

LOCAL AND OTHER ITEMS.

Mr. T. H. CHAPMAN is at present in correspondence regarding the visit of Justice McCarthy to this city.

A steamer excursion, under the auspices of the City Council, takes place to-night in the steamer S. Lawrence.

Mr. J. M. TULLY, of Maryville, Charlotteville, recently placed a fine basket of crab apples on one tree in his orchard.

Mr. J. H. BROWN, printer of this city, who has been spending a few weeks holidays in Boston, Mass., returned home last evening.

At the High Mass in St. Dunstan's Cathedral, on Sunday last, Rev. Charles Rathke, C. S. A. E., preached a forcible and practical sermon on the Gospel of the Day.

This Rev. A. J. McDonald, Gregory McDonald, and A. E. Burke, who accompanied His Lordship, Bishop McLeary and party as far as Montreal, have returned home.

The Halifax markets of the 11th September: Potatoes, 22 to 26 cents per bushel; Onions, 43 to 44 cents; P. E. Island Mince Pork, \$13 to \$14 per barrel; Butter, \$10 to \$10.50; Butter, 12 to 15 cents per lb.

We have received the first number of the Printing Press, a monthly arranged quarterly magazine, devoted to the Literature and Mechanics of Printing and Printing Machinery. It is published at Tribune Building, New York; subscription 25 cents per annum.

We are indebted to the American Mercantile and Collection Agency, of 254 and 256 Broadway, New York, for a copy of the American Advertiser, a bi-weekly journal in the interest of newspaper publishers and advertising managers.

The S.S. Worcester arrived in this port from Boston last evening with the following passengers: Messrs. W. H. Millett, Porter, W. W. Langley, H. G. McKewen, John H. Burns, Charles M. Keady, Thomas Walsh, Peter Korman, Miss Jessie Campbell, Mrs. J. Davies and Mrs. McCarra.

We beg to tender our congratulations to our enterprising young friend, Mr. James D. Taylor, on the interesting event in which he performed such a prominent part this morning. We hope the fullest measure of success and happiness is in store for himself and fair young bride all through life.

The Court Musicians from London, with Mr. Charles Abernethy, the celebrated English Tenor; Miss Taunton, the Prima Donna; and five others, including Mr. Walter Pelham, are making a concert tour of Canada and the United States, and will give two concerts in Charlotteville on the 6th and 7th of October.

The schooner Arctic, with a load of coal from Glouce Bay, C. B., for this port, foundered off Scatarie on the 9th inst.; crew saved. She was owned by Capt. James Power and Mr. Daniel Webster, of this city. She was valued at \$1700, and as there was no insurance, the loss will be heavily felt by those gentlemen.

A son of Mr. John O'Neill, formerly of this city, who is visiting his uncle, George O'Neill, Esq., Verdon River, met with what may prove a fatal accident, on Friday evening last. Young O'Neill was out shooting, and while climbing over a fence, it is thought, the gun went off, the charge striking under the chin, passing upwards through the jaw-bone and coming out at the eye. Medical assistance was on hand as soon as possible after the accident, but there is very little hope of the young man's recovery.

Mr. JAMES MORRISON, of St. Andrew's Parish, who has just finished his Philosophical studies in the Propaganda College, Rome, took the degree of Doctor of Philosophy at the recent annual closing exercises of that institution. We congratulate our friends on his success. Of all the students attending the Philosophy classes only four obtained the degree of Doctor. Of this number two were from the Maritime Provinces, viz., Mr. Morrison and Mr. John Chisholm, of the Diocese of Arichat. This shows that our Provincials are able to hold their own against the representatives of all nations.

Messrs. MARTIN MARTIN and A. A. Smith, of Eldon, Belfast, furnish the following certificate of the Potato Digger advertised by Mr. H. T. LePage in another column: September 11, 1886.

DEAR Sir, - The Potato Digger purchased from you last season gives us entire satisfaction, and much better than we anticipated when we had it shipped. We cheerfully recommend it to any farmer wishing a first-class digger.

STUART ROGERS, the celebrated impersonator, gave two excellent entertainments in the Lyceum Monday and Tuesday evenings. On Monday a good audience greeted his performance, but last evening the attendance was small. His recitations were excellently rendered, and his character impersonations were inimitable; that of Mr. Gladstone being exceedingly life-like. The shabby manner in which first-class entertainments are patronized in this city, which a broken-down circus or a cheap negro show draw immense houses, is to be regretted. With a good Opera House No. 1 in our city, this reproach should not exist.

The following are the Boston market prices given by Messrs. Hatheway & Co. in their circular of the 11th inst.: Potatoes, 40 cents per bushel; Onions, 37 to 38 cents per bushel; Eggs, 10 1/2 to 11 cents per dozen; Butter, 23 to 24 cents per lb. Dealers in mackerel have not been so eager to secure supplies, and the upward tendency of prices has been checked. Sales of mackerel lots from Nova Scotia and P. E. Island are made at 61 per barrel, and at the close the market was slow at \$11. Last Bay trip here sold at \$12.75 per barrels-packed, without barrel. Last sale at Gloucester was at \$12. Imported cargo lots of Bay are quoted at \$9.50 to \$10 for No. 2, \$12 to \$13 for No. 1; and \$15 to \$22 for No. 1. The catch continues to run light, and the total landings by the New England fleet up to date is only 45,641 barrels against 245,000 barrels last year, a deficiency of nearly 200,000 barrels. The jobbing demand is fair, but the scarcity of medium fish retards trade.

WANT ATOES. Led 60,000 Bushels at Season and made our Shippers. Have to sell in small lots to get outside prices, few more good ships to us and ship to EMWAY & CO., Wholesale Dealers, at Wharf, Boston. MEMBER OF COMMERCE, INCORPORATED 1873.

Local and Special News.

The harbor in this town, owing to dense fog during a stormy night, was so dark that the lights of the ships will be seen and the ships will be seen.

A Word of Explanation. The liver is essential to move the blood; it is the great purifier of the blood; it is the great purifier of the blood; it is the great purifier of the blood.

Pain cannot exist at all without heat. The liver is essential to move the blood; it is the great purifier of the blood; it is the great purifier of the blood.

In Season. It is now in season to wear our readers against the sudden attacks of cholera, typhoid, and the various blood-poisoning incidents to the season of ripe fruit, strawberries, etc.

Another Life Saved. About two years ago, a prominent citizen of Charlotteville was afflicted with cholera, and he died.

A National Evil. There is no question but that Dyspepsia is the national disease of our country, and when complicated with diseases of the liver and kidneys is the cause of untold misery.

Honesty the Best Policy. An honest medicine is the noblest work of God, and it is the duty of every citizen to use it.

It is of the greatest importance that the liver should be kept in a good healthy condition. The liver is the great purifier of the blood, and it is the great purifier of the blood.

Of vital importance. It is of vital importance that the human body should have pure blood, and that a true plant should have pure soil.

There is no one article in the line of medicine that gives so large a return for the money as a good purifying medicine. It is the great purifier of the blood, and it is the great purifier of the blood.

A Cure for Cholera Morbus. A positive cure for this dangerous complaint, and for all other chronic forms of Bowel Complaint, is to be procured from any drug store.

Dr. Pierce's "Fruit of Life" is a most valuable food and medicine. It is a most valuable food and medicine. It is a most valuable food and medicine.

THE CHARLOTTETOWN HERALD is acknowledged to be the Best Paper published in the Province.

WE SHOULD BLOT OUT DISEASE IN ITS EARLY STAGES.

Potato Diggers. Potato Diggers.

HENRY T. LEPAGE'S

Improved Potato Digger Victorious Everywhere,

And has no equal for lightness of draft and clean digging. It does not bruise, cover up or smother the Potatoes too far; has an adjustable steel shovel, and this year has a steel beam which will not bend out of true, and is so set as not to require holding in the drills.

No winding of stocks under the beaters, and no choking in damp or woody ground. Try one alongside any other Digger and keep the best. Numerous testimonials have been offered, but space will not admit.
