. The customer to-day figures these items into his contract for printing the same as he does the quality of the goods he purchases to carry on his business.

This is the class of customers who have their printing done at The Advocate Job Dept. Only the best lines of writing paper are kept in stock and the highest grade of inks used for all work. There is not a CHEAP line in our office, for experience has taught us to carry only the best and the most serviceable.

People who leave their order for printing with this office, have that inward feeling of assurance that they are going to get just the kind of a job they want. They do not speculate—they know, and they are never disappointed. We spare no pains to give our customers just what they want, and that is one reason why this office has gained the reputation it has for turning out the highest class of Job Printing only.

If you are not yet a customer, join our list and have your letter heads and envelopes, or whatever nature your work may be, printed in an artistic manner. It does not cost any more for good printing than it does for the cheaper kind, and a small order is given as good care as a large one.

**CATALOGUE PRINTING**

and would be pleased to quote prices for this class of work at any time. We guarantee strict satisfaction in all cases.
